(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 12.8 percent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

R. PRESCOTT AND SON, INC.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* R. Prescott and Son, Inc., Keeseville, New York, may compute its adjusted ceiling prices for radio cabinets of its manufacture by increasing by 8.34 percent the ceiling prices to each class of purchaser as established by Order No. 2 under § 1499.159e of Maximum Price Regulation No. 188.

(b) *Ceiling prices of purchasers for resale.* (1) A purchaser for resale, who had an established ceiling price prior to the effective date of this order for any article, whose manufacturer's ceiling price was adjusted in accordance with the provisions of this order, may increase that established ceiling price by 8.34 percent.

(2) A purchaser for resale who had no established ceiling price prior to the effective date of this order for any article whose ceiling price is subject to this order, shall determine his ceiling price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is one which meets all the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determinations of a ceiling price in this way need not be reported to the Office of Price Administration, however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the resale ceiling price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted ceiling prices for resales of the articles. This notice may be given in any convenient form.

(e) All requests contained in the application for price adjustment filed by R. Prescott & Son, Inc., on January 14, 1946, and all amendments and additions thereto, not specifically granted by this order are hereby denied.

(f) The provisions of Supplementary Order No. 153 shall have no application to any sales of any articles subject to this order.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 31st day of May 1946.

Issued this 29th day of May 1946.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's maximum prices.* Crawford Manufacturing Co., Inc., of Richmond, Virginia, may compute its adjusted maximum prices for all articles of automobile seat covers which it manufactures, as follows:

(1) For an article in its line during October 1941, the adjusted maximum price is the highest price charged during that month to each class of purchaser increased by 29.3 percent.

(2) For an article not in its line during October 1941, but which has a properly established maximum price, in effect before the effective date of this order, the adjusted maximum price is the article's properly established maximum price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted maximum price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted maximum price fixed in accordance with this order is its new maximum price if it is higher than its previously established maximum price including all increases and adjustments otherwise authorized for him individually, or for his industry.

(b) *Maximum prices of purchasers for resale.* (1) A reseller who determines his maximum resale price under the General Maximum Price Regulation shall calculate his maximum price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has properly established maximum price. For this purpose the "most comparable article" is the one which meets all the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a maximum price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called by OPA Form 620–759 with regard to how he determined his maximum price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a maximum price under § 1499.3 (c) of the General Maximum Price Regulation. Maximum prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(2) Resellers whose maximum prices are specifically established under Supplementary Regulation No. 14J shall continue to sell at prices no higher than the maximum prices specified in that regulation.

(3) The provisions of Supplementary Order No. 153 shall not apply to sales of articles covered by this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, discounts, allowances, and other price differentials, in effect during March 1942, or which have been properly established under the applicable OPA regulation.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles covered by this order. This notice may be given in any convenient form.

(e) *Relation of this order to Order No. 4418.* The manufacturer may sell at maximum prices adjusted under Order No. 4418 under Maximum Price Regulation No. 188 in lieu of taking the adjustment permitted in (a).

(f) *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

(g) *Effective date.* This order shall become effective on May 31, 1946.

Issued this 29th day of May 1946.

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 22 per cent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(b) *Reseller's ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows: A reseller shall calculate his ceiling price by adding to his invoice cost the same percentage mark-up which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is one which meets all the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

[RPS 10, Order 9]

PIG IRON

ORDER AUTHORIZING ADJUSTABLE PRICING

This order permits producers of pig iron to enter into adjustable pricing agreements until action by the Office of Price Administration upon a pending request for an increase in maximum prices. This permission is being granted to promote the production and distribution of pig iron essential to an effective transition to a peacetime economy.

The Office of Price Administration has authorized producers of coal, coke and iron ore to sell their products on an adjustable pricing basis, and any increases in their maximum prices will have retroactive effect. Since these commodities make up most of the costs of producing pig iron, operators of blast furnaces are faced with considerable uncertainty until these factors are determined. Although the Office of Price Administration recently has adjusted the maximum prices for pig iron to levels which were intended to enable the industry to earn its base period return and some allowance was made in such action for potential material cost increases, nevertheless it appears that considerable hardship will be imposed upon producers in the event they are faced with substantial retroactive increases in the costs of their raw materials. In view of these factors, the Price Administrator has found it necessary and proper to permit producers of pig iron to enter into adjustable pricing agreements, and that such action will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended.

For the foregoing reasons, and in accordance with § 1306.52 (a) of Revised Price Schedule No. 10, *It is ordered:*

(a) Any person may sell and deliver, and any person may buy and receive, pig iron at the maximum prices in effect at time of delivery subject to an agreement for price adjustment in accordance with increases in maximum prices granted by the Office of Price Administration after delivery. Prior to action by the Office of Price Administration granting such increases, no payment in excess of the maximum prices in effect at time of delivery shall be made or received.

(b) The permission granted by this order may be revoked by the Administrator at any time, but in any event it shall terminate upon action taken pursuant to Revised Price Schedule No. 10 increasing existing maximum prices for pig iron.

This order shall become effective May 29, 1946.

Issued this 29th day of May 1946.

PAUL A. PORTER,
Administrator.

(2) For sales and deliveries by the manufacturer to all other classes of purchasers the maximum prices are the adjusted maximum prices set forth in paragraph (a) (1), adjusted to reflect the manufacturer's customary differentials for sales to those other classes of purchasers.

(b) Resellers of articles which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

A reseller who determines his maximum resale price under the General Maximum Price Regulation shall calculate his ceiling price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration, however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts and allowances on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of articles covered by this order.

(f) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 29th day of May 1946.

7 CFR, Ch. IX, Part 961

PART 961—MILK IN PHILADELPHIA, PA., AREA

Pursuant to the authority vested in the Secretary of Agriculture under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and orders (7 CFR, Cum. Supp., 900.1 et seq.), a public hearing was held at Philadelphia, Pa., on May 15, 1946, upon a proposed marketing agreement and order regulating the handling of milk in the Philadelphia, Pa., area.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said proposed marketing agreement and order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said proposed marketing agreement and order regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held;

(3) The said proposed marketing agreement and order is limited in its application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act, and the issuance of several orders applicable to subdivisions of such production area would not effectively carry out the declared policy of the act;

(4) The said proposed marketing agreement and order prescribes such terms and conditions regulating the handling of milk as are necessary to effectuate the declared policy of the act, which cannot be accomplished through the application of less restrictive means.

Now, therefore, on the basis of the foregoing findings, it is hereby ordered that, on and after the effective date hereof, the handling of milk in the Philadelphia, Pa., area shall be in conformity to and in compliance with the terms and conditions of the said proposed marketing agreement and order, as hereinafter set forth.

FARM MARKETING QUOTAS

§ 725.230 *Amount of farm marketing quota.* The marketing quota for a farm shall be the actual production of tobacco on the farm acreage allotment, as established for the farm in accordance with Tobacco 13, Part I, Flue-cured and Burley Tobacco Marketing Quota Regulations 1946–47. The actual production of the farm acreage allotment shall be the average yield per acre of the entire acreage of tobacco harvested on the farm in 1946 times the farm acreage allotment. The excess tobacco on any farm shall be that quantity of tobacco which is equal to the average yield per acre of the entire acreage of tobacco harvested on the farm in 1946 times the number of acres harvested in excess of the farm acreage allotment.

§ 725.231 *No transfers.* There shall be no transfer of marketing quotas (except as provided in Tobacco 13, Part I, Flue-cured and Burley Tobacco).

§ 725.232 *Disposition of excess tobacco.* The farm operator may elect to give proof of disposition of excess tobacco prior to the marketing of any tobacco from the farm by any of the following methods:

(a) By a declaration of intention to market all tobacco available for marketing and the payment at the office of the county committee by check, draft, or money order drawn payable to the Treasurer of the United States in an amount equal to the penalty which would be due upon the marketing of the tobacco available for marketing. Any additional amount of penalty determined to be due after all marketings of tobacco from the farm have been made shall be paid by the operator not later than 20 days after receipt of notice of such additional penalty. Any amount collected in excess of the penalty due shall be refunded to the producer upon application filed under provisions of § 725.249.

(b) By storage of the excess tobacco, the tobacco so stored to be representative of the entire 1946 crop produced on the farm, and posting of a bond approved by the county committee and the State Committee in the penal sum of twice the amount of penalty which will become due upon the marketing of the excess tobacco.

(c) By furnishing to the county committee satisfactory proof that the excess tobacco will not be marketed.

§ 725.233 *Issuance of marketing cards.* A marketing card shall be issued for every farm having tobacco available for marketing. Subject to the approval of the county committee, two or more marketing cards may be issued for any farm. All entries on each marketing card shall be made in accordance with the instructions for issuing marketing cards. Upon the return to the office of the county committee of the marketing card after all the memoranda of sale have been issued therefrom and before the marketing of tobacco from the farm has been completed, a new marketing card of the same kind, bearing the same name, information and identification as the used card shall be issued for the farm. A new marketing card of the same kind shall be issued for any farm to replace a card which has been reported to the county committee, as having been lost, destroyed, or stolen.

(a) *Within Quota Marketing Card (Tobacco 20).* A Within Quota Marketing Card authorizing the marketing without penalty of the 1946 crop of tobacco on the farm and any tobacco carried over from a prior marketing year shall be issued for a farm under the following conditions:

(1) If the harvested acreage of tobacco in 1946 is not in excess of the farm acreage allotment; if any excess tobacco carried over from any previous marketing year can be marketed without penalty under the provisions of § 725.239; if the operator of the farm does not operate another farm on which the harvested acreage of tobacco exceeds the farm acreage allotment; and if the county committee does not determine that a zero percent excess marketing card is necessary to protect the interest of the Government and insure the proper identification and accounting for tobacco produced on the farm and the proper use of the marketing card issued for the farm.

(2) If excess tobacco produced on the farm is disposed of in accordance with § 725.232, or

(3) If the tobacco was grown for experimental purposes on land owned or leased by publicly-owned agricultural experiment station and is produced at public expense by employees of the experiment station, or if the tobacco was produced by farmers pursuant to an agreement with an experiment station whereby the experiment station bears the costs and risks incident to the production of the tobacco and the proceeds from the crop inure to the benefit of the experiment station; *Provided*, That such agreement is approved by the State committee prior to the issuance of a marketing card for the farm.

(b) *Excess Marketing Card (Tobacco 21).* An Excess Marketing Card showing the extent to which marketings of tobacco from a farm are subject to penalty shall be issued for a farm unless a within quota card is required to be issued for the farm under paragraph (a) of this section.

§ 725.234 *Person authorized to issue cards.* The county committee shall designate one person to sign marketing cards for farms in the county as issuing officer. The issuing officer may, subject to the approval of the county committee, designate not more than three persons to sign his name in issuing marketing cards: *Provided*, That each such person shall place his initials immediately beneath the name of the issuing officer as written by him on the card.

§ 725.235 *Rights of producers in marketing cards.* Each producer having a share in the tobacco available for marketing from the farm shall be entitled to the use of the marketing card for marketing his proportionate share of the total amount of tobacco available for marketing from the farm.

§ 725.236 *Successors in interest.* Any person who succeeds in whole or in part to the share of a producer in the tobacco available for marketing from the farm shall, to the extent of such succession, have the same rights as the producer to the use of the marketing card for the farm.

§ 725.237 *Invalid cards.* A marketing card shall be invalid under any of the following conditions:

(a) If it is not issued or delivered in the form and manner prescribed;

(b) If entries are not made thereon as required;

(c) If it is lost, destroyed, stolen, or becomes illegible;

(d) If any erasure or alteration has been made, and not properly initialed.

In the event any marketing card becomes invalid (other than by loss, destruction, theft or omission, alteration and incorrect entry which can not be corrected by a field assistant) the farm operator (or the person having the card in his possession) shall return it to the county office at which it was issued.

If any entry is not made on a marketing card as required (either through omission or incorrect entry) and the proper entry is made by a field assistant then such card shall become valid.

§ 725.238 *Report of misuse of marketing card.* Any information which causes any field assistant, a member of any state, county, or community committee, or any employee of any State or county committee to believe that any tobacco which actually was produced on one farm has been or is being marketed under the marketing card issued for another farm shall be reported immediately by such person to the State Committee.

MARKETING OF TOBACCO AND PENALTIES

§ 725.239 *Extent to which marketings from a farm are subject to penalty.* The extent to which marketings of tobacco from any farm having no carry-over tobacco are subject to penalty shall be that percentage of the tobacco available for marketing from the farm which the acreage of tobacco harvested in excess of the farm acreage allotment for the farm and not disposed of as provided in § 725.232 is of the acreage of tobacco harvested from the farm. If the farm operator refuses to furnish or prevents the county committee from obtaining any information necessary to the issuance of the marketing card, all tobacco available for marketing from the farm shall be subject to penalty, and the farm operator shall be issued an excess marketing card showing 100 percent excess.

The extent to which marketings of tobacco from any farm having tobacco available for marketing which has been carried over from a prior marketing year are subject to penalty shall be the percentage determined as follows:

(a) Determine the number of "carry-over acres" by dividing the number of pounds of tobacco carried over from the prior year by the normal yield for the farm for that year.

(b) Determine the number of "within quota carry-over acres" by multiplying the "carry-over" (paragraph (a) of this section) by the "percent within quota" (i. e., 100 percent minus the percent excess) for the year in which the carry-over tobacco was produced.

(c) Determine the "total acres" of tobacco by adding the "carry-over acres" (paragraph (a) of this section) and the acreage of tobacco harvested in the current year.

(d) Determine the excess acreage by subtracting from the "total acres" (paragraph (c) of this section) the sum of the 1946 allotment and the "within quota carry-over acres" (paragraph (b) of this section).

(e) Determine the percent excess to be shown on the marketing card by dividing the "total acres" into the excess acreage (paragraph (d) of this section).

The burden of any penalty with respect to carry-over tobacco shall be borne by those persons having an interest in such tobacco.

§ 725.240 *Memorandum of sale.* Each marketing of tobacco from a farm shall be identified by an executed memorandum of sale from the marketing card (Tobacco 20 or Tobacco 21) issued for the farm on which the tobacco was produced. If a memorandum of sale is not executed by the end of the sale day on which the tobacco was marketed, the marketing shall be a suspended sale, and, unless a memorandum identifying the tobacco so marketed is executed within four weeks after such sale day, the entire amount of tobacco so marketed shall be deemed to be subject to penalty and shall be identified by a form Tobacco 28, Sale Without Marketing Card. The memorandum of sale or form Tobacco 28 shall be executed only by a field assistant with the following exceptions:

(a) A warehouseman, or his authorized representative, who has been designated on an Authorization to Issue Memoranda of Sale (Tobacco 23) may issue a memorandum of sale to identify a warehouse sale, if a field assistant is not available at the warehouse when the card is presented. Each memorandum of sale issued by a warehouseman shall be presented promptly by him to the field assistant for verification with the warehouse records.

(b) In the case of flue-cured tobacco only, a dealer, or his authorized representative, operating a receiving point for scrap tobacco at a redrying plant (and other regular receiving points operated by such dealer or his agent or employees) or at an auction warehouse, and who keeps records showing the information specified in § 725.252 (e), who has been authorized on form Tobacco 23, may issue a memorandum of sale covering a sale of scrap tobacco only if the bill of nonwarehouse sale has been executed on the back of such memorandum of sale.

The authorization to issue memoranda of sale may be withdrawn from any warehouseman or dealer upon written notice by the State Committee.

Each excess memorandum of sale issued by a field assistant shall be checked by the warehouseman or dealer (or his representative) to determine whether the amount of penalty shown to be due has been correctly computed and such warehouseman or dealer shall not be relieved of any liability with respect to the amount of penalty due because of any error which may occur on the memorandum of sale.

§ 725.241 *Bill of nonwarehouse sale.* Each marketing of tobacco from a farm other than by sale at public auction through a warehouse in the regular course of business shall be identified by a bill of nonwarehouse sale (back of the memorandum of sale) completely executed by the buyer and the farm operator. If the bill of nonwarehouse sale is issued to cover scrap tobacco, the word "Scrap" shall be written thereon immediately above the words "Bill of Nonwarehouse Sale".

Each bill of nonwarehouse sale covering any marketing except scrap tobacco shall be presented to a field assistant for issuance of a memorandum of sale and for recording in the Dealer's Record (Tobacco 25).

Each bill of nonwarehouse sale covering scrap tobacco shall be delivered to a person at a receiving point who has been authorized to issue memoranda of sale.

§ 725.242 *Memorandum of resale.* Each resale of tobacco through a warehouseman shall be identified by a memorandum of resale (Tobacco 32) executed by a field assistant.

§ 725.243 *Marketings free of penalty.* Any tobacco marketed from a farm which is identified by a valid memorandum of sale from the marketing card issued for the farm shall be free of penalty to the extent shown by the memorandum of sale.

§ 725.244 *Marketings subject to penalty*—(a) *Farm tobacco.* With respect to tobacco marketed from farms having excess tobacco available for marketing, the penalty shall be paid upon that percentage of each lot of tobacco marketed which the tobacco available for marketing in excess of the farm quota is of the total amount of tobacco available for marketing from the farm. The memorandum of sale issued to identify each marketing of tobacco shall show the amount of penalty due on such marketing.

(b) *Dealer's tobacco.* Any marketing of tobacco by a dealer which such dealer represents to be a resale, but all or any part of which, when added to prior resales by such dealer as shown on Form Tobacco 25 is in excess of the total amount of purchases as shown on such dealer's record shall be a marketing of tobacco subject to penalty unless and until the dealer furnishes proof acceptable to the Secretary showing that such tobacco is not subject to penalty.

(c) *Tobacco not identified by a valid memorandum.* Any tobacco marketed from a farm which is not identified by a valid memorandum of sale from the marketing card issued for the farm on which the tobacco was produced shall be subject to penalty, and any resale of tobacco through a warehouseman and not identified by a valid memorandum of resale shall be subject to penalty.

§ 725.245 *Persons to pay penalty.* The person to pay the penalty due on any marketing of excess tobacco shall be one of the following as applicable:

(a) *Warehouseman.* If the tobacco is marketed by the producer through a warehouseman the penalty shall be paid by the warehouseman who may deduct an amount equivalent to the penalty from the price paid to the producer. If tobacco is marketed through a warehouseman by resale the penalty shall be paid by the warehouseman if no memorandum of resale is issued.

(b) *Dealer.* If the tobacco is acquired from the producer by a dealer, the penalty shall be paid by the dealer who may deduct an amount equivalent to the penalty from the price paid to the producer.

(c) *Agent.* If the tobacco is marketed by the producer through an agent who is not a warehouseman, the penalty shall be paid by the agent who may deduct an amount equivalent to the penalty from the price paid to the producer.

(d) *Warehouseman and dealer on dealer's tobacco.* Any penalty due upon tobacco subject to penalty under § 725.244 (b), shall be paid by the warehouseman who may deduct an amount equivalent to the penalty from the price paid to the dealer, but the dealer shall not be relieved of responsibility for payment of such penalty.

(e) *Producer marketing outside United States.* If the tobacco is marketed by the producer directly to any person outside the United States, the penalty shall be paid by the producer.

§ 725.246 *Rate of penalty.* The penalty per pound upon the marketing of any tobacco in excess of the marketing quota for the farm on which the tobacco is produced and on the marketing of any other tobacco not identified under these regulations as being free of penalty shall be ten cents per pound in the case of flue-cured tobacco marketed prior to May 1, 1947 or 40 percent of the average market price (calculated to the nearest whole cent) for the 1946 crop if marketed on or after May 1, 1947, and sixteen cents per pound in the case of Burley tobacco.

§ 725.247 *Payment of penalty.* Penalties shall become due at the time the tobacco is marketed and shall be paid by remitting the amount thereof to the State Committee not later than the end of the calendar week following the week in which the tobacco became subject to penalty under § 725.240. A draft, money order, or check drawn payable to the Treasurer of the United States should be used to pay any penalty, but any such draft or check shall be received subject to payment at par.

§ 725.248 *Penalty for false identification or failure to account for disposition of tobacco.* If any producer falsely identifies or fails to account for the disposition of any tobacco, an amount of tobacco equal to the normal yield of the number of acres harvested in 1946 in excess of the farm acreage allotment shall be deemed to have been marketed in excess of the marketing quota for the farm and the penalty in respect thereof shall be paid and remitted by the producer.

§ 725.249 *Request for return of penalty.* Any producer of tobacco, after the marketing of all tobacco available for marketing from the farm, and any other person who bore the burden of the payment of any penalty may request the return of the amount of such penalty which is in excess of the amount due. Such request shall be filed with the county committee within two (2) years after the payment of the penalty.

RECORDS AND REPORTS

§ 725.250 *Producer's records and reports*—(a) *Report on marketing card.* The operator of each farm on which tobacco is produced in 1946 shall return to the office of the county committee each marketing card issued for the farm whenever marketings from the the farm are completed and in no event later than thirty days after the close of the tobacco auction markets for the locality in which the farm is located. Failure to return the marketing card within the time specified (after formal notification) shall constitute failure to give proof of disposition of tobacco marketed from the farm in the event that satisfactory proof of such disposition is not furnished otherwise.

(b) *Additional reports by producers.* In addition to any other reports which may be required under §§ 725.228 to 725.260, inclusive, the operator of each farm or any other person having an interest in the tobacco grown on the farm (even though the harvested acreage does not exceed the acreage allotment and even though no allotment was established for the farm) shall, upon written request by the State Committee and within ten days after the deposit of such request in the United States mails addressed to such person at his last known address, furnish the Secretary, by sending the same to the State Committee, a written report showing, as to the farm at the time of filing said report (1) the number of acres of tobacco harvested, (2) the total production of tobacco, (3) the amount of tobacco on hand and its location, and (4) as to each lot of tobacco marketed, the name and address of the warehouseman, dealer, or other person to or through whom such tobacco was marketed and the number of pounds marketed, the gross price; and the date of marketing.

§ 728.251 *Warehouseman's records and reports*—(a) *Record of marketing.* Each warehouseman shall keep such records as will enable him to furnish to the Secretary a report of the following information with respect to each sale or resale of tobacco made at his warehouse:

(1) The name of the seller (and, in the case of a sale for a producer, the name of the operator of the farm on which the tobacco was produced).

(2) The name of the purchaser.

(3) The date of sale.

(4) The number of pounds sold.

(5) The gross sale price.

(6) The amount of any penalty and the amount of any deduction on account of penalty from the price paid the producer (or a dealer).

Records of all purchases and resales of tobacco by the warehouseman shall be maintained to show a separate account for (1) nonwarehouse sales by farmers which are purchased by or on behalf of the warehouseman, (2) purchases and resales at auction for the warehouse leaf account, (3) resales of floor sweepings and (4) resales of baskets, bundles or leaves not classed as floor sweepings. In the case of accounts (3) and (4) above the amount accumulated in the regular course of warehouse business shall be weighed and recorded on the Dealer's Record (Tobacco 25) at least once each week. Purchases (pounds and gross price for accounts (1) and (2) and pounds only for accounts (3) and (4)) and resales (pounds and gross price) with respect to each account shall be reported each week on the Dealer's Record (Tobacco 25) and such reports shall show separate entries for each of the above items. Any warehouseman who grades tobacco for farmers shall maintain a separate account showing the approximate amount of grading-house scrap obtained from the tobacco graded from each farm. In the case of resales for dealers the name of the dealer making each resale shall be shown on the warehouse records so that the individual lots of tobacco sold by the dealer can be identified.

(b) *Identification of sale on check register.* The serial number of the memorandum of sale issued to identify each marketing of tobacco from the farm or the number of the warehouse bill(s) covering each such marketing shall be recorded on the check register or check stub for the check written with respect to such sale of tobacco.

(c) *Memorandum of sale and bill of nonwarehouse sale.* A record in the form of a valid memorandum of sale (or a sale without marketing card) shall be obtained by every warehouseman to cover each marketing of tobacco from a farm through the warehouse, and if a warehouseman buys tobacco directly from a farmer (other than at a public auction at a warehouse) such warehouseman shall obtain a valid memorandum of sale to cover each such purchase of tobacco, together with a properly executed bill of nonwarehouse sale. Any warehouseman who obtains possession of any grading-house scrap in the course of grading tobacco from any farm shall obtain a memorandum of sale to cover the amount of such scrap tobacco from such farm.

(d) *Resale record.* A record in the form of a memorandum of resale shall be obtained by every warehouseman to cover each resale through the warehouse.

(e) *Suspended sale record.* Any warehouse bills covering farm tobacco for which memoranda of sale have not been issued at the end of the sale day shall be presented to a field assistant who shall stamp such bills "Suspended", write thereon the serial number of the suspended sale, and record the bills on the Field Assistant's Report (Tobacco 29): *Provided*, That if a field assistant is not available, the warehouseman may stamp such bills "Suspended" and deliver them to a field assistant as soon as one is available.

(f) *Warehouse entries on dealer's records.* Each warehouseman shall enter on form Tobacco 25 the total purchases and resales made by each dealer during each sale day at the warehouse. If any tobacco resold by the dealer is tobacco bought by him from a crop produced prior to 1946 the entry on the dealer's record shall clearly show such fact.

(g) *Season report of warehouse business.* Each warehouseman shall furnish the State Committee not later than thirty (30) days following the last sale day of the marketing season a report showing for each dealer or buyer the total pounds and gross price of tobacco purchased and resold on the warehouse floor during the 1946–47 marketing year. This report shall include corrections in billing by each dealer or buyer during the season.

(h) *Report of penalties.* Each warehouseman shall make reports on form Tobacco 27 showing the information required with respect to each sale subject to penalty. Form Tobacco 27 shall be prepared for each week and the report for each week shall be forwarded, together with remittances of the penalties due, as shown thereon, to the State Committee not later than the end of the calendar week following the week in which the tobacco became subject to penalty under § 725.240.

§ 725.252 *Dealer's records and reports.* Each dealer, except as provided in § 725.253, shall keep the records and make the reports as provided by this section.

(a) *Report of dealer's name, address and registration number.* Each dealer shall properly execute and the field assistant shall detach and forward to the State Committee "Receipt for Dealer's Record" contained in form Tobacco 25 which is issued to the dealer.

(b) *Record and report of purchases and resales.* Each dealer shall keep a record and make reports on form Tobacco 25 showing all purchases and resales of tobacco made by the dealer and, in the event of resale of tobacco bought from a crop produced prior to 1946 the fact that such tobacco was bought by him and carried over from a crop produced prior to 1946.

(c) *Report of penalties.* Each dealer shall make a report on form Tobacco 27 showing the information with respect to all purchases subject to penalty made by him during each calendar week. The penalties listed on each such report shall be remitted with the report.

(d) *Memorandum of sale and bill of nonwarehouse sale.* For each lot of tobacco purchased from a farmer each dealer shall obtain a record in the form of a valid memorandum of sale. No memorandum of sale shall be issued unless the bill of nonwarehouse sale, on the reverse side of the memorandum of sale, has been executed.

(e) *Record and report of scrap tobacco.* Each dealer operating a receiving point for scrap tobacco who has been authorized on form Tobacco 23 to issue memoranda of sale, shall keep a record and make reports on form Tobacco 25 showing all tobacco received. Such reports shall be accompanied by memoranda of sale and bills of nonwarehouse sale with respect to all tobacco covered by the reports.

(f) *Additional records.* Each dealer shall keep such records, in addition to the foregoing, as may be necessary to enable him to furnish the following information with respect to each lot of tobacco purchased or sold by him:

(1) The name of the seller (and in the case of a purchase from a producer, the name of the operator of the farm on which the tobacco was produced).

(2) The name of the purchaser.

(3) The date of the transaction.

(4) The number of pounds sold.

(5) The gross purchase or sale price.

All reports shall be forwarded to the State Committee not later than the end of the week following the calendar week covered by the reports.

§ 725.253 *Dealers exempt from regular records and reports.* Any dealer who does not purchase or otherwise acquire tobacco except at a warehouse sale and who does not resell, in the form in which tobacco ordinarily is sold by farmers, more than ten percent of the tobacco purchased by him, shall not be subject to the provisions of § 725.252; but each such dealer shall make such reports to the Secretary as the Director, Tobacco Branch, Production and Marketing Administration, may find necessary to enforce §§ 725.228 to 725.260, inclusive.

§ 725.254 *Records and reports of truckers and persons redrying, prizing or stemming tobacco.* Every person engaged in the business of trucking tobacco for producers shall keep such records as will enable him to furnish the Secretary a report with respect to each lot of tobacco received by him showing the name and address of the farm operator, the date of the receipt of the tobacco, the number of pounds received, and the place to which it was delivered. Every person engaged in the business of redrying, prizing or stemming tobacco for producers shall keep such records as will enable him to furnish the Secretary a report showing the information provided above for truckers and in addition the purpose for which the tobacco was received, the amount of advance made by him on the tobacco, and the disposition of the tobacco. Each such person shall make such reports to the Secretary as the Director, Tobacco Branch, Production and Marketing Administration, may find necessary to enforce §§ 725.228 to 725.260, inclusive.

§ 725.255 *Separate records and reports from persons engaged in more than one business.* Any person who is required to keep any record or make any report as a warehouseman, dealer, processor, or as a person engaged in the business of redrying, prizing, or stemming tobacco for producers, and who is engaged in more than one such business, shall keep such records as will enable him to make separate reports for each such business in which he is engaged, to the same extent for each such business as if he were engaged in no other business.

§ 725.256 *Failure to keep records or make reports.* Any, warehouseman, dealer, processor or common carrier of tobacco, or person engaged in the business of redrying, prizing or stemming tobacco for producers, who fail: to make any report or keep any record as required under §§ 725.225 to 725.260, inclusive, or who makes any false report or record, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than $500; and any tobacco warehouseman or dealer who fails to remedy such violation by making a complete and accurate report or keeping a complete and accurate record as required under §§ 725.228 to 725.260, inclusive, within fifteen days after notice to him of such violation shall be subject to an additional fine of $100 for each ten thousand pounds of tobacco, or fraction thereof, bought or sold by him after the date of such violation; *Provided*, That such fine shall not exceed $5,000; and notice of such violation shall be served upon the tobacco warehouseman or dealer by mailing the same to him by registered mail or by posting the same at any established place of business operated by him, or both. Notice of any violation by a tobacco warehouseman or dealer shall be given by the Director, Tobacco Branch, Production and Marketing Administration.

§ 725.257 *Examination of records and reports.* For the purpose of ascertaining the correctness of any report made or record kept, or of obtaining information required to be furnished in any report but not so furnished, any warehouseman, dealer, processor, common carrier or person engaged in the business of redrying, prizing, or stemming tobacco for producers shall make available for examination, upon written request by the State Committee or Director, Tobacco Branch, Production and Marketing Administration, such books, papers, records, accounts, correspondence, contracts, documents, and memoranda as the State Committee or Director, Tobacco Branch, has reason to believe are relevant and are within the control of such person.

§ 725.258 *Length of time records and reports to be kept.* Records required to be kept and copies of the reports to be made by any person under these regulations for the 1946–47 marketing year shall be kept by him until June 30, 1948, in the case of flue-cured tobacco and Sept. 30, 1948, in the case of Burley tobacco. Records shall be kept for such longer period of time as may be requested in writing by the Director, Tobacco Branch, Production and Marketing Administration.

§ 725.259 *Information confidential.* All data reported to or acquired by the Secretary pursuant to the provisions of §§ 725.228 to 725.260, inclusive, shall be kept confidential by all officers and employees of the United States Department of Agriculture and by all members and employees of county committees and only such data so reported or acquired as the Secretary deems relevant shall be disclosed by them and then only in a suit or administrative hearing under Title III of the act.

§ 725.260 *Redelegation of authority.* Any authority delegated to the State Committee by these regulations may be redelegated by the State Committee.

(f) *Conversion weight.* (1) The conversion weight of all deliveries of beef, and the conversion weight of carcasses and of cuts and trimmings derived therefrom, and of beef products produced therefrom, shall be determined by multiplying the weight thereof by the appropriate conversion factor set forth below:

Type and description of product:	*Conversion factor (multiplier)*

(2) The conversion weight of beef of any type used in the preparation of sausage or in the preparation of canned meat, or any other beef product not specified above, shall be computed by determining, on the basis of the manufacturing formula, the net weight of the beef in such processing, and multiplying such net weight by the applicable conversion factor set forth above for such type of beef. The net weight of beef which is cooked and used in the preparation of canned meat not specified above shall be the weight thereof before cooking.

(3) The Administrator may, upon written application, revise any conversion weight factor where it is shown that such factor is working an undue hardship in the preparation of certain products.

signed by the authorized purchaser, containing the following: The name and address of both parties, the contract number of the contract between the authorized purchaser and the governmental agency, and a statement by the authorized purchaser that the set aside beef to be delivered, or an equivalent amount of set aside beef of the same type and grade, will be or has been used in the fulfillment of such contract. The slaughterer shall indorse on such certificate the date of delivery and the conversion weight of such beef, together with a description permitting conversion in accordance with paragraph (f) of this section. The slaughterer and the authorized purchaser shall each retain an original of such certificate for at least two years and shall submit the same to the Administrator upon request. All statements contained in or accompanying such certificate shall be deemed representations to an agency of the United States. No person shall be entitled to rely upon any such certificate if he knows or has reasonable cause to believe it to be false.

(i) *Storage; packaging.* All beef set aside, reserved and held under this order shall be stored in such manner as to maintain the quality thereof, and shall be prepared and packaged in accordance with the requirements of the governmental agency purchasing the beef.

(k) *Direction for delivery.* In the event of a failure on the part of any person subject to this order to deliver the required quantities of set aside beef within the time limit applicable hereunder, or upon a failure on the part of such person to prepare, process, wrap or package such set aside beef in accordance with requirements of the governmental agency purchasing the same, then and in that event the Administrator may direct that such beef be delivered forthwith to such governmental agency regardless of the stage of preparation, processing, wrapping or packaging. In the event of such direction for delivery, the Administrator or the governmental agency entitled to delivery may make provision for completing the processing, wrapping or packaging of such beef to meet the specifications of such governmental agency and may charge the expense thereof to the person required to make such delivery. Any direction for delivery in accordance with the provisions of this paragraph shall not affect the right of the Government to take any other action or proceeding under paragraph (q) of this order.

(l) *Allocation.* The Administrator may, by general order or written notice to individual slaughterers, order the allocation of beef set aside under this order to or among specific governmental agencies, authorized purchasers or ship suppliers. In the absence of such allocation, slaughterers may, subject to paragraph (h) of this section, sell beef so set aside to any such person or agency.

(m) *Existing contracts.* The provisions of this order shall not be construed as reducing the amount of meat which any slaughterer is required to offer or to deliver under any existing contract with a governmental agency, as defined herein, or with the United States Maritime Commission.

(n) *Reports.* Every slaughterer subject to this order shall report to the Administrator concerning his production of and transactions in beef. All such reports shall be signed by the slaughterer, by a partner, if the slaughterer is a partnership, or by a responsible officer if the slaughterer is a corporation.

(o) *Audits and inspections.* The Administrator shall be entitled to make such audits and inspections of the books, records and other writings, premises, supplies of livestock or stocks of meat of any person, and to make such investigations as may be necessary or appropriate, in his discretion, to the enforcement of administration of the provisions of this order.

(p) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief from the Order Administrator. Petitions shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him by the Administrator. If the petitioner is dissatisfied with the action taken by the Order Administrator, he may, by request addressed to the Order Administrator, obtain a review of such action by the Administrator. After said review, the Administrator may take such action as he deems appropriate, which action shall be final.

(q) *Violations.* (1) Any person who violates any provision of this order which requires beef to be set aside, reserved and held for delivery to governmental agencies, authorized purchasers or ship suppliers, or any provision of this order which requires set aside beef to be delivered to such governmental agencies, authorized purchasers or ship suppliers shall, upon certification to the Reconstruction Finance Corporation, be subject to the withholding by the Reconstruction Finance Corporation of any meat subsidy claimed by such person.

(2) Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making deliveries of, or using livestock, meat, meat products, or animal fats.

(3) Any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Civil action may also be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(r) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise provided, be addressed to the Order Administrator, War Food Order No. 75–2, Livestock Branch, Production and Marketing Administration, United States Department of Agriculture, 5 South Wabash Avenue, Chicago 3, Illinois.

(s) *Territorial scope.* This order shall apply within the 48 states and the District of Columbia.

(t) *Effective date.* This amendment shall become effective at 12:01 a. m., e. s. t., June 2, 1946. PART 1401—DAIRY PRODUCTS

EVAPORATED MILK

The fulfillment of requirements for the defense of the United States will result in a shortage of the supply of evaporated milk for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1401.207 *Evaporated milk required to be set aside*—(a) *Definitions.* (1) "Evaporated milk" means evaporated milk as defined in the definitions and standards of identity for evaporated milk (21 CFR, Cum. Supp., 18.520 et seq.), issued on June 28, 1940, pursuant to the Federal Food, Drug, and Cosmetic Act.

(2) "Person" means any individual, partnership, corporation, association, or any other business entity or organized group of persons, whether incorporated or not.

(3) "Producer" means any person who manufactures evaporated milk.

(4) "Receiver" means any person who has facilities or access to facilities which enable him to receive, store, and ship evaporated milk in carload lots, and who customarily ships evaporated milk in carload lots.

(5) "Set aside" means to set aside and hold for sale and delivery to any designated agency.

(6) "Designated agency" means any of the following: (i) The Armed Services of the United States (excluding, for the purposes of this order, the United States Army post exchanges, the United States Navy ship service departments, and the United States Marine Corps post exchanges); (ii) the United States Department of Agriculture (including, but not being limited to, any corporate agency thereof); (iii) the War Shipping Administration; (iv) any approved ship supplier designated as such by the War Shipping Administration; (v) the United States Veterans' Administration; and (vi) any other instrumentality or agency designated by the Administrator.

(7) "Armed Services of the United States" means the Army, the Navy, the Marine Corps, and the Coast Guard of the United States.

(8) "Administrator" means the Administrator, Production and Marketing Administration, United States Department of Agriculture, or any officer or employee of the Department to whom the Administrator has heretofore lawfully delegated, or to whom he may hereafter lawfully delegate, authority to act in his stead.

(b) *Restrictions.* (1) Every producer shall set aside, during each calendar month, a quantity of evaporated milk equal to such percentage or portion as the Administrator may order of all evaporated milk produced by him during such month.

(2) Upon receipt of specific authorization from the Administrator, any producer may enter into an agreement with a second producer or a receiver whereby the second producer or receiver will set aside, in addition to any evaporated milk otherwise required to be set aside by him, a quantity of evaporated milk equal to all or part of the evaporated milk required to be set aside by the first producer, and the second producer or receiver shall so set aside such quantity of evaporated milk, within such period as the Administrator may specify, thereby fulfilling the requirements of the first producer pursuant to (b) (1) hereof, with respect to such quantity of evaporated milk.

(3) All evaporated milk set aside pursuant to the provisions hereof shall be stored under the same conditions of storage customarily observed to maintain the quality of evaporated milk, and shall be packaged and assembled for delivery in accordance with requirements and specifications of the designated agencies purchasing such evaporated milk.

(4) Any person who sold and delivered any quantity of evaporated milk to any designated agency during May 1946 may consider such quantity of evaporated milk as having been set aside, pursuant to the provisions hereof or Administrator's order pursuant hereto, by such person during June 1946 or any subsequent calendar month of 1946. Any person who sells and delivers any quantity of evaporated milk to any designated agency during any calendar month of 1946, subsequent to May 1946, in excess of the quantity thereof required to be set aside during such month by such person, pursuant to the provisions hereof or Administrator's order pursuant hereto, may consider such excess quantity of evaporated milk as having been set aside by such person during any subsequent calendar month of 1946.

(5) On and after July 1, 1946, neither a producer nor a receiver shall, unless authorized in writing by the Administrator, sell, contract to sell, or deliver, except to a designated agency, any evaporated milk so long as the total quantity of evaporated milk, set aside pursuant to the provisions of this order, and owned by the respective person, exceeds the total quantity of all evaporated milk required, by the provisions of this order, to be set aside by such person during the immediately preceding calendar month.

(6) Each producer and each receiver, respectively, shall retain in his possession at all times a quantity of set aside evaporated milk which is equal to the total quantity of evaporated milk required to be set aside by each such person minus the total quantity of evaporated milk (i) sold and delivered by each such person to designated agencies, and (ii) released from the set aside provisions of this order.

(7) The Administrator may release any set aside evaporated milk from the restrictions of this order if he determines that no designated agency has contracted for, or declared its intention or desire to contract for, such evaporated milk within such period as he may specify, or that such evaporated milk is not required for any such agencies.

(c) *Existing contracts.* The provisions of this order and of any regulation or order pursuant hereto shall be observed without regard to contracts heretofore or hereafter entered into or any rights accrued or payments made thereunder. This order shall not, however, be construed as reducing the amount of evaporated milk which any person is required to offer or deliver, under existing contracts or contracts subsequently entered into with any designated agency, to any such agency.

(d) *Records and reports.* (1) The Administrator shall be entitled to obtain such information from, and require such reports and the keeping of such

records by, any person as may be necessary or appropriate, in the discretion of the Administrator, for the enforcement or administration of the provisions of this order, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(2) Every person subject to this order shall, for at least two years (or for such other period of time as the Administrator may designate), maintain an accurate record of his transactions in evaporated milk.

(e) *Audits and inspections.* The Administrator shall be entitled to make such audits and inspections of the books, records and other writings, premises or stocks of evaporated milk of any person, and to make such investigations as may be necessary or appropriate, in the discretion of the Administrator, for the enforcement or administration of the provisions of this order.

(f) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Administrator. Such petition shall be addressed to Administrator, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. Petitions for such relief shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Administrator may consider any such petition and take such action with reference thereto that he deems appropriate, and such action shall be final.

(g) *Violations.* Any person who violates any provision of this order or of any regulation or order pursuant hereto, may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using evaporated milk. In addition, any person who willfully violates any provision of this order or of any regulation or order pursuant hereto is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(h) *Delegation of authority.* The administration of this order and the powers vested in the Secretary of Agriculture of the United States, insofar as such powers relate to the administration of this order, are hereby delegated to the Administrator; and the Administrator is hereby authorized to redelegate to any employee or employees of the United States Department of Agriculture any or all of the authority vested in the Administrator by this order.

(i) *Communications.* All reports to be filed pursuant hereto and all communications concerning this order shall, except as provided herein or unless instructions to the contrary are issued by the Administrator, be addressed to the Administrator, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

(j) *Territorial scope.* This order shall apply only in the area included in the 48 States of the United States and the District of Columbia.

(k) *Effective date.* This order shall become effective at 12:01 a. m., e. s. t., May 31, 1946.

NOTE: The record-keeping requirements of this order have been approved by, and all subsequent record-keeping and reporting requirements will be subject to the approval of, the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

MISCELLANEOUS AMENDMENTS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 24th day of May 1946.

Effective May 24, 1946, Part 41 of the Civil Air Regulations is amended as follows:

1. By amending the first paragraph of § 41.27 to read as follows:

§ 41.27 *Operating limitations upon airplanes certificated under transport category requirements.* When operating any airplane certificated in accordance with the provisions of § 04.1 (in the regulations issued on or after November 9, 1945), or of § 04.75–T (in the regulations issued prior to November 9, 1945), the provisions of §§ 41.270 to 41.2731 inclusive shall apply unless deviations therefrom are specifically authorized by the Administrator when he finds that, due to a peculiarity of a specific case, such application is unnecessary for safety.

2. By amending § 41.270 *General limitations,* as follows:

a. Delete the word "gross" from paragraph (c).

b. Insert "and oil" after the words "amount of fuel" in paragraph (c).

c. Substitute the word "airport" in lieu of the word "field" in paragraph (c).

3. By amending § 41.271 *Take-off limitations to provide for engine failure,* as follows:

a. Substitute the word "airports" in lieu of the word "fields" in the first paragraph.

b. Delete the word "gross" from first paragraph.

c. Delete "04.7532–T" from first paragraph, and insert in lieu thereof "04.12 (in the Regulations issued on or after November 9, 1945), or § 04.7532–T (in the Regulations issued prior to November 9, 1945)."

4. By amending § 41.272 *En route limitations,* to read as follows:

§ 41.272 *En route limitations.*

§ 41.2720 *All airplanes; all engines operating.* Airplanes shall be dispatched only at such take-off weights that, in proceeding along the intended track with the weight of the airplane progressively reduced by the anticipated consumption of fuel and oil, the rate-of-climb with all engines operating (as set forth in the airplane operating manual), shall be, in feet per minute, $6V_{so}$ at an altitude at least 1,000 feet above the elevation of the highest ground or obstruction within 10 miles of either side of the intended track; except that this requirement need not apply to airplanes certificated under the performance requirements of the regulations issued prior to November 9, 1945.

§ 41.2721 *All airplanes; one engine inoperative.* Airplanes shall be dispatched only at such take-off weights that in proceeding along the intended track with the weight of the airplane progressively reduced by the anticipated consumption of fuel and oil, the rate-of-climb with one engine inoperative (as set forth in the airplane operating manual), shall be, in feet per minute, $0.02V_{so}^2$ for airplanes having maximum take-off weights up to 40,000 pounds, increasing linearly to $0.04V_{so}^2$ at 60,000 pounds, and $0.04V_{so}^2$ for maximum take-off weights above 60,000 pounds at an altitude at least 1,000 feet above the elevation of the highest ground or obstruction within 10 miles of either side of the intended track; except that for airplanes certificated under the performance requirements of the regulations issued prior to November 9, 1945 the above rate-of-climb value may be $0.02V_{so}^2$ irrespective of maximum take-off weight.

§ 41.2722 *Airplanes with four or more engines; two engines inoperative.* If from any point along the track flown, more than 90 minutes at "all engines operating" cruising speed is required to reach an available landing area where the provisions of § 41.273 as modified by § 41.2730 can be met at the airplane weight estimated to exist upon arrival there, an aircraft with four or more engines shall not be dispatched over such track unless its weight is such as to permit a rate-of-climb with two engines inoperative (as set forth in the airplane operating manual), in feet per minute, of $0.01V_{so}^2$ at an altitude of at least 1,000 feet above the elevation of the highest ground or obstruction within 10 miles on either side of the intended track to the landing area; or at 5,000 feet whichever is higher; except that this requirement need not apply to airplanes certificated under the performance requirements of the regulations issued prior to November 9, 1945. This specified rate-of-climb shall correspond to the airplane's weight attained at the moment of failure of the second engine (assumed to occur 90 minutes from time of departure), or to the weight which may be attained by dumping fuel at the moment of failure of the second engine, provided that sufficient fuel is retained aboard the airplane to reach a point 1,000 feet directly above the landing area.

§ 41.2723 *Special air navigation facilities.* Where special air navigation facilities provide for reliable and accurate identification of high ground or obstruction extending for less than 20 miles along the track, the lateral distance of 10 miles specified in § 41.2720 through § 41.2722 may be reduced to 5 miles.

5. By amending § 41.273 *Landing distance limitations,* as follows:

a. Delete "04.7533–T" from paragraph (a), and insert in lieu thereof "04.124 (in the Regulations issued on or after November 9, 1945), or § 04.7533–T (in the Regulations issued prior to November 9, 1945)."

§ 61.71251 *All airplanes; one engine inoperative.* Airplanes shall be dispatched only at such take-off weights that in proceeding along the intended track with the weight of the airplane progressively reduced by the anticipated consumption of fuel and oil, the rate-of-climb with one engine inoperative (as set forth in the airplane operating manual), shall be, in feet per minute, $0.02V_{so}^2$ for airplanes having maximum take-off weights up to 40,000 pounds, increasing linearly to $0.04V_{so}^2$ at 60,000 pounds, and $0.04V_{so}^2$ for maximum take-off weights above 60,000 pounds at an altitude at least 1,000 feet above the elevation of the highest ground or obstruction within 10 miles of either side of the intended track; except that for airplanes certificated under the performance requirements of the regulations issued prior to November 9, 1945, the above rate-of-climb value may

be $0.02V_{so}^2$ irrespective of maximum take-off weight.

§ 61.71252 *Airplanes with four or more engines—two engines inoperative.* If from any point along the track flown, more than 90 minutes at "all engines operating" cruising speed is required to reach an available landing area where the provisions of § 61.7123 as modified by § 61.71230 can be met at the airplane weight estimated to exist upon arrival there, an aircraft with four or more engines shall not be dispatched over such track unless its weight is such as to permit a rate-of-climb with two engines inoperative (as set forth in the airplane operating manual), in feet per minute, of $0.01V_{so}^2$ at an altitude of at least 1,000 feet above the elevation of the highest ground or obstruction within 10 miles on either side of the intended track to the landing area; or at 5,000 feet whichever is higher; except that this requirement need not apply to airplanes certificated under the performance requirements of the regulations issued prior to November 9, 1945. This specified rate-of-climb shall correspond to the airplane's weight attained at the moment of failure of the second engine (assumed to occur 90 minutes from time of departure), or to the weight which may be attained by dumping fuel at the moment of failure of the second engine: *Provided*, That sufficient fuel is retained aboard the airplane to reach a point 1,000 feet directly above the landing area.

§ 61.71253 *Special air navigation facilities.* Where special air navigation facilities provide for reliable and accurate identification of high ground or obstruction extending for less than 20 miles along the track, the lateral distance of 10 miles specified in § 61.71250 through § 61.71252 may be reduced to 5 miles.

PART 602—GENERAL ORDERS AND DIRECTIVES

INTERIM DIRECTION TO SHIPPERS OF BITUMINOUS COAL PRODUCED IN ALL DISTRICTS AND TO LAKE AND TIDEWATER COMMERCIAL DOCK OPERATORS AND RETAIL DEALERS

It is necessary (1) that adequate coal be supplied for the continuance of activities essential to the health and safety of the Nation and (2) that the balance of coal be distributed equitably so as to avoid hardship and distress. Accordingly, the following notice of interim direction is issued pursuant to SFAW Regulation No. 1, as amended (8 F.R. 5832):

1. Shippers of bituminous coal produced in all districts and lake and tidewater commercial dock operators and retail dealers are hereby prohibited from making any shipment or delivery of bituminous coal except as herein provided:

(a) First preference is to be given to orders of public utilities, railroads, hospitals, food processing plants (including milk plants, dairies and commercial bakeries), refrigeration plants and laundries, provided, however, that this preference is limited to such consumer to the extent that his orders are (1) promptly placed with his normal suppliers and (2) do not exceed in the aggregate the tonnage specified in the stock limitation table hereinafter set forth.

First preference is also to be given to orders of persons operating steamships or tugboats on the Great Lakes, at tidewater or on a river to the minimum extent necessary to provide the fuel for actual operation of such steamships or tugboats.

First preference is also to be given to orders of retail dealers, lake and tidewater commercial dock operators placed with normal suppliers to the limited extent necessary to assure that they receive a supply of coal equivalent to the tonnage which their consumer customers in the categories described in the foregoing paragraph are entitled to receive under that paragraph.

(b) Second preference is to be given to orders of industrial consumers other than those entitled to the first preference: *Provided, however,* That this preference is limited to such a consumer to the extent that his orders (1) are promptly placed with his normal suppliers and (2) do not exceed in the aggregate the tonnage specified in the stock limitation table hereinafter set forth.

Second preference is also to be given to orders of retail dealers, lake and tidewater commercial dock operators placed with normal suppliers to the limited extent necessary to assure that they receive a supply of coal equivalent to the tonnage which their consumer customers in the category described in the foregoing paragraph are entitled to receive under that paragraph.

(c) Third preference is to be given to orders of domestic consumers to the limited extent necessary to supply such consumers with a tonnage equivalent to 10 days' consumption requirements or a minimum truckload, or carload, or barge load, if the consumer normally purchases coal in carload or barge load lots, whichever is the greater.

Third preference is also to be given to orders of retail dealers, lake and tidewater commercial dock operators placed with normal suppliers to the limited extent necessary to assure that they receive a supply of coal equivalent to the tonnage which their domestic consumer customers are entitled to receive under the foregoing paragraph.

(d) Within each of the preference categories described in (a) and (b) above, the shipper shall generally accord priority in shipment to the consumer whose stock pile position is weakest, taking into account his days' supply of coal, the transportation time from the mine to the consumer's stock pile, and other pertinent factors.

(e) If any shipper has surplus coal after he arranges to accord the preferences prescribed above, he shall immediately report such surplus coal to the Area Distribution Manager.

2. All persons are prohibited from ordering or receiving any coal in excess of the amount permitted to be delivered under the provisions of this direction.

3. No person shall be held liable for damages or penalties under any contract for any default which shall result directly or indirectly from compliance with the provisions of this direction.

4. Applications for exception from the provisions of this direction shall be filed with the Area Distribution Manager or with the Solid Fuels Administration for War, Washington 25, D. C. Applications shall set forth in detail the grounds for the requested relief and detailed information supporting the request.

5. All coal subject to this notice of direction (including tonnage of captive mines) may be diverted by specific direction of SFAW to meet emergency conditions.

6. Words used in this notice of direction shall have the same meaning as they had in SFAW Regulation No. 27 (10 F.R. 2909) unless otherwise indicated by the context.

7. This notice of interim direction supersedes the notice of direction to shippers of bituminous coal produced at mines resuming operations which were suspended on or about April 1, 1946, issued on May 11, 1946, the notice of direction to shippers of bituminous coal produced at mines resuming operations which were suspended on or about May 1, 1946, issued on May 14, 1946, and the notice of direction concerning deliveries of bituminous coal by retail dealers, and commercial dock operators at lake and tidewater, issued on May 6, 1946.

8. The notice of direction to all bituminous coal producers in Districts 1-4, 6-11 and 13, concerning the disposition of coal, issued May 28, 1946, which required the holding unbilled on mine tracks and other facilities, of coal after cessation of mining, is hereby revoked.

9. This notice of interim direction shall take effect June 1, 1946 and shall remain in effect until further notice.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Regulation 13, Direction 19]

DISPOSAL OF SURPLUS BRASS MILL PRODUCTS, COPPER WIRE MILL PRODUCTS, AND COPPER AND COPPER BASE ALLOY SCRAP BY WAR ASSETS ADMINISTRATION

The following direction is issued pursuant to Priorities Regulation 13:

(a) *What this direction does.* There is a critical shortage in the supply of brass mill products, copper wire mill products, and copper and copper base alloy scrap, and these materials are not now readily obtainable in sufficient quantities from new production. The purpose of this direction is to limit the sale of these materials by War Assets Administration to persons who have immediate need for them in order to provide the greatest possible relief for the civilian deficiencies and to assure the widest distribution of this strategic property. It limits sales of these materials by the War Assets Administration to persons who give the certification described below, and provides for directed deliveries to certain persons when in the judgment of the Civilian Production Administration such action is deemed necessary to assure continued supply of the shapes and forms required for civilian uses.

Although this direction restricts sales to persons who will use the material for the purposes specified, it does not prohibit WAA from making sales, to the persons and for the purposes specified, upon such other terms and in such quantities as WAA may determine; and preference ratings have no effect upon any sales which may be made by WAA either by way of obliging it to sell or by way of determining as among the several buyers permitted by this direction, who shall get the material from WAA.

(b) *Restrictions on sales by WAA.* Unless the Civilian Production Administration specifically directs otherwise, the WAA may sell any of the products covered by this direction only as follows:

(1) Brass mill and copper wire mill products:

(i) Sales specifically authorized by Civilian Production Administration on Form CPA-1161.

(ii) Sales to Reconstruction Finance Corporation for resale under section 18 (e) of the Surplus Property Act of 1944 to persons who give to RFC either of the certificates described in paragraphs (b) (1) (iii) and (b) (1) (iv).

(iii) Sales to persons buying for their own use who give a certification with their purchase order in substantially the following form:

> The undersigned certifies to the seller and Civilian Production Administration, subject to the penalties of Section 35 (A) of the United States Criminal Code, that (i) he requires the material covered by this purchase order for his own use in manufacturing or processing operations; (ii) his inventory of the type of material covered by this purchase order (including this lot) will not be in excess of his succeeding three months requirements; and (iii) the material obtained under this purchase order will be used or disposed of only in accordance with applicable Civilian Production Administration orders and regulations.

(i) Sales to persons buying for resale who give a certificate with their purchase order in substantially the following form:

> The undersigned certifies to the seller and Civilian Production Administration, subject to the penalties of section 35 (A) of the United States Criminal Code, that (i) his inventory of the type of material covered by this purchase order (including this lot) will not be in excess of that permitted by applicable Civilian Production Administration orders and regulations; and (ii) the material obtained under this purchase order will be offered for sale promptly in accordance with applicable Civilian Production Administration orders and regulations.

(2) Copper and copper base alloy scrap, including ammunition cases:

(i) Sales specifically authorized by Civilian Production Administration on Form CPA-1161.

(ii) Sales to Reconstruction Finance Corporation for resale under section 18 (e) of the Surplus Property Act of 1944 to persons who give to RFC the certificate described in paragraph (b) (2) (iii).

(iii) Sales to smelters or reprocessors who give a certificate with their purchase order in substantially the following form:

> The undersigned certifies to the seller and Civilian Production Administration, subject to the penalties of section 35 (A) of the United States Criminal Code, that (i) he is a smelter or reprocessor; (ii) his inventory of the type of material covered by this purchase order (including this lot) will not be in excess of his succeeding three months requirements; and (iii) the materials obtained under this purchase order will be used or disposed of only in accordance with applicable Civilian Production Administration orders and regulations.

The standard certification in Priorities Regulation 7 may not be used instead of these certifications.

(c) *Obligations of persons giving certificate.* Any person giving any of the certificates described above may obtain and use or dispose of the products covered by this direction which he gets with his certificate, only in accordance with its terms.

(d) *Special directives.* The Civilian Production Administration may issue special directives requiring the delivery of particular lots of brass mill or copper wire mill products, copper or copper base alloy scrap to smelters, brass mills or copper wire mills for further fabrication, when in its judgment such action is necessary to assure the continued flow of copper and copper base alloy products in the shapes and forms required for civilian uses. The Civilian Production Administration may also issue special directives requiring delivery of particular lots of brass mill and copper wire mill products, copper or copper base alloy scrap to users of such products who have less than five days inventory of them on hand.

Issued this 3d day of June 1946.

[Conservation Order M-310, as Amended June 3, 1946]

HIDES, SKINS AND LEATHER

The fulfillment of requirements for the defense of the United States has created shortages in hides, skins and leather for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

(a) General definitions.
(b) Provisions applying to all hides, skins, and leather.
(c) Untanned cattlehides, calfskins, and kips.
(d) Pickled sheepskins and slats.
(e) Regular reports.
(f) Plants without quotas.
(g) Appeals.
(h) Communications to the Civilian Production Administration.
(i) Violations.

§ 3290.196 *Conservation Order M-310*—(a) *General definitions.* (1) "Tanner" means a person in the business of tanning, dressing, or similarly processing hides or skins, who in any calendar month after April 1, 1940, processed or processes more than 500 hides or skins.

(2) "Contractor" means a person in the business of causing hides or skins to be tanned or dressed for his account in any tannery not owned or controlled by him.

(3) "Collector" means a person, including a dealer or importer, engaged in the business of acquiring from others untanned hides or skins for resale, or removing hides or skins from animals not slaughtered by him.

(4) "Producer" means a person in the business of slaughtering animals.

(5) "Military order" means an order for hides, skins or leather for delivery against a specific contract placed by any of the following, or for incorporation in any product to be delivered against such a contract:

The Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration.

(6) "Military specifications" or "military quality" means, except as herein otherwise specifically provided the specifications applicable to military orders or the quality of material meeting such specifications.

(7) "Sole leather" means vegetable tanned sole leather unless otherwise specified.

(8) "Whole stock" means sides, crops, backs, bends, shoulders with heads on, shoulders with heads off, bellies and belly centers.

(b) *Provisions applying to all hides, skins and leather.* (1) No person shall process any hides, skins or leather contrary to any specific direction issued from time to time by the Civilian Production Administration relating to the processing or production of specific types of leather to meet military or designated civilian requirements.

(2) No producer, collector, tanner, contractor or cutter shall sell, deliver, accept delivery of, cut, use or incorporate in any product any hides skins or leather contrary to any specific direction issued from time to time by the Civilian Production Administration deemed necessary in order to fill military or designated civilian requirements.

(3) Notwithstanding the provisions of any regulation or order of the Civilian Production Administration, no preference rating shall be applied or extended for the delivery of hides, skins or leather, except:

(i) Leather for military orders (excluding sole leather whole stock and cattlehide splits in the blue, pickled, or lime state); or

(ii) When specifically authorized in writing by the Civilian Production Administration pursuant to this paragraph (b) (3) (ii).

(4) [Deleted May 13, 1946.]

(c) *Untanned cattlehides, calfskins and kips*—(1) *Definition.* "Cattlehide", "calfskin" and "kip" mean the hide or skin of a bull, steer, cow or buffalo, foreign or domestic (excluding slunks).

(2) No producer or collector shall put into process or cause to be put into process any untanned cattlehide, calfskin or kip, or portion thereof, other than splits and gluestock, except to the extent specifically authorized in writing by the Civilian Production Administration. Applications for such authorization may be made by letter setting forth the quantity of each kind of cattlehide, calfskin or kip, or portion thereof, which the applicant desires to put into process or cause to be put into process.

(3) No tanner or contractor shall purchase or accept delivery of any untanned calfskin or kip or portions of any of them for any purpose except in quantities specifically authorized in writing by the Civilian Production Administration. A tanner, however, may accept delivery of and tan hides for the account of a contractor who he knows has been specifically authorized in writing to purchase hides. No person shall make any sale or delivery which he knows or has reason to believe would be accepted in violation of this paragraph. Applications may be made on Form CPA-1325 for the purchase of domestic cattlehides, and on Form CPA-1322 for the purchase of domestic calfskins and kips. Authorization to purchase is granted on Form CPA-1323 except from the Reconstruction Finance Corporation which is granted on Form CPA-3507. Form CPA-1323 must be returned to CPA with information showing the applicant's use of the authorization in accordance with the terms of the form. The following transactions may be made without authorization:

(i) Transactions between collectors and between producers and collectors for purposes of resale or delivery within the continental United States;

(ii) The purchase and acceptance of delivery of less than 500 hides or skins in any calendar month by any person (other than a tanner) not specifically authorized to purchase or accept delivery of hides or skins.

(4) In acting under paragraph (c) (3), it will be the policy of the Civilian Production Administration, so far as is practicable, to grant authorizations so that contractors or tanners will obtain cattlehides, calfskins or kips in the proportions that their respective wettings of such skins computed separately during the calendar year 1942, bore to all wettings thereof during that year by all contractors and tanners producing the same type of leather, except that authorizations to tanners or contractors having more than a practicable minimum working inventory may be withheld or may be granted in reduced quantities.

Effect of paragraph and definitions. The provisions of this paragraph (d) restrict deliveries of pickled sheepskins and slats as defined below. Imported skins may not be withdrawn from Customs without specific authorization from the Civilian Production Administration. In addition the Civilian Production Administration authorizes deliveries of both domestic and imported skins to tanners and contractors. For the purposes of this order pickled sheepskins and slats are defined as follows:

(i) "Pickled sheepskin" means a de-wooled, untanned, unsplit skin which has been removed from a sheep or lamb, and has been either pickled or otherwise prepared for tanning. It does not include a hair sheepskin even after it has been dehaired or de-wooled, which has been imported from countries other than the following: Argentina, Uruguay, Chile, Peru, New Zealand, Australia, Iceland and Canada. A "hair sheepskin" is a skin from a sheep or lamb which is imported into the continental United States with the hair or wool on it of more than ¼" in length under Customs classification as free, or conditionally free under carpet wool bond, or subject to carpet wool duty.

(ii) "Slat" means a sheepskin imported into the continental United States in the dried, untanned condition which has no wool or hair on it or has wool or hair less than ¼" in length of no commercial value.

(2) *Restrictions on withdrawal from Customs.* No person shall withdraw any sheepskins, flesh splits of such skins, or slats from United States Customs within the continental United States except as specifically authorized in writing by the Civilian Production Administration. Before arrival of the sheepskins, flesh splits, or slats in the United States the importer shall notify the Civilian Production Administration, Hide and Leather Branch, Washington 25, D. C., Ref.: M-310, by letter specifying the quantity, type, country of origin, probable date of arrival, name of ship, if available, and the names of tanners or contractors, if any, to whom he prefers to sell pickled sheepskins or slats which he has no quota to receive as a tanner or contractor. The importer, or the tanner or contractor to whom he sells the skins, may be granted authorization by the Civilian Production Administration (on Form CPA-4403) to withdraw them from Customs, under the criteria in paragraphs (d) (5) or (f).

The provisions of this paragraph do not relieve the importer from complying with applicable provisions of General Imports Order M-63.

(3) *Restrictions on purchase and acceptance of delivery by a tanner or contractor.* (i) No tanner or contractor shall purchase or accept delivery of pickled sheepskins or slats for any purpose except in quantities specifically authorized in writing by the Civilian Production Administration. A tanner, however, may accept delivery of pickled sheepskins or slats for the account of a contractor who he knows has been specifically authorized in writing to have such skins tanned for his account either under this paragraph (d) (3) or under paragraph (d) (2). No person shall make any sale or delivery which he knows or has reason to believe would be accepted in violation of this paragraph. In the case of a tanner or contractor who performs the de-wooling operation or has it done for his account, the movement of pickled sheepskins after de-wooling to be tanned for him or for his account shall constitute an acceptance of delivery by him subject to this paragraph.

Application for authorization to purchase, accept delivery or have pickled sheepskins or slats tanned for the applicant's account must be made on Form CPA-4404.

(ii) However, this paragraph (d) (3) does not apply to any pickled sheepskins or slats before they are imported into the continental United States. Also, a tanner or contractor who has been designated in an authorization under paragraph (d) (2) to receive imported pickled sheepskins or slats, may receive them without restriction under this paragraph (d) (3) and without counting them against the total quantities specifically authorized under this paragraph (d) (3).

(4) No person shall split or frize the grain of any pickled sheepskins except as follows: a contractor or tanner may split or frize the grain of any skins (or have them split or frized for his account) which were in his possession before February 16, 1946, or which he has obtained under an authorization from CPA under paragraphs (d) (2) or (d) (3) above.

NOTE: Subparagraphs (5) and (6) formerly (4) and (5) redesignated June 3, 1946.

(5) *Policy.* In acting under paragraphs (d) (2) and (3), it will be the policy of the Civilian Production Administration, so far as is practicable, to grant authorizations so that:

(i) Each tanner and contractor will obtain pickled sheepskins and slats in the proportion that wettings for his own account of such skins during any calendar year 1941 to 1945, inclusive, bears to the total computed by adding together the wettings of such skins for his own account by each tanner and contractor during the calendar year from 1941 to 1945 which he selects.

(ii) Each tanner and contractor will obtain heavy foreign pickled sheepskins (averaging 45 pounds per dozen or heavier) in the proportion that his wettings of such skins during calendar year 1941 bore to the total thereof by all tanners and contractors during the same period.

Authorizations to tanners or contractors having more than a practicable minimum working inventory may be withheld or may be granted in reduced quantities.

(6) *Base period report.* Each tanner or contractor seeking to qualify under paragraph (d) (5) for authorizations under paragraphs (d) (2) or (3) shall file as soon as possible a one-time base period report on Form CPA-4405.

(e) *Regular reports.* Every person described below shall, on or before the 10th day of each month execute and file reports with the Civilian Production Administration, as directed on the respective forms mentioned below:

Tanners and contractors of cattle hides	CPA-1325
Tanners and contractors of calfskins and kips	CPA-1322
Tanners and contractors of pickled sheepskins and slats	CPA-4404

Failure to file any of the reports mentioned above or any other reports requested pursuant to approval by the Bureau of the Budget shall constitute a violation of this order.

(f) *Plants without quotas.* Any person who owns a plant equipped to process hides or skins but whose past operations do not qualify him under paragraphs (c) (4) or (d) (5), may apply for authorization under paragraphs (c) or (d) by letter. The letter should be addressed to the Civilian Production Administration, Hide and Leather Branch, Washington 25, D. C., and should indicate the name and address of the plant, type and quantity of leather raw material which the applicant wishes to process per month, and the quantity of each type which he has processed during the preceding four calendar months. Authorizations may be granted on an equitable basis to applicants who did not process a monthly average of more than 500 hides and skins of all kinds during the preceding four calendar months.

(g) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate referring to the particular provision appealed from and stating fully the grounds of the appeal.

(h) *Communications to the Civilian Production Administration.* All reports, applications, forms, or communications required under or referred to in this order, and all communications concerning this order, shall, unless otherwise directed, be addressed to the Civilian Production Administration, Textile Division, Washington 25, D. C., Ref: M-310.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or who furnishes false information to any department or agency of the United States is guilty of a crime, and, upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

NOTE: The reporting requirements of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 3d day of June 1946.

[MPR 82, Amdt. 8]

WIRE AND CABLE

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 82 is amended in the following respects:

1. Section 16 (d) (3) is amended to read as follows:

(3) *Zone pricing.* The zones set forth in Appendix E are the standard geographical shipping zones uniformly recognized in the industry. Zone adjustments which increase the net delivered prices of rubber braid building wire are not permitted, except in the case of manufacturers who, on the base date (October 15, 1941), customarily sold rubber braid building wire to chain stores, wherever located, at Zone B prices. In that case, the maximum prices for sales by manufacturers to chain stores, wherever located, shall be the maximum prices for sales in Zone B, provided the sales are made to those chain stores to which such sales were customarily made on the base date.

2. Section 16 (f) (3) is amended to read as follows:

(3) *Zone Pricing.* The zones set forth in Appendix F are the standard geographical shipping zones uniformly recognized in the industry. Zone adjustments which increase the net delivered prices of non-metallic sheathed cable are not permitted, except in the case of manufacturers who, on the base date (October 15, 1941), customarily sold non-metallic sheathed cable to chain stores, wherever located, at Zone B prices. In that case, the maximum prices for sales by manufacturers to chain stores, wherever located, shall be the maximum prices for sales in Zone B, provided the sales are made to those chain stores to which such sales were customarily made on the base date.

3. The last sentence appearing before the "Schedule of Prices" in Appendix E, which sentence presently reads "Zone adjustments that increase the net delivered prices are not allowable" is amended to read as follows: "Zone adjustments which increase the net delivered prices are not allowable, except as stated in section 16 (d) (3)."

4. The last sentence appearing before the "Schedule of Prices" in Appendix F, which sentence presently reads "The above are standard zones—Zone adjustments that increase the net delivered prices are not allowable," is amended to read as follows: "The above are standard zones. Zone adjustments which increase the net delivered prices are not allowable, except as stated in section 16 (f) (3)."

This amendment shall become effective June 5, 1946.

Issued this 31st day of May 1946.

PART 1305—ADMINISTRATION

[SO 162 (§ 1305.190)]

ADJUSTMENT OF MAXIMUM PRICES FOR MANUFACTURERS AND MANUFACTURING RETAILERS OF CERTAIN LOW-PRICED FOOTWEAR

A statement of the considerations involved in the issuance of this Supplementary Order No. 162, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Sec.
1. Purpose of this order.
2. Scope of this order.
3. Adjusted maximum prices.
4. Records and reports.
5. Relation to other maximum price regulations.
6. Amendment.
Appendix A: Increase factors and cut-off prices.
Appendix B: Example of OPA Form No. 6064-2847.

SECTION 1. *Purpose of this order.* This order grants increases in the GMPR ceiling prices of manufacturers and manufacturing-retailers sales of certain lower priced footwear.

SEC. 2. *Scope of this order*—(a) *What footwear is covered.* Footwear[1] which is eligible for an increase under this order must meet all of the following requirements:

(1) It must fall within one of the categories listed in Appendix A:

(2) It must be an item of footwear which is the same as an item of footwear delivered during March 1942, or offered during March 1942 for delivery during such month, or which is so comparable to such an item that it meets all of the following tests:

(i) It is the same style type,[2]

(ii) It gives the purchaser equivalent or greater serviceability, and

(iii) The sum of the current material cost of all the basic component parts specified in OPA Form No. 6064-2847 in Appendix B and the current direct labor cost for the item is equal to or greater than the sum of the current material costs for the same component parts and the current direct labor cost of the item delivered in March 1942, or offered during March 1942, for delivery during such month.

If it is a "line of footwear" (as defined in section 3.1 of Supplementary Regulation 14E to the General Maximum Price Regulation) it must be the same as a line of footwear which the seller delivered in March 1942 or offered during March 1942, for delivery during such month. The quality of any new style added to the line must be equal to all the March 1942 standards of quality of the other footwear in the line with respect to workmanship and materials.

(b) *What sales are covered.* This order covers all manufacturers' sales and all manufacturing-retailers' sales of the footwear described in paragraph (a), above.

A "manufacturer" is any person who fabricates or processes such footwear or for whom it is fabricated or processed by a contractor or agent from basic materials owned or otherwise furnished by the principal.

A "manufacturer's sale" is any sale of footwear by a manufacturer, except sales at retail.

A "manufacturing-retailer's sale" is any sale of footwear to the ultimate consumer by the manufacturer of such footwear or by any person who is directly or indirectly under the same ownership or control as the manufacturer of such footwear.

(c) *Where this order applies.* This order applies to the continental United States, but not to the territories and possessions of the United States.

SEC. 3. *Adjusted maximum prices.* Except as modified by Section 4 (b) of this order, on and after May 31, 1946, any item or line of footwear covered by this order may be sold or delivered at the adjusted maximum price described in this section. The adjusted maximum price under this section is determined as follows:

Step 1. Determine the maximum price of the item of footwear properly established under § 1499.2 (a) of the General Maximum Price Regulation[3] or of the line of footwear established under section 3.1 of Supplementary Regulation 14E, exclusive of any adjustment in said maximum price permitted under section 3.13 of Supplementary Regulation 14E or any adjustment granted by order issued by the Office of Price Administration under § 1499.75 (a) (10) of Supplementary Regulation 15 or under Supplementary Order 133.

Step 2. Add to the maximum price found in Step 1 the applicable cents per pair increase listed in Column 2 of Appendix A for the appropriate category of footwear.

Step 3. The adjusted maximum price of the item of footwear is the total found in Step 2 or the applicable cut-off price listed in Column 3 of Appendix A for the appropriate category, whichever is lower.

Example: During March 1942 you delivered Style 345, a men's dress shoe at $2.75 net to retailers. You are today manufacturing the identical shoe. Your maximum price for that shoe under § 1499.2 (a) is $2.75 net. Under Step 2 of this section you add 36 cents to your price of $2.75 which is the amount of increase listed for the men's dress shoe category in Column 2 of Appendix A. Accordingly, your adjusted maximum price for Style 345 is $3.11 since that is lower than the cut-off price listed for the category in Column 3 of Appendix A; if it were higher than the cut-off, the cut-off would be your adjusted price.

Step 4. For manufacturer's sales only. To

[1] "Footwear" does not include shoes or slippers containing no leather or which are vulcanized.

[2] For purposes of this order the "same style type" includes only closely related styles or patterns, and does not include changes in basic patterns such as the following examples: closed heel to open heel pumps; closed vamps to sandals; oxfords to pumps; or plain vamp oxfords to woven vamp oxfords.

[3] Where the seller's method of distribution falls within the definition of a "manufacturing-retailer's sale" (as set forth in section 2 (b)) the only maximum price which may be adjusted under this order with respect to the footwear so distributed is the maximum retail price. The maximum retail price which the manufacturing retailer may adjust under this order is the maximum retail price which he established under § 1499.2 (a) of the General Maximum Price Regulation and may not, under this order adjust the maximum retail price which he established under Maximum Price Regulation 580.

the adjusted maximum price determined under Step 3, manufacturers may add an "OPA adjustment charge" in accordance with the provisions and requirements of section 3.13 of Supplementary Regulation 14E to the General Maximum Price Regulation.

SEC. 4. *Records and reports*—(a) *Records.* The records required by this section must be maintained for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

Every person who makes a sale covered by this order must prepare and maintain the records required by the General Maximum Price Regulation, except that the adjusted maximum price established under this order shall be substituted for the original maximum price in all records of deliveries made or for maximum prices established under the General Maximum Price Regulation after the effective date of this order.

In addition, he must keep a copy of the report filed under (b), below.

(b) *Reports.* No person may deliver any item of footwear at an adjusted maximum price established under this order until he has filed the report required by this section and the reported price has been approved by the Office of Price Administration. The reported price shall be deemed to be approved 15 days after mailing the report described in this paragraph (or all additional information which may have been requested) unless, within that time, the Office of Price Administration notifies the seller that his reported price has been disapproved.

The report shall be filed with the District Office of the Office of Price Administration for the district in which the seller's principal office is located. Each report shall be signed by an officer, owner or principal and shall contain all of the information required by OPA Form No. 6064–2847 set forth in Appendix B of this order. This shall include:

(i) For each item of footwear covered by this order which the seller sells he shall file one copy of OPA Form No. 6064–2847 containing all the information required by Parts A and C of such form, and in addition

(ii) In any case where the item of footwear for which a report is made under (i), above, is not the same as an item of footwear which was delivered in March 1942, or offered during March 1942, for delivery during such month, the OPA Form No. 6064–2847 shall also contain all the information required by Parts B and D of such form for the comparable item of footwear which was delivered in March 1942, or offered during March 1942 for delivery during such month.

(iii) If the seller is a manufacturing-retailer of the item of footwear he shall attach a list which separately states the name and address of each manufacturing entity and each store or group of stores making sales at retail and shall report the unadjusted and the adjusted maximum retail price for each item of footwear for each separate retail seller (as defined in § 1499.20 (s) of the General Maximum Price Regulation).

SEC. 5. *Relation to other maximum price regulations.* (a) This order supplements and does not supersede the General Maximum Price Regulation and section 3.13 of Supplementary Regulation 14E to the General Maximum Price Regulation.

(b) Manufacturers and manufacturing-retailers may make application under section 13 of Maximum Price Regulation 580 for the establishment of uniform maximum retail prices, for the footwear covered by this order, in accordance with the provisions of that section.

(c) Except as provided in paragraph (b) of this section, this order supersedes the provisions of Maximum Price Regulation 580 with respect to footwear which a manufacturing-retailer elects to price under this order.

SEC. 6. *Amendment.* Any person seeking an amendment, which must have general applicability, may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,[4] issued by the Office of Price Administration.

This Supplementary Order No. 162 shall become effective May 31, 1946.

NOTE: All record-keeping and reporting requirements of this Supplementary Order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Forms printed in the FEDERAL REGISTER are for information only and do not follow the exact format prescribed by the issuing agency.

Issued this 31st day of May 1946.

Are you a manufacturing-retailer with respect to this item of footwear? Yes ☐ No ☐

IMPORTANT—READ INSTRUCTIONS

You are required, in making a report of an adjusted maximum price for a low-priced shoe, to submit in Parts A and C cost data and other information for the shoe. In addition, if the shoe described in Parts A and C is not the same as an item of footwear delivered during March 1942 or offered for sale during March 1942 for delivery during such month then you shall also fill out Parts B and D to give the current cost data for the item, that was delivered in March 1942 or offered for sale during March 1942 for delivery during such month, to which the item of footwear described in Parts A and C is comparable.

INSTRUCTIONS FOR PARTS A AND B

A description of each shoe reported upon herein should be submitted. (Example: Men's black calf Goodyear welt oxford, kid quarter lining, leather sole, rubber heel.)

The costs to be reported in Parts A and B of this form shall be the current cost of each item. Current direct cost means the sum of the direct labor and material costs that the seller would have to incur to produce the shoe or shoes at the time he makes his report. Calculations of direct labor cost may be based on legal wage rates in force at the time of making this report. They shall not reflect any wage increases granted contrary to the provision of Supplementary Wage and Salary Regulation issued by the Office of Economic Stabilization on March 8, 1946. Material cost shall be calculated on the basis of net invoice price after trade and quantity discounts but before term discounts. *Transportation, storage warehousing or insurance charges shall not be included in the cost of the material.* Material cost should in no event be computed at prices higher than the maximum prices established by the applicable maximum price regulations for the types and grades of materials actually used.

The materials to be reported in Sections I through IV should include only items which become a part of the finished shoe. *Such items as lasts, dies, patterns, machine parts, etc. should not be included in material costs.* Miscellaneous items not listed on the form should be entered in the blank spaces provided under the appropriate section.

Material (Columns 2 and 7). Enter a complete description of the material used, for example, "Black smooth calf CLM" or "Bleached twill, $2.75 yard." In Column 7 after the items, "Outer sole," "inner sole," "tap," and "welt," enter the material, grade and irons. After the item "heel" enter the height and kind (wood, leather, etc.).

Quantity (Column 3). Enter your regular cutting allowance for the pattern and material.

Price (Column 4). Enter the current price per foot, per yard, or per unit for the material specified in Column 2.

SECTION IV

Direct labor.—Enter the cost of direct labor in producing the shoe. Direct labor (sometimes called productive labor) covers all operations performed directly on the shoe. In addition to the operations listed in Section VI, direct labor may include such items as inspecting or crowning, leather sorting, sample making, etc.

The following are not items of direct labor:

1. Make-up (any sum which you must pay because the hourly, daily or weekly earnings of the piece worker at the piece work rate fall below the minimum wage you are obliged to pay the worker by law or by contract);
2. Overtime or double time premium (the difference between the piece or time work rate and the overtime or double time rate);
3. Such labor as patten or die boys, floor help, rack boys, cripple cutters, cobblers, elevator, custodial, and maintenance workers, firemen, engineers, truck drivers and helpers, receiving and shipping clerks, other clericals, salesmen, foremen or working foremen and other supervisory employees;
4. Labor overhead cost, such as unemployment insurance, social security, pension contribution to welfare funds health or accident insurance, workmen's compensation and vacation and holiday pay.

ESTABLISHED AND ADJUSTED MAXIMUM PRICES

In the lower left hand column of Part A fill in the table of established and adjusted maximum prices for each class of customers. These prices shall be net prices after all discounts. No adjustments shall be taken that give an adjusted price in excess of the appropriate cut-offs in the order. All prices in this table are to be exclusive of the 4½% adjustment granted manufacturers under the provisions of Amendment 24 to SR 14E.

SAMPLES AND PATTERNS

SUBMIT WITH THIS REPORT A SAMPLE OR SAMPLES (SINGLE SHOE) OF THE SHOES DESCRIBED IN PARTS A AND B

To the best of my knowledge the information submitted above is true and accurate. In my opinion, the shoe described in Part A either was delivered or offered for delivery by me in March 1942 or it is of the same style type as the shoe described in Part B, gives at least equivalent serviceability to the shoe described in Part B and its current direct cost is at least equal to the shoe described in Part B. The shoe described in Part B was delivered or offered for delivery by me in March 1942.

PART 1373—PERSONAL AND HOUSEHOLD ACCESSORIES

[MPR 584, Amdt. 6 (§ 1373.5)]

FEATHER FILLED PILLOWS AND UPHOLSTERY CUSHION INNERCASINGS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith; and it has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 584 is amended in the following respects:

1. Section 8 is amended to read as follows:

SEC. 8. *Manufacturers to calculate maximum prices on retail sales of new pillows.* Each manufacturer shall calculate the maximum price for sales by retailers of a single pillow manufactured by him, by multiplying his maximum price on the sale of that single new pillow (exclusive of the Far West Zone and quantity differentials) by 175 percent in the case of new pillows filled with chicken or turkey feathers or fibre, or mixtures thereof with crushed waterfowl quills, and by 180 percent in the case of all other pillows. The Far West Zone differential provided in paragraph (c) of Appendix A shall be added to such retail price. The price, so calculated, may be rounded to the nearest five cents. However, if the price so calculated results in a figure exactly midway between the next higher and next lower five cents, it shall be rounded to the next lower five cents.

2. Section 10 (a) (8) (ii) is amended to read as follows:

(ii) A cover allowance determined from the following table:

Finished pillow size (inches)	Cover allowance			
	Class I	Class II	Class III	Class IV
12 x 16	$0.36	$0.30	$0.42	$0.49
16 x 24	.75	.60	.85	.98
12½ x 21	.75	.60	.85	.98
17 x 24	.90	.65	.91	1.07
17 x 25	.80	.65	.91	1.07
18 x 24	.80	.65	.91	1.07
18 x 25	.80	.65	.91	1.07
18 x 26	.80	.65	.91	1.07
17 x 27	.80	.65	.91	1.07
19 x 25	.85	.70	.98	1.17
19 x 26	.85	.70	.98	1.17
20 x 26	.85	.70	.98	1.17
17 x 30	.85	.70	.98	1.17
20 x 27	.90	.75	1.05	1.25
21 x 27	.90	.75	1.05	1.25
22 x 28	.95	.80	1.10	1.30
19 x 34	1.00	0.85	1.17	1.37
20 x 36	1.15	.98	1.28	1.49

21 x 39	1.25	1.10	1.40	1.60
21 x 54	1.80	1.50	2.10	2.50

NOTE: For sizes with a surface area intermediate to the surface area of the sizes listed above, the cover allowance of the listed size with the nearest surface area shall be used. For other sizes, use 125 percent of the cost of the fabric cover, not exceeding the maximum price of the cover on sales to the manufacturer, plus incoming freight.

3. Section 10 (c) is added to read as follows:

(c) If a manufacturer's maximum price has been determined under this section prior to May 31, 1946, he may recompute that maximum price following the rules stated in paragraph (a). No article may be sold at a price higher than the maximum price originally determined under this section unless, before first offering the article for sale at such higher price, the manufacturer reports both his new maximum price for the article, his old maximum price for the article, and the calculations showing the manner in which the new maximum price was computed.

4. Section 11 (a) (1) is amended to read as follows:

(1) The maximum price of a jobber for his sale of any article received after the effective date of this regulation shall be 125 percent of either the maximum price of the manufacturer for his sale of the particular article, or of the actual net invoice price, to the jobber whichever is lower, plus the freight charge paid by the jobber for delivery to him.

5. Paragraph (a) (2) of Appendix A is amended to read as follows:

(2) *Fabric cover classifications.* Fabric covers for new pillows are classified as follows:

(1) Class "I", which includes 8-ounce ACA twill, and all fabrics whose maximum price f. o. b. mill, is from 25 cents to 29.99 cents per yard.

(2) Class "II", which includes 6.2-ounce twill, 3.25-ounce printed floral drills, and all fabrics whose maximum price f. o. b. mill, is from 20 cents to 24.99 cents per yard.

(3) Class "III", which includes 6-ounce to 7-ounce woven or printed, striped or floral sateen and all fabrics whose maximum price f. o. b. mill, is from 30 cents to 36.99 cents per yard.

(4) Class "IV", which includes 8-ounce woven or printed, striped or floral sateen and all fabrics whose maximum price f. o. b. mill, is from 37 cents to 43 cents per yard.

6. The following note is added at the end of Table I–A in Appendix A:

The maximum prices stated above may be increased 15 cents per pair.

7. Table I–B in Appendix A is amended to read as follows:

C., for the establishment of a maximum price differential for such tailoring extras. The application shall set forth:

The date of the application.

The application shall be accompanied by a sample of the tailoring extra.

After receiving the application and sample, the Office of Price Administration will issue an order establishing a maximum price differential for the tailoring extra which will be in line with the level of prices listed in Table IV above. PART 1346—BUILDING MATERIALS

[RPS 40,[1] Amdt. 8]

BUILDERS' HARDWARE AND INSECT SCREEN CLOTH

A statement of considerations accompanying this Amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Price Schedule No. 40 is amended in the following respects:

1. Section 1346.6b is amended to read as follows:

§ 1346.6b *Modification of maximum prices for builders' hardware*—(a) *Scope of this section.* Pursuant to reconversion criteria this section permits manufacturers of builders' hardware covered by this regulation to increase their maximum prices by 10 percent.

(b) *Manufacturers' reconversion adjustment.* A manufacturer may increase his maximum prices on builders' hardware to each class of purchasers as established in accordance with § 1346.1, by 10 percent, and may round off to the nearest $0.01 the adjusted maximum prices resulting from the increase permitted herein.

(c) *Optional use of this section.* Since the provisions of this section are not intended to reduce properly established maximum prices, any manufacturer whose prices on builders' hardware in effect to each class of purchaser on October 1, 1941, plus the increase provided for under (b) is less than his maximum price as established under Revised Price Schedule No. 40 may continue to use as his maximum price, the maximum price properly established under Revised Price Schedule No. 40.

(d) *Notification.* Any manufacturer who applies the increase permitted under this section shall notify each purchaser, in writing, at or before the issuance of the first invoice after March 12, 1946, of the adjusted maximum price authorized by this section and of the actual dollars-and-cents increase for each item of builders' hardware over his maximum price to that class of purchaser in effect on March 12, 1946.

(e) *Reseller's maximum prices.* A reseller shall determine his maximum prices for sales of builders' hardware covered by this schedule in accordance with Supplementary Order 151, issued by the Office of Price Administration.

This Amendment No. 8 shall become effective June 5, 1946.

Issued this 31st day of May 1946.

PAUL A. PORTER,
Administrator.

Chapter XVIII—Office of Economic Stabilization

[Directive 112]

PART 4004—PRICE STABILIZATION: MAXIMUM PRICES

MAXIMUM PRICES FOR PACKED FRUITS, BERRIES AND VEGETABLES; 1946 PACK

The Price Administrator and the Secretary of Agriculture having submitted to me information and their recommendations with respect to the pricing of the 1946 pack of packed fruits, berries and vegetables and the necessity for securing maximum production of those commodities essential to the effective transition to a peacetime economy, I do hereby find that the measures hereinafter authorized and directed to be taken by the Office of Price Administration will effectuate the purposes of the stabilization program.

Accordingly, pursuant to the authority vested in me by the Stabilization Act of 1942, as amended, and by Executive Order 9250 of October 3, 1942 (7 F.R. 7871), Executive Order 9328 of April 8, 1943 (8 F.R. 4681), Executive Order 9599 of August 18, 1945 (10 F.R. 10155), Executive Order 9651 of October 30, 1945 (10 F.R. 13487, Executive Order 9697 of February 14, 1946 (11 F.R. 1691), and Executive Order 9699 of February 21, 1946 (11 F.R. 1929), *It is hereby ordered:*

The Office of Price Administration is hereby authorized and directed to maintain or establish maximum prices for the 1946 packs of packed fruits, berries and vegetables in accordance with the following principles: Maximum prices for packed fruits, berries and vegetables shall be the same as those established for the 1945 pack under Supplement 13 to Food Products Regulation No. 1, as amended, modified as follows:

1. *Raw material.* Gross maximum prices shall be computed on the basis of approved 1946 raw material costs and shall reflect changes in designated grower prices authorized by the Economic Stabilization Director. Whenever administratively possible, gross maximum prices of individual processors for products other than those on which a subsidy is payable shall be based upon actual price of raw materials not in excess of designated grower prices.

2. *Wages.* Adjustment factors shall be provided to cover cost increases arising from increases in approved basic wage rates for processors actually incurring such increases. These factors shall be based on the assumption that wage increases are uniform for all classifications of labor and therefore can be measured by the increase in wage rates for unskilled female labor. Increases shall be measured from January 1, 1944, and the factors shall supersede those included in the regulation for the 1945 pack.

3. *Sugar.* Gross maximum prices for all of the packed fruits and berries and the vegetable products in which sugar is an important element of cost shall be increased to reflect processor's increased costs of sugar resulting from any increase in maximum prices of sugar providing that adequate steps are taken to insure that the adjustments so provided do not result in appreciable windfalls because of sugar stocks on hand before the price increase.

4. *Subsidized commodities.* Where subsidies are authorized and directed by Directive No. 109, (including amendments) issued by the Office of Economic Stabilization, maximum prices shall be maintained or established in accordance with that directive, and the provisions of paragraphs 2 and 3, above. If authority for the extension of the subsidy program after June 30, 1946 is not obtained maximum prices for subsidized commodities covered by Supplement 13 to Food Products Regulation No. 1 (or any supplement superseding that supplement as to the 1946 pack) shall be increased to cover the full amount of the subsidy.

5. *Other changes.* Other minor corrections and adjustments may be made in maximum prices and pricing methods

where such action will not affect the average level of prices significantly.

Issued and effective this 31st day of May 1946.

CHESTER BOWLES,
Director.

Step 1: Find the amount of your net surcharge which you have not yet made up by May 30, 1946.

Step 2: Find the difference in each category between the highest maximum average price available to you on May 30, 1946, and the highest maximum average price available to you under section 7 (d) of Special Order 3 or section 3 (c) of Special Order 5.

Step 3: For each category multiply the amount found in Step 2 by the number of units you delivered in that category between April 1, 1946, and the close of business on May 30, 1946.

Step 4: Add together the amounts found in Step 3 for all categories.

Step 5: Subtract the amount found in Step 4 from the net surcharge found in Step 1. The result is the net surcharge you must still make up.

NOTE: If the amount found in Step 4 is equal to or greater than the net surcharge found in Step 1, you are deemed to have completed your make up operation on May 30, 1946 and may resume normal operation under SO 108 on May 31, 1946. However, where the amount found in Step 4 is greater than the net surcharge found in Step 1, you may not carry over the difference as a credit into your normal operation.

(b) *Filing a report of the recalculation under this section.* If you have recalculated a net surcharge as described in (a) above, you must file, together with each copy of the statement required by section 5 of this order, a separate statement showing all the calculations found in Steps 1 through 5.

This amendment shall become effective May 31, 1946.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(a) The maximum net prices for sales by the Ava Brick Company, Ava, Ohio, of clay building brick and structural clay tile to its various classes of purchasers may be increased by an amount not in excess of $1.50 per thousand for standard size brick equivalents or by an amount not in excess of $0.60 per ton for structural hollow tile.

(b) If the Ava Brick Company had an established differential in price during the month of March 1942 for nonstandard sizes of brick, it may convert the adjustment granted herein for standard sizes of brick on the basis of the conversion factors or formulae in use by it during March 1942 in establishing price differentials between standard size brick and the other sizes.

(c) Any person purchasing any of the products covered by this order produced by the Ava Brick Company for the purpose of resale in the same form may increase his presently established prices under the General Maximum Price Regulation by adding the dollars-and-cents increase in cost resulting from the increase permitted the manufacturer in (a) above. [SO 148, Order 11]

CLEVELAND CASKET CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 5 of Supplementary Order No. 148, *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain models of caskets manufactured by Cleveland Casket Company of Cleveland, Tennessee, as follows:

(1) For all sales and deliveries of the following caskets to the class of purchaser specified below, the adjusted maximum prices are as follows:

Burial caskets	Code No.	Adjusted maximum prices to funeral directors
Trimmed complete, with outside burial box		*Each*
	522	$42.65
	522	42.55
	527	37.00
	427	37.00
	22	38.00
	27	32.35
	17	28.80
	720	6.10
	726	7.60
	749	10.00

(2) For sales and deliveries by the manufacturer to all other classes of purchasers the maximum prices are the adjusted maximum prices set forth in paragraph (a) (1) of this order, adjusted to reflect the manufacturer's customary differentials for sales to those other classes of purchasers.

(b) *Resellers' ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A reseller who had a properly established maximum price in effect before this order was issued for an article covered by this order may add to that maximum price an adjustment charge in the same dollar-and-cents amount as the adjustment charge authorized by this order for, and which he has paid to, his supplier.

(2) If the reseller did not have a properly established maximum price for the article in effect before this order was issued he shall first determine a maximum price (exclusive of adjustment

charges), and to that price he may add an adjustment charge in the same dollar-and-cents amount as the adjustment authorized by this order for, and which he has paid to, his supplier. To find his maximum price (exclusive of adjustment charges) for this purpose the reseller shall add to his invoice cost, less an adjustment charge stated on that invoice, the same percentage mark-up which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(3) If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(d) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of the articles covered by this order.

(e) *Terms of sales.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(f) *Change in resellers' margins.* Resellers' maximum prices adjusted in accordance with this order are subject to further adjustments which may result from any change in resellers' margins which may be effected by the Office of Price Administration to obtain absorption by resellers of any industry-wide increase in manufacturers' maximum prices.

(g) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

The amount of the adjustment in maximum prices granted by this order must be stated separately on invoices to all classes of purchasers, except for sales at retail.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on the 1st day of June 1946.

Issued this 31st day of May 1946.

PAUL A. PORTER,
Administrator.

[Region III Rev. Order G–19 Under RMPR 251]

RE-ROOFING IN CLEVELAND REGION

An opinion accompanying this order issued simultaneously herewith has been filed with the Division of Federal Register.

In the judgment of the Regional Administrator of Region III of the Office of Price Administration, the maximum prices established by this order are generally fair and equitable, and are necessary to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328.

Therefore, under the authority vested in the Regional Administrator of Region III of the Office of Price Administration by the Emergency Price Control Act of 1942, as amended and by section 9 of Revised Maximum Price Regulation No. 251, this order is issued:

SECTION 1. *What this order does.* This order fixes maximum prices for all sales of re-roofing when sold installed on residential structures in the area hereinafter described. It also includes incidental construction work when sold by installers of re-roofing, whether such a sale is made as a part of a general contract or not. The term "re-roofing" includes composition Asphalt Strip Shingles 12 inch (3 in line) of 210 pounds weight per square, and Roll Roofing, Mineral Surface Diamond Point of 105 pounds weight per square. The term "re-roofing" when sold installed means and includes related materials such as nails, mastic and flashing around chimneys and vents. The term "incidental" construction work means any installation of building materials or construction work other than installed re-roofing described in this order when sold by installers of re-roofing.

SEC. 2. *Applicability.* This order shall apply to all sales of installed re-roofing in connection with premises located in Cuyahoga County, in the State of Ohio.

SEC. 3. *Relationship of this order to Revised Maximum Price Regulation No. 251.* The provisions of this order supersede sections 6, 7 and 8 of Revised Maximum Price Regulation No. 251 with respect to sales of re-roofing when sold installed on residential structures. All other provisions of Revised Maximum Price Regulation No. 251 not inconsistent with this order are applicable to transactions covered by this order.

On and after the effective date of this order, regardless of any contract or other obligation, no person shall contract to sell, offer to sell or deliver re-roofing sold on an installed basis on residential structures as herein defined, at prices higher than the maximum prices established by this order provided that deliveries made not more than thirty days after the effective date of this order on bona fide contracts executed prior to the effective date of this order shall not be considered to be violations of this order.

SEC. 4. *Maximum prices for sales of re-roofing on an installed basis.* The maximum prices for sales of re-roofing on an installed basis on residential structures shall be as shown in the following table, and shall be upon a price per square basis:

12-inch (3 in line) asphalt strip shingles, 210 lbs. per square	$15.50
Roll roofing mineral surface diamond point, 105 lbs. per square	9.50

The above prices include nails, mastic and flashing around chimneys and vents.

SEC. 5. *Lump sum or guaranteed prices.* (a) A seller may offer to or make sales covered by this order on the basis of a lump sum price but such lump sum price must not be higher than the maximum price calculated in accordance with the pricing methods and requirements of this order.

(b) *Recomputation.* Within 30 days from the completion of the sale of any material and/or service covered by this order for which a price was charged on the basis described in paragraph (a) above, the seller shall check his price by reviewing the categories and other factors used in his estimate on the basis of the actual services rendered and material furnished and shall determine whether the price quoted, charged or collected is higher than the maximum price computed under this order. In the event that the price quoted, charged or collected is higher than the maximum price computed under the terms of this order, the seller shall reduce his price to the proper maximum price and shall refund to the buyer within such period of 30 days after the completion of the service, any excess which may have been collected or, if no excess has been collected, then, by written notice to the buyer, shall cancel the indebtedness of the buyer for any such excess, or both, as the case may require. Such a charge or collection in an amount in excess of the maximum price properly computed in accordance with this order shall not be considered to be a violation of this order if the amount thereof is refunded or credited to the buyer in accordance with this paragraph.

SEC. 6. *Incidental or preparatory construction work.* If, on any job, any installed building materials are furnished or any construction services performed by the seller, other than re-roofing, the cost of such work shall not be included in the cost of installed re-roofing but shall be separately priced and billed on all invoices. The maximum price of any incidental work shall be determined under Revised Maximum Price Regulation No. 251, or other applicable regulation or order.

SEC. 7. *Measurements.* It shall be the seller's responsibility to measure with reasonable accuracy the area or footage to be covered. A "measurement with reasonable accuracy" shall be considered to have been made if the price based on such estimate does not vary by more than 3% from the maximum price computed under the terms of this order.

SEC. 8. *Notification.* Every person making sales subject to this order shall, if requested by the purchaser, make available to the purchaser a copy of this order and copy of Revised Maximum Price Regulation No. 251. Upon completion of any contract for installed re-roofing and/or incidental or preparatory construction work, the seller, must furnish to him an itemized statement showing the number of squares, the maximum price per square of re-roofing installed, and a separate statement of any incidental construction work other than installed re-roofing, as provided by section 6 hereof, giving a description of such work and an itemized statement of the prices thereof. The seller shall also include in such statement the date on which the installation was completed, the names and addresses of the sellers and buyers, job site and terms of sale.

SEC. 9. *Prohibitions and evasions.* (a) No person shall sell and no person shall buy, in the course of trade or business, any of the commodities or services covered by this order, at prices greater than the maximum prices established by this order.

(b) The price limitations set forth in this order shall not be evaded by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of any of the commodities or services covered by this order, whether alone or in conjunction with any other commodity or by way of commissions, services, transportation or other charges, discounts, premiums, or other privileges or by tying agreement or other understanding or by making the terms and conditions of sale more onerous to buyers than they were during March 1942 (except as specifically permitted by this order or applicable regulations).

SEC. 11. *Relation to previous area order.* This Revised Order No. G–19 under Revised Maximum Price Regulation No. 251 supersedes and replaces Order No. G–19 under Revised Maximum Price Regulation No. 251 issued on March 11, 1946.

SECTION 1. *What this order covers.* (a) This order fixes maximum prices for all sales of composition re-siding materials on an installed basis into a residential structure, as defined herein, in the area hereinafter described, whether or not such sales or services are made as a part of a general contract.

(b) The term "residential structure" means any building, structure, or part thereof, used entirely or principally for living or dwelling purposes and includes building or structures in connection therewith, or adjacent thereto, at the same site, such as garages, barns, milk houses, sheds, granaries, and other outbuildings, but does not include hotels.

(c) The term "re-siding materials" means any material used for re-siding a residential structure in whole or in part, including but not limited to types of siding used such as asbestos-cement shingles and composition siding materials such as insulated brick or stone and roll brick siding, but does not include materials covered by Revised Maximum Price Regulation No. 251, such as lap-siding, drop siding, wood shingles, and similar materials.

SEC. 2. *Geographical applicability.* This Order No. G–28 applies to re-siding installed on residences in the Cincinnati-Covington Area, which includes the following Counties: Hamilton County in the State of Ohio and Boone, Campbell and Kenton Counties in the State of Kentucky.

SEC. 3. *Relationship of this order to Revised Maximum Price Regulation No. 251.* (a) This order supersedes sections 6, 7 and 8 of Revised Maximum Price Regulation No. 251 with respect to sales covered by this order. All other sections of Revised Maximum Price Regulation No. 251, together with all amendments thereto that have been or may be issued, except to the extent they are inconsistent with the provisions of this order, shall apply to sales covered by this order.

(b) On and after the effective date of this order, regardless of any contract or other obligations, no person shall sell or offer to sell re-siding materials on an installed basis covered by this order at prices higher than the maximum prices established by this order: *Provided,* That installations made not more than thirty days after the effective date of this order on bona fide contracts executed prior to the effective date of this order shall not be considered to be violations of this order.

[Region III Order G-34 Under Gen. Order 68]

MILLWORK IN THE TROY, OHIO AREA

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the authority granted the Regional Administrator under the provisions of General Order No. 68, this order is issued.

SECTION 1. *What this order covers.* This order covers all retail sales of the stock millwork items specified in this order, delivered to purchasers in the Troy, Ohio area. The Troy, Ohio area, for the purposes of this order, consists of the Counties of Darke, Miami, and Shelby in the State of Ohio.

SEC. 2. *Definition of a retail sale.* For the purposes of this order, a retail sale means a sale to an ultimate user or to a purchaser for resale on an installed basis.

SEC. 3. *Description of items covered by this order.* This order covers the stock millwork items set forth in the price list included herein including, but not limited to, glazed storm sash, glazed windows and doors. Other related items may be added from time to time.

SEC. 4. *Relation to other orders and regulations.* This order supersedes MPR 44 and MPR 293 and the General Maximum Price Regulation for all sales of the items covered by this order. Sales of any items not specifically described in this order remain subject to all applicable regulations issued by the Office of Price Administration.

SEC. 5. *Maximum prices.* (a) The prices set forth in the attached price list are the maximum prices which may be charged for the items shown whether purchased from manufacturers or jobbers, or self-produced. Prices lower than the maximum prices may, of course, be charged or paid.

(b) The prices established by this order include free delivery to points within the county where the sellers' place of business is located. Delivery rates and allowances beyond the sellers' county shall be in accordance with said sellers March 1942 delivery practices.

(c) Sellers shall allow to all bona fide resellers of stock millwork on an installed basis, a discount of not less than 2% for payment on or before the tenth of the calendar month following the date of delivery. No discount need be given on sales quoted and sold on a contract or lump sum basis.

SEC. 6. *Invoice.* Each seller subject to this order shall furnish to every buyer, of any items covered by this order, an invoice containing a sufficiently complete description of the stock millwork items sold to show whether or not the price charged is at or below the established maximum price. Items covered by the order shall be invoiced by the same description as listed in the attached price list.

SEC. 7. *Record keeping.* Each seller must keep at his place of business and available for inspection by representatives of the OPA, records concerning each sale covered by this order, showing the following:

1. Name and address of purchaser.
2. Place of delivery.
3. Date of transaction.
4. An itemized description of the materials and services invoiced, and the prices charged.
5. If the stock millwork is sold on a contract or lump sum price basis and includes two or more different items, the seller must keep a record describing his calculations of each item sold by reason of such lump sum price.

SEC. 8. *Prohibitions and evasions.* (a) No person shall sell, and no person shall buy in the course of trade or business at prices greater than the maximum prices established by this order.

(b) The price limitations set forth in this order shall not be evaded by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of any of the commodities covered by this order, whether alone or in conjunction with any other commodity, or by way of commissions, services, transportation or other charges, discounts, premiums, or other privileges or by tying agreement or other understanding or by making the terms and conditions of sale more onerous to buyers than they were during March 1942 (except as specifically permitted by this order or applicable regulations).

SEC. 9. *Posting.* Every seller making a sale covered by this order shall post a copy of said order with the list of maximum prices in each of his places of business in the Troy, Ohio, Area, in a manner plainly visible to and accessible by all purchasers.

SEC. 10. *Amendment.* This order may be amended or revoked at any time by the Office of Price Administration.

This order shall become effective May 22, 1946.

Issued May 8 1946.

PART 707—VETERANS' EMERGENCY HOUSING PROGRAM

MINIMUM PROPERTY REQUIREMENTS FOR NEW DWELLINGS APPROVED BY FEDERAL HOUSING ADMINISTRATION FOR SALE OR RENT TO VETERANS UNDER CPA PRIORITIES REGULATION 33

Sec.
707.15 Purpose.
707.16 Minimum property requirements.
707.17 Plans and specifications.
707.18 Inspections.
707.19 Definition of veteran.

AUTHORITY: §§ 707.15 to 707.19, inclusive, issued under 55 Stat. 838, 50 U.S.C. App., Sup., 601; E.O. 9070, 3 CFR, Cum. Supp.; E.O. 9638, 10 F.R. 12591; 54 Stat. 676 as amended, 50 U.S.C. App., Sup., 1152; Veterans' Housing Program Order 1, 11 F.R. 3596; CPA Priorities Regulation 33 as amended, 11 F.R. 4085; CPA Directive 42 as amended, 11 F.R. 5906; NHA General Order 21–33B (Infra).

§ 707.15 *Purpose.* (a) Sections 707.15 to 707.19, inclusive establish minimum property requirements for new dwellings hereafter approved by the Federal Housing Administration for sale or rent to veterans under § 944.54, chapter IX, Title 32 (CPA Priorities Regulation 33). These §§ 707.15 to 707.19 also require that applications for such approval shall include plans and outline specifications of the proposed construction, and provide for the inspection of such construction. The provisions of these §§ 707.15 to 707.19, inclusive, are deemed necessary to assure the fullest utilization of critical building materials under the Veterans' Emergency Housing Program and the establishment of maximum sales prices and rents which are reasonably related to the proposed accommodations.

§ 707.16 *Minimum property requirements.* (a) Minimum property requirements, to be known as "HH Minimum Property Requirements," are hereby established for new dwellings approved by the Federal Housing Administration under § 944.54 (CPA Priorities Regulation 33) where the applicant applies for authorization or priorities assistance to build for sale or rent with preference to veterans. The "HH Minimum Property Requirements" shall be the same as the "Property Standards," "Minimum Construction Requirements," and "Minimum Requirements for Rental Housing," as established for the area and amended from time to time by the Federal Housing Administration under the National Housing Act insofar as they apply to the structure itself and its water supply and sewage disposal systems, or as modified by rulings or standards issued by the National Housing Agency on special methods of construction or substitute materials. The "HH Minimum Property Requirements" shall be available in all State and District Offices of the Federal Housing Administration.

(b) Nothing contained in these §§ 707.15 to 707.19, inclusive, shall be construed as authorizing any construction not approved on the application for authorization or priorities assistance.

§ 707.17 *Plans and specifications.* (a) Where application is made to the Federal Housing Administration under § 944.54 (CPA Priorities Regulation 33) for authorization or priorities assistance to build a new dwelling or dwellings for sale or rent with preference to veterans, plans and outline specifications and other exhibits as specified in HH Form 1015, for each type of dwelling to be built, shall be attached to and made a part of the application on Form CPA–4386. Such application may not be approved unless the plans, outline specifications, and other exhibits meet or exceed the "HH Minimum Property Requirements" and the application otherwise qualifies. The construction of the dwelling or dwellings must be done in accordance with the description given in the application and such attachments, except where the applicant has obtained written approval for a change from the Federal Housing Administration.

(b) Where such plans, outline specifications, and other exhibits are attached to Form CPA–4386, there shall be inserted in section V of the Form, prior to the signature of the applicant, the following:

I have examined and will comply with NHA Regulation 80–3. The attached plans, outline specifications, and other exhibits are hereby made a part of this application.

(c) A person who applies to the Federal Housing Administration under § 944.54 (CPA Priorities Regulation 33) for authorization or priorities assistance to build a dwelling for his own occupancy need not submit such plans, outline specifications, and exhibits, but may elect to submit them as part of the application, as provided in this section, in which event such applicant and the dwelling or dwellings proposed in the application shall be subject to the provisions of these §§ 707.15 to 707.19, inclusive. If the applicant does not make such election, he shall file with his application one copy of his contract with a contractor who has agreed to do all or part of the construction involved, unless the applicant represents that all of the construction work will be done by him.

§ 707.18 *Inspections.* (a) When the Federal Housing Administration approves an application for authorization or priorities assistance for a dwelling for which the "HH Minimum Property Requirements" are established by these §§ 707.15 to 707.19, it shall transmit to the applicant three postal cards (HH Form No. 1010) for use by him in reporting construction progress. The applicant shall properly fill out each card and mail it, at the stage of construction indicated on the card by the applicant, to the State or District Office of the Federal Housing Administration where his application was approved. The first card shall be mailed when construction has begun. The second card shall be mailed when the dwelling has been enclosed and roofed, structural framing completed and exposed, and roughing-in of heating, plumbing, and electrical work installed and visible for inspection. The third card shall be mailed when the dwelling has been substantially completed.

(b) The Federal Housing Administration shall make an inspection of the dwelling upon receipt of the second postal card referred to above and a second inspection upon receipt of the third postal card, for the purpose of determining whether the construction conforms to the plans, outline specifications, and other exhibits made a part of the application. Inspections under the National Housing Act, where applicable, may be made in place of the inspections provided in this paragraph.

§ 707.19 *Definition of veteran.* (a) As used in these §§ 707.15 to 707.19, the word "veteran" means "veterans of World War II and members of the Armed Forces" as defined in § 944.54 (CPA Priorities Regulation 33).

This regulation shall be effective June 10, 1946.

WILSON W. WYATT,
Administrator.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Supplementary Order M-317C, as Amended June 3, 1946]

COTTON SALE YARN PRODUCTION AND DISTRIBUTION

§ 3290.371 *Supplementary Order M-317C*—(a) *What this order does.* This order states the special rules for production and distribution of cotton sale yarn. The production requirements relate to both the kinds and quantities of cotton sale yarn to be produced, and also controls dyeing and blending operations. The distribution requirements relate to set-asides for specified purposes, the certificates of use which must be filed with purchase orders in order to obtain set-aside cotton sale yarn, and the effect and use of preference ratings. The set-aside percentage figures are shown at the end of this order. Cotton sale yarn was formerly subject to Supplementary Order M-317B, revoked August 20, 1945.

(b) *Definitions.* (1) "Cotton yarn" means yarn containing 50% or more by weight of cotton or cotton waste or any combination of the two, spun on roving, ring, tube twister or converted twister spindles, or produced on the woolen system. The term includes gray, bleached, mercerized, colored, glazed or polished yarn, whether single, ply, twisted or braided, and including thread, sash cord, rope, twine and cordage (for example, tying, sail or seine twine, and cotton tire cords, including cotton tire cord held together loosely or by one or more picks).

(2) "Cotton sale yarn" means cotton yarn offered by the producer for sale to, or produced for the account of, any person not under common ownership or control with the producer.

(2) The above provision applies to all kinds of spindles used in the production of cotton sale yarn, and applies regardless of any change of ownership or control of any spindle after December 31, 1945 (or the last prior date when the spindle was in operation).

(d) *Minimum quantity of cotton sale yarn to be produced and delivered.* (1) Each person in the business of producing cotton yarn after May 1, 1946, shall produce and deliver the following quantities of the cotton sale yarns specified in paragraph (c) above:

(i) During the period May 1 through June 30, 1946, not less than the smaller of the following: 80% (i. e., ⅔ of 120%) of the poundage of cotton sale yarn which he delivered in the fourth calendar quarter of 1945; or two-thirds of the poundage of cotton sale yarn which he delivered in the calendar quarter between January 1, 1944 and December 31, 1945, inclusive, in which he delivered the most cotton sale yarn.

(ii) During any calendar quarter after June 30, 1946, not less than the smaller of the following: 120% of the poundage of cotton sale yarn which he delivered in the fourth calendar quarter of 1945; or 100% of the poundage of cotton sale yarn which he delivered in the calendar quarter between January 1, 1944 and December 31, 1945, inclusive, in which he delivered the most cotton sale yarn.

(2) A producer who operates spindles acquired by him on or after January 1, 1944, for the production of any cotton yarn must include deliveries by the former operator of cotton sale yarn produced on these spindles between January 1, 1944 and December 31, 1945, inclusive (except deliveries by the former operator to the new producer), for the purpose of computing poundages to be delivered after May 1, 1946.

(e) *Special provisions regarding production directions*—(1) *Production at a loss.* In cases of appeal for suspension of the requirements of paragraph (c) or (d) on the ground that compliance will result in production at a loss, an application for price relief on that ground must first be filed with the Secretary of the Office of Price Administration, Washington, D. C., and a copy filed with the CPA appeal. If the CPA appeal is granted, the requirement of these paragraphs for changes in production or for increases above current production will be suspended until the decision by the Office of Price Administration upon the application for price relief. This paragraph does not indicate or limit the extent or kind of price relief, if any, which may be granted by the Office of Price Administration.

(2) *Interchange of spindle production.* A mill which has some spindles which are subject to paragraph (c), and other spindles which are not, may interchange the production of equal numbers of similar spindles between the two groups in order to facilitate plant operations. *Provided,* That the interchange does not have the effect of reducing production of the required kinds and quantities of cotton sale yarn.

(f) *Dyed yarn restrictions*—(1) *Permanent dyes.* During the period June 3 through June 30, 1946, inclusive, and during each calendar quarter after that, no producer shall deliver a greater proportion of dyed cotton sale yarn (not including fugitive dyes or tints) compared to his total deliveries of dyed and natural cotton sale yarn, than the proportion he delivered in 1941.

(2) *Fugitive dyes.* During the period June 3 through June 30, 1946, inclusive, and during each calendar quarter after that, no person shall deliver a greater proportion of cotton sale yarn dyed with a "fugitive dye" or "fugitive tint" which can be completely removed by normal commercial washing and scouring, compared to his total deliveries of dyed and natural cotton sale yarn, than the proportion he delivered in 1941.

(3) *Persons who did not deliver dyed yarn in 1941.* Except as specifically authorized in writing by the Civilian Production Administration, a producer shall not deliver permanent-dyed cotton sale yarn if he did not deliver any in 1941, and a producer or other person shall not deliver fugitive-dyed cotton sale yarn if he did not deliver any in 1941. Application for authorization should be made by letter in triplicate addressed to the Civilian Production Administration, Textile Division, Washington 25, D. C., Ref.: M-317C, and should contain the following information: (i) the kind of dyed cotton sale yarn (permanent or fugitive) for which authorization is requested (separate applications should be filed for fugitive and permanent dyed yarns); (ii) the poundage of such dyed yarn which the applicant wishes to deliver during the balance of the current calendar quarter, and how much during the next calendar quarter; (iii) the poundage of all dyed and natural cotton sale yarn which he expects to deliver during the next calendar quarter; (iv) the poundage of dyed yarn (of the kind requested) which he delivered in the peak year from 1942 through 1945, specifying the peak year; (v) the poundage of dyed yarn (of the kind requested) which he was specifically authorized to deliver by the War Production Board while Supplementary Order M-317B was in effect; (vi) the kinds and quantity of dyeing equipment owned by the applicant, when it was acquired, and whether it was acquired to fill war contracts (specify only dyeing equipment suitable for the kind of dyed yarn requested).

Authorizations will be issued as fairly and equitably as possible on the basis of this information, and also considering the national economic stabilization policies and the need for dyed yarns, and may be issued to cover the balance of the quarter in which the application is filed, and each quarter after that. Authorizations issued on appeal from paragraph (f) of this order as in effect before June 3, 1946, remain effective for the purpose of this paragraph.

(g) *Blended yarn spindle limitation.* On and after May 1, 1946, no person shall operate at any one time a greater number of spindles in the production of blended cotton sale yarn than the maximum number of spindles which he operated in such production at any one time during the fourth calendar quarter of 1945. A "blended" yarn is one which is composed partly (at least 50%) of cotton fibers and partly of other fibers, whether blended or mixed, but does not include combinations of 50% cotton and 50% wool.

Set-Asides

(h) *Set-aside for knit outerwear, underwear and hosiery.* Each producer shall set aside from his production of each cotton sale yarn during the period May 1 through June 30, 1946, inclusive, and during each calendar quarter after that, an amount not less than the percentage specified in column 4 of the appendix, for delivery only on orders certified for ultimate use in knit outerwear, knit underwear or knit hosiery.

(i) *Set-aside for woolen and worsted fabrics.* Each producer shall set aside from his production of each cotton sale yarn during the period May 1 through June 30, 1946, inclusive, and during each calendar quarter after that, an amount not less than the percentage specified in column 5 of the appendix, for delivery only on orders certified for ultimate use in woolen and worsted fabrics.

(j) *Set-aside for agricultural and industrial uses and for making certain products.* Each producer shall set aside from his production of each cotton sale yarn during the period May 1 through June 30, 1946, inclusive, and during each calendar quarter after that, an amount not less than the percentage specified in column 6 of the appendix, for delivery only on orders certified for any of the following purposes:

(ii) Production materials to be used in the manufacture of the following: vehicles (including aircraft); building materials; construction machinery; tires; elastic yarn; elastic fabric; rubber hose and belts; footwear, thread; twine; cordage; rope; furniture; dual (purpose) sleeping equipment; and electrical, industrial, agricultural, food processing or transportation equipment.

(k) *Additional set-aside for paragraph (h), (i) and (j) purposes.* (1) Each producer shall set aside from his production of each cotton sale yarn during the period May 1 through June 30, 1946, inclusive, and during each quarter after that, an amount not less than the percentage specified in column 7 of the appendix, for delivery only on orders certified for any of the following purposes:

(2) This set-aside is in addition to the specific set-asides for the same purposes in paragraph (h), (i) and (j) above, and may be distributed among purchase orders certified for those purposes in any proportion, *Provided,* That when rated these orders are accepted and filled in accordance with Priorities Regulation No. 1.

(l) *Set-aside for export.* Each producer shall set aside from his production of each cotton sale yarn during the period May 1 through June 30, 1946, inclusive, and during each calendar quarter after that an amount not less than the percentage specified in column 8 of the appendix, for delivery only on orders certified for export as yarn (including export to Canada). Yarn set aside under this paragraph shall not be delivered on orders for eventual export by the United States Army, Navy, Maritime Commission, War Shipping Administration, American Red Cross, or any U. (m) *General provisions for set-asides*—(1) *Explanation of terms.* The term "each cotton sale yarn" in the above set-aside provisions refers to each group of cotton sale yarns having the same Reference Number in column 1 of the appendix. The "periods" referred to in the following subparagraphs (2) and (3) are the initial set-aside period May 1 through June 30, 1946, and each calendar quarterly set-aside period after that.

(2) *Quantities to be set aside and carry-overs from previous periods.* The undelivered balance of the total quantity required to be set aside for an purpose during any period shall be added to the percentage of production during the next period which must be set aside for that purpose. The sum of the carry-over plus the required percentage of current production constitutes the total quantity of each set-aside during each period. For the purpose of determining set-aside quantities during any period, production during that period must be estimated as

being at least equal to two-thirds of production in the first quarter of 1946, for the purpose of the May 1 through June 30, 1946, set asides, or as being at least equal to the previous quarter's production, in the case of quarterly set-asides after June 30, 1946.

(3) *How deliveries on certified orders should be charged against set-asides.* Deliveries in excess of the quantity required to be set aside for any purpose may not be credited against the set aside for any other purpose, nor against the next period's set-aside for the same purpose. However, deliveries on orders certified for any set-aside purpose in paragraph (h), (i) or (j) may be credited against the set-aside under the applicable one of those paragraphs, or may be credited against the set-aside under paragraph (k), but may not be credited against both. The set-aside for each purpose is a minimum required quantity, and does not prevent additional quantities being delivered from production which has not been set aside for other purposes.

(4) *Production for another's account.* A producer of cotton sale yarn for the account of another person must treat that yarn as part of his (the producer's) own production for the purpose of the above set-aside provisions, and may not deliver the yarn to anyone, including the person for whose account it was produced, except upon receipt of certificates of ultimate use which meet the terms of the required set-asides.

Certificates

(n) *When purchase order certificate required, and restrictions on use or resale of yarn received on certification.* No producer may deliver cotton sale yarn which he is required to set aside under this order for any ultimate use or uses, except on purchase orders with certificates stating that the yarn ordered will be used or resold for the required use or uses. A person who has obtained cotton sale yarns on certification may use them only as certified, and may resell them only on orders similarly certified. However, he may resell at retail without certification from the buyer unless he knows or has reason to believe that the buyer will not use the yarn for the certified purpose.

Delivery shall not be made on any order which the seller knows or has reason to believe is falsely certified, or on any uncertified order which is required to be certified, even though the order is rated MM or CC.

(o) *Content and form of certificate.* (1) The purchase order certificate must state the ultimate use of the cotton yarn ordered, and must be certified and signed, substantially as follows:

For use or resale for use in knit outerwear, knit underwear or knit hosiery; or

For use or resale for use in making woolen or worsted fabrics, or

For use or resale for use in making the following (specify which ones): Corduroy broad woven fabrics; Wind resistant broad woven fabrics; Furniture upholstery broad woven fabrics; Transportation upholstery broad woven fabrics; CPA Order L-99 "May produce only" fabrics; Braided products or narrow woven fabrics other than decorative ribbons, tapes or braids; or

For use or resale for "industrial or agricultural purposes" under CPA Order M-317C, or

For export as yarn (or state that, "These cotton yarns will be exported, or will replace in inventory similar cotton yarns which have been exported within 90 days"; moreover, except in cases of export of cotton sale yarn of kinds which may be exported on General License, the following information must also be furnished: state the governing export license number and date of validation, or the United States Treasury Procurement Division contract number and date; or if the export is to Canada, so state and add the Canadian Cotton Administrator's Serial Number and date).

The above statements of use must be followed by the following standard form of certification, signed manually or as provided in Priorities Regulation 7:

The undersigned purchaser certifies, subject to the penalties of section 35 (a) of the United States Criminal Code, to the seller and to the Civilian Production Administration that, to the best of his knowledge and belief, the undersigned is authorized under applicable Civilian Production Administration regulations and orders to place this delivery order, to receive the item(s) ordered for the purpose and to use any preference rating which the undersigned has placed on this order.

---------- (Authorized signature) ---------- (Date)

(2) In addition to the above statement of ultimate use, the applicable rating (if any) and the statement of the source of the rating (required by paragraph (c) of Order M-317) may be inserted in the above certificate instead of being certified separately.

Preference Ratings

(p) *Effect of preference ratings*—(1) Rated orders for set-aside yarns. Purchase orders which are duly certified for any set-aside purpose and also bear preference ratings and the statement of source of rating required by Order M-317, must be accepted and filled from the applicable set-aside in accordance with the provisions of Priorities Regulation No. 1. On the other hand, delivery may not be made of any set-aside cotton sale yarn on any order which is not certified as required by paragraphs (n) and (o) above, regardless of ratings.

(2) *Rating ceiling beyond set-asides.* No producer need accept rated orders which would cause him to deliver during any period more of any group of cotton sale yarns not subject to set-asides, than the percentage specified in the appendix, column 10, of his total production of that group of yarns during that period. For the purpose of this provision, the term "period" refers to the initial set-aside period May 1 through June 30, 1946, and to each calendar quarterly set-aside period after that, and the term "group" refers to cotton sale yarns having the same Reference Number in column 1 of the appendix. Deliveries on rated orders which have been credited against any set-aside may not be credited against the rating ceiling of this paragraph. On the other hand, deliveries on rated orders which are certified for set-aside purposes may be credited against the rating ceiling of this paragraph if the applicable set-asides were exhausted and the deliveries are not credited against any set-aside.

(3) *Kinds of ratings affected.* Paragraphs (p) (1) and (2) above refer to MM and CC rated orders. Orders rated AAA must be accepted and filled regardless of conflict with any provisions of this order.

(4) *Restriction on serving ratings on another producer.* No producer of cotton yarn shall use any preference rating to obtain cotton yarn from another producer, except to the extent authorized by the Civilian Production Administration, upon his showing on Form CPA-2842, that his own production is insufficient or unsuitable.

(5) *Expiration of export ratings.* Preference ratings assigned for the export of cotton sale yarn expire if they are not applied or extended to an order accepted by a producer within six months of the date the rating was assigned.

(6) *Rated orders for future delivery.* No person is required to accept any rated order for cotton sale yarn calling for delivery more than 90 days after the receipt of the order, except from the United States Army, Navy, Maritime Commission or War Shipping Administration.

Miscellaneous

(q) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provisions appealed from, and stating fully the ground of the appeal.

(r) *Reports.* Each producer of cotton yarn shall file a report with the Civilian Production Administration on Form CPA 658-E at the time and in the manner prescribed in that form. This reporting requirement has been approved by the Bureau of the Budget under the Federal Reports Acts of 1942.

(s) *Communications.* All reports, appeals and other communications concerning this order shall be addressed to: Civilian Production Administration, Textile Division, Washington 25, D. C. Ref.: M-317C.

Issued this 3d day of June 1946.

ARTICLE I—GENERAL PROVISIONS

SECTION 1. *What this regulation does.* This regulation fixes new ceiling prices for the foods listed in Table A for wholesalers selling these food products. These new ceiling prices are to be used on and after August 5, 1943, instead of the ceiling prices figured under any other price regulation or order issued by the Office of Price Administration (hereinafter called OPA), except as otherwise provided in any order fixing dollars and cents ceiling prices, which has been or which may be, issued by the OPA pursuant to General Order No. 51.[3]

SEC. 2. *How you determine to which class your business belongs*—(a) *What wholesalers are covered.* Your business is classified under this regulation, if, prior to the effective date of the regulation you were and still are a wholesaler, the larger part of whose food sales are of food products which you purchase for resale and distribute from your warehouse without materially changing their form, to independent retail stores, or to commercial, industrial or institutional users. This regulation does not apply, however, to "wagon wholesalers", "flour jobbers", "Great Lakes marine suppliers," or to sales of "cookies, crackers, toast and crumbs" by "cookie and cracker wholesalers."

[Paragraph (a) amended by Am. 7, 9 F.R. 2562, effective 3–13–44; Am. 11, 9 F.R. 9719, effective 8–14–44 and Am. 27, 10 F.R. 13073, effective 10–25–45]

(b) *Classes of wholesalers.* Wholesalers covered by this regulation are defined as follows:

(1) *Class 1; retailer-owned cooperative wholesaler.* You are a retailer-owned cooperative wholesaler if you are either a non-profit organization or a corporation 51 percent of the stock of which is owned by your independent retailer customers.

(2) *Class 2; cash-and-carry wholesaler.* You are a cash-and-carry wholesaler if you are not in Class 1 and the larger part of your food sales were, prior to the effective date of this regulation, made without delivery, to independent retail stores, or if they were made with delivery a part of which you made a charge for delivery to all customers.

(3) *Class 3; service wholesaler.* You are a service wholesaler if you are not in Class 1 and the larger part of your food sales were, prior to the effective date of this regulation, and still are made, to independent retail stores, with delivery to all customers in a base zone without charge.

(4) *Class 4; institutional wholesaler.* You are an institutional wholesaler if you are not in Class 1 and the larger part of your food sales were, prior to the effective date of this regulation, and still are made to commercial, industrial or institutional users. For the purposes of this regulation "marine provisioners" shall be considered institutional wholesalers. (If you do business in more than one of the ways outlined above, see sections 17, 18, 19, and 20.)

[Subparagraph (4) amended by Am. 7, 9 F.R. 2562, effective 3–13–44]

[Section 2 amended by Am. 6, 8 F.R. 17368, effective 1–8–44, and as otherwise noted]

SEC. 3. *How and when you figure ceiling prices*—(a) *General rule.* Your ceiling price for each item (that is, for each kind, brand, grade, variety, container type and container size) of food listed in Table A shall be the result of (1) the "net cost" you had to pay for the most recent delivery of the item to you before August 5, 1943, multiplied by (2) the mark-up figure given you for it in Table A.

(b) *When you must figure your ceiling prices.* By the opening of business on August 5, 1943, you must have figured your ceiling price for each item of food covered by this regulation which you have in stock at that time. Between July 26, 1943, and August 5, 1943, you may put into effect the new ceiling price on any item as soon as you figure it; you

[3] Revised: 9 F.R. 408, 11982.

must put the new ceiling prices into effect on all items not later than August 5, 1943. If you do not put the new price for an item into effect before August 5, 1943, you must continue to use your existing ceiling for that item until August 5. If you receive delivery of any item between July 26, and August 5, for which you have no ceiling price, you must, before selling it, figure your ceiling price according to the rules of this regulation.

SEC. 4. *Directions for applying the rule*—(a) *Net cost.* To figure your ceiling price, first find the "net cost" of the item, based on its most recent delivery to you before August 5, 1943. Your "net cost" will be the amount you paid your supplier less all discounts except the discount for prompt payment and swell and label allowances, plus all transportation charges you paid except local trucking and local unloading. Treat as a separate item each kind, brand, grade, variety, container size and container type.

(1) Your net cost must be figured on purchases of a customary quantity from a customary type of supplier delivered to your usual receiving point by a customary means of delivery. Of course, you must never figure your net cost on a purchase made at a price higher than your supplier's ceiling.

(2) Figure the net cost of the unit in which you receive delivery (i. e. per dozen, per case, per bag, etc.) to the nearest cent.

(3) For items you "manufacture or otherwise process" use the special rules in section 16.

(b) *Mark-up.* Turn to Table A to find the mark-up figure for the item given your class of wholesaler. Table A lists all the items covered by this regulation by commodity groups.

(c) *Ceiling price.* Next multiply your "net cost" by the mark-up figure in Table A for your class of wholesaler for the item being priced. The resulting amount will be your ceiling price. You must not change this ceiling price unless OPA authorizes you to do so. (Section 6 tells you when you may be allowed to change it.)

(d) *Fractions.* All calculations of ceiling prices resulting in a fraction of a cent shall be reduced to the nearest lower cent if the fraction is less than one-half cent, and shall be increased to the nearest higher cent if the fraction is one-half cent or more.

If you sell an amount less than the unit in which you receive delivery, you must reduce your ceiling price proportionately, rounding any fraction to the next higher cent.

(e) *Invoices.* You must write your net cost per unit either on your invoice or other record of the price you paid for the item or on a separate slip of paper and attached to that invoice or other record.

You must keep separate, or mark or tag plainly, all invoices or records showing the "net cost" of the unit in which you received delivery and which you used in figuring your ceiling prices. The invoices and records you used in figuring your ceiling prices are your means of proving that your ceiling prices are right.

SEC. 5. *How you figure your ceiling prices for "new items."* (a) A "new item" is any item which you did not have in stock at the opening of business on August 5, 1943. You must figure your ceiling price for a "new item" before selling it, following the rules in section 4, basing your "net cost", however, on the first delivery of the item to you on or after August 5, 1943.

In pricing new items it is a violation to use the "net cost" of a first purchase made in a non-customary manner (that is, from a non-customary supplier or in a non-customary quantity) when you know that you will be making future purchases in a customary manner. If your first purchase is of this type you must find out and use, in figuring your ceiling price, what the "net cost" would be of a purchase from a type of supplier usually used for a similar item and of an amount in which a similar item is usually purchased.

SEC. 5a. *New wholesalers.* If, on or after August 5, 1943, you begin to operate as a wholesaler as defined in section 2, you are subject to this regulation, and as such a new wholesaler you must figure all your ceiling prices for all sales of food items covered by this regulation in accordance with the following provisions:

(a) If you are a retailer-owned cooperative wholesaler, you must figure all of your ceiling prices for sales to members as a retailer-owned cooperative (Class 1) wholesaler and are subject to all of the provisions applicable to such a wholesaler.

(b) If you are not a retailer-owned cooperative wholesaler you must figure your ceiling prices in the following way:

(1) For sales to independent retail stores made without delivery, you shall use the mark-ups applicable to a cash-and-carry (Class 2) wholesaler.

(2) For sales to independent retail stores made with delivery, you shall use the mark-ups applicable to a service (Class 3) wholesaler.

(3) For sales to commercial, industrial or institutional users, you shall use the mark-ups applicable to an institutional (Class 4) wholesaler.

(c) You must figure your ceiling price for an item before selling it, in accordance with section 4, basing your "net cost", however, on the first delivery of an item to you on or after the date you open your place of business subject to all of the provisions covering the sales of "new items" in section 5.

(d) For sales to retail stores which are not independent retail stores, and for sales to other wholesalers and all other sellers, your ceiling price for any item shall be your supplier's ceiling price for such item plus transportation charges to your usual receiving point.

[Paragraph (d) amended by Am. 25, 10 F.R. 12348, effective 10-20-45]

(e) Within 10 days after you become a new wholesaler under this section, you must notify your nearest District OPA office that you are operating under the provisions of this section.

(f) The provisions of this section may not be used by any person, who, at the opening of business on August 5, 1943, was subject to this regulation, or by any person owned or controlled by any wholesaler who at the opening of business on August 5 was subject to this regulation.

[Sec. 5a added by Am. 6, 8 F.R. 17368, effective 1-8-44]

SEC. 6. *When you may change a ceiling price*—(a) *Official notification.* If OPA changes a supplier's ceiling price for an item covered by this regulation, it may direct wholesalers to refigure their ceiling prices for the item. You may not refigure your ceiling price under this paragraph until you receive written notice requiring you to do so. Ordinarily a written notice telling you to refigure your ceiling price will come to you directly from your supplier or the manufacturer. You will find it inside or attached to the carton, case or barrel containing the item, or it will be sent to you with the invoice. After actually receiving the item for the first time with such a notice, you must, before selling the item, refigure your new ceiling price by following the directions in section 4, figuring your "net cost", however, on that first delivery. If that delivery is from another wholesaler covered by this regulation, you must use the "net cost" of the other wholesaler. You must write this new ceiling price on the invoice covering that delivery. Be sure to keep this notice attached to your invoice or other record showing the price you paid for the item. Even though you receive later shipments with the same notice you must not change your ceiling price again.

When you make a sale to a retail store at this new ceiling price, you must send with your invoice a copy of the notice received by you from your supplier if the notice is not attached to the item you are selling.

(b) *Special deals.* If your ceiling price for an item was based on a delivery to you at a "special deal" price, you may refigure your ceiling price when you receive your first delivery of that item after the termination of the "special deal". In refiguring your ceiling price, you must follow the directions in section 4, figuring your "net cost", however, on the first delivery to you of the item after the termination of the "special deal".

A "special deal" price means a reduced price, in effect for an announced period of not more than 90 days, to all purchasers of the same class, which price was made for the purpose of introducing a new commodity not theretofore on the market, or resulting from offers of free goods or combination sales. No price resulting from a discount for quantity purchases shall be considered a "special deal" price.

[Sec. 6 amended by Am. 6, 8 F.R. 17368, effective as to paragraph (a) 1-8-44, and as to paragraph (b) 12-29-43]

SEC. 7. *Indirect price increases prohibited.* You must not evade any of the provisions of this regulation or any order issued pursuant to it, by any stratagem, scheme, or device. You must not, as a condition of selling any particular food item, require a customer to buy anything else. Any such evasion is punishable as a violation of this regulation.

You may not use an unnecessarily high "net cost" in figuring a ceiling price under this regulation. If you make such a high cost purchase, you must find out what your net cost, as used in section 4, would be and use that net cost to figure your ceiling price.

SEC. 8. *Invoices and receipts.* You must give each of your customers an invoice, receipt or other evidence of purchase in connection with every sale, retaining a copy for your files. Each such record you prepare and give your customer must show the date of sale, the name and address of your customer, your name and address, each food item sold, and the price you charged for it. Be sure that your description of each item shows the kind, brand, variety, container-size and container-type.

[Paragraph deleted by Am. 31, effective 6-9-46]

If you sell more than one grade of any canned fruit or canned vegetable under the same brand name, you must show, on each invoice, the grade of each such item.

[Sec. 8 amended by Am. 6, 8 F.R. 17368, effective 1-8-44; and Am. 8, 9 F.R. 3647, effective 4-8-44]

SEC. 9. *Records.* After July 26, 1943, you must keep for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, all your invoices, freight bills, and other records showing the price you paid for each item and the date you received delivery of each item covered by this regulation. You are required to show all your invoices and records on request of any OPA representative. You are also required to keep available for inspection by any OPA representative the records you used in determining your class. In addition, you are required, on request of any OPA representative, to furnish a written record of your ceiling price for any or all of the items covered by this regulation.

SEC. 10. *Licensing.* The provisions of Licensing Order No. 1,[1] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[Sec. 10 amended by Supplementary Order 72, 8 F.R. 13244, effective 10-1-43]

SEC. 11. *Prohibitions.* On and after August 5, 1943, if you sell or deliver or offer to sell or deliver at a price higher than your ceiling price fixed by this regulation or any order issued pursuant to it, or if you otherwise violate any provision of this regulation, or any order issued pursuant to it, you are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended. Also, any person who, in the course of trade or business, buys from you at a price higher than your ceiling price is subject to the criminal penalties and civil enforcement actions provided for by that act.

SEC. 12. *Dollars-and-cents ceiling prices.* From time to time the OPA may, by order issued pursuant to General Order 51, fix dollars-and-cents ceiling prices for wholesalers for some or all of the food items covered by this regulation. When these dollars-and-cents prices are fixed, you may not thereafter sell at higher prices and these orders may provide that such prices take the place of the ceiling prices which you have under this regulation. If such orders do not provide that they replace your prices under this regulation you must continue to figure your prices under this regulation. If the OPA has, before the effective date of this regulation, established a ceiling price for you for an item pursuant to such an order, you shall use that as your ceiling price and shall not figure a ceiling price for the item under this regulation.

SEC. 13. *Further provisions supplementing or explaining this regulation.* From time to time, the Price Administrator may, by amendment, issue further provisions which will supplement the provisions of this regulation or explain the rights and duties of buyers and sellers under it. These further provisions will become part of this regulation and may be added as paragraphs to this section.

(a) Whenever an amendment adds any food product to the list of items covered in Table A, you must figure your ceiling price for that food product in accordance with sections 3, 4 and 5. However, in doing so, you shall substitute the effective date of such amendment for the date August 5, 1943, whenever it appears in sections 3, 4 and 5.

(b) Whenever an amendment changes either a commodity definition in Table A by transferring a food product from one commodity group to another or the mark-up for your class of wholesalers, you must, by the opening of business on the effective date of such amendment refigure your ceiling prices for the items affected by such amendment. In doing so, you must use as your "net cost" the same "net cost" you used in figuring the ceiling prices you had on the effective date of the amendment.

[Paragraphs (a) and (b) added by Am. 4, 8 F.R. 15250, effective 11-9-43]

(c) On and after March 13, 1944, "marine provisioners" are made subject to this regulation. If you are a "marine provisioner", you must, by the opening of business on March 13, 1944, have figured your ceiling price in accordance with sections 3 and 4 for items which you have in stock at that time. For items which you do not have in stock at that time, you must figure your ceiling price in accordance with section 5. However, in doing so, you must substitute the date March 13, 1944, for the date August 5, 1943, whenever it appears in sections 3, 4 and 5.

[Paragraph (c) added by Am. 7, 9 F.R. 2562, effective 3-13-44]

(d) *1944 pack of "canned" and frozen fruits and vegetables.* Each item of the 1944 pack of "canned" fruits and vegetables and frozen fruits and vegetables shall be considered a different item from the 1943 and earlier packs, and you shall figure a separate ceiling price for each item. You must figure your ceiling price for each such item in accordance with the provisions in sections 3, 4 and 5, basing your "net cost" on the first delivery to you of the item.

However, if that first delivery is received by you before the date on which maximum prices are established by the OPA for sales of the item by processors, and another delivery is received by you after that date, you shall refigure your ceiling price for such item, basing your "net cost" on the first delivery of the item to you after that date.

The receipt of any of the above items of the 1944 pack, at a price to be adjusted after delivery in accordance with action to be taken by the OPA shall not be deemed a delivery, for the purpose of this section, until the receipt of an invoice or other written notice from your supplier showing the price after adjustment. Until the receipt of such an invoice or notice, you may not sell or deliver or offer to sell or deliver the item at a price higher than your ceiling price for the same item of the 1943 pack.

[Paragraph (d) added by Am. 16, 9 F.R. 11901, effective 9-27-44]

(e) *1945 pack of "canned" fruits and vegetables, frozen fruits and vegetables and dried fruits.* Each item of the 1945 pack of "canned" fruits and vegetables, frozen fruits and vegetables and dried fruits, shall be considered a different item from the 1944 and earlier packs and you shall figure a separate ceiling price for each item. You must figure your ceiling price for each such item in accordance with the provisions in sections 3, 4 and 5, basing your "net cost" on the first delivery to you of the item.

However, if that first delivery is received by you before the date on which maximum prices are established by the Office of Price Administration for sales of the item by processors, and another delivery is received by you after that date, you shall refigure your ceiling price for such item, basing your "net cost" on the first delivery of the item to you after that date.

[Paragraph (e) added by Am. 24, 10 F.R. 11302, effective 9-10-45; amended by Am. 29, 10 F.R. 12992, effective 10-23-45 and Am. 29, 11 F.R. 842, effective 1-28-46]

(f) From time to time, an item you sell may go back under price control after a period of suspension or exemption. When that happens, you must not sell the item until you have figured your ceiling price. Your ceiling price, in such a case, must be figured in the following way (whichever is applicable):

(1) If the item is a "dry grocery" item for which you have previously figured a ceiling price under this regulation, your ceiling price shall be the same as it was when the item was removed from price control.

(2) If the item is a "dry grocery" item, for which you have not previously been

[1] 8 F.R. 13240.

required to figure a ceiling price under this regulation, and which you have in stock on the day price control is resumed, you must figure your ceiling price in accordance with the rules in sections 3 and 4, basing your "net cost", however, on the last delivery of the item received by you before price control is resumed. However, your "net cost" in such case may not exceed what it would have been if that delivery had been subject to price control and the purchase had been made at your supplier's ceiling price.

[Paragraph (f) added by Am. 31, effective 6-9-46]

ARTICLE II—SPECIAL PRICING PROVISIONS

SEC. 14. *Additions for packaging.* (a) If you buy in bulk any item covered by this regulation (except spices, tea and gelatin) and then package and sell it in cardboard containers, cotton bags, transparent bags, interlined coffee bags, or Kraft bags or similar type bags on which the name, weight and ingredients of the commodity, and your name are stamped or printed and which are packed and sealed at a place and time other than the point and time of sale, you may add to your "net cost" whichever of the following allowances applies:

(1) 1½ cents for every such bag or container with a net weight of less than 2 pounds.

(2) 2 cents for every such bag or container with a net weight of 2 pounds or more, but less than 5 pounds.

(3) ½ cent per pound for every such bag or container with a net weight of 5 pounds or more, but not to exceed a total of 3 cents.

[Sec. 14 amended by Am. 1, 8 F.R. 10569, effective 7-27-43; Am. 6, 8 F.R. 17368, effective 1-8-44 and Am. 22, 10 F.R. 5369, effective 5-17-45]

SEC. 14a. *Gift and holiday packages assembled by you.* If you assemble, into gift or holiday packages, any food items covered by this regulation, with or without any items not covered by this regulation, your ceiling price for each such package will be the sum of the following multiplied by 1.05:

(a) Your ceiling price for each item (or article) being packed, figured under this regulation or any other applicable maximum price regulation. If you have no ceiling price for any item (or article), use your direct cost for that item.

(b) Your direct cost of the packaging materials used for the package, including the container.

[Sec. 14a added by Am. 14, 9 F.R. 11537, effective 9-16-44]

SEC. 15. *Purchases and sales between wholesalers.* (a) If you purchase from another wholesaler covered by this regulation, an item for which you have not previously been required to establish a ceiling price under this regulation, you must secure a written record of that wholesaler's "net cost". To get your "net cost" for the item, you will add to that wholesaler's "net cost" the transportation charges you paid (not including local trucking or local unloading) to your usual receiving point. You will multiply the resulting figure by the mark-up figure for your class of wholesaler to get your ceiling price. However, your "net cost" for an item under this section may not exceed the net cost for that item had you purchased it from the manufacturer or processor. When you sell to another wholesaler an item covered by this regulation, you must furnish him with a written record of your "net cost" for the item.

(b) This section shall not apply to any imported food item which you purchase from a wholesaler who has imported that item with the exception of the items of packed pineapple and pineapple juice subject to Section 22a.

[Paragraph (b) amended by Am. 25, 10 F.R. 12848, effective 10-20-45]

(c) This section shall not apply with respect to ceiling prices figured for your sales to boat and steamship companies and ship operators for the provisioning of boats and ships, if you are a marine provisioner, the larger part of whose purchases of "dry groceries" were, prior to March 1942, and still are, made from other wholesalers: *Provided*, That before this exemption shall apply to you, you must receive a written order from the Regional Office of the OPA that covers the area in which you are located. You must file with such Office a written request, which shall include a statement showing the total amount of "dry groceries" you purchased from all sources during 1941, 1942, 1943 and 1944, and the total amount you purchased from wholesalers during each of those years. If such permission is granted, you shall figure your ceiling prices for such sales of items purchased from other wholesalers in accordance with the provisions of sections 3, 4 and 5. For each item for which you have figured a ceiling price before such permission is granted, you must refigure your "net cost", basing it, however, on the same purchase you used in figuring your existing ceiling price for the item.

Each Regional Administrator of the OPA may, by order, act on all requests for exemption filed under the provisions of this paragraph (c) by sellers located in his region.

[Sec. 15 amended by Am. 10, 9 F.R. 5648, effective 5-25-44; Am. 13, 9 F.R. 10982, effective 9-11-44; and Am. 17, 9 F.R. 13974, effective 11-28-44]

SEC. 15a. *Items which you import.* On and after September 11, 1944, this regulation shall not apply to you for sales of any item purchased by you directly from a foreign seller or his agent (except as provided in Section 22a), for importation into the continental United States. Your ceiling price for such items shall be determined by you in accordance with Order No. 38 [8] issued under the Maximum Import Price Regulation or the General Maximum Price Regulation [9] or any other applicable maximum price regulation covering the sale of the item by importers. If you have an existing ceiling price for any such item, you must, by the opening of business on September 11, 1944, refigure that ceiling price in accordance with the applicable maximum price regulation or order covering the sale of the item by importers.

[Sec. 15a added by Am. 13, 9 F.R. 10982, effective 9-11-44]

SEC. 16. *How you figure your ceiling prices for foods you "manufacture or otherwise process."* If you "manufacture or otherwise process" and sell at wholesale any item covered by this regulation you will determine your "net cost" or ceiling price for such an item under whichever of the following provisions applies:

(a) If the item is one for which OPA has issued, or later issues, a regulation naming dollars-and-cents ceiling prices for sales by manufacturers, but the regulation makes no provision for manufacturers selling to retailers, the lowest ceiling price under that regulation for sales delivered to your usual receiving point shall be your "net cost".

(b) If the item is one for which OPA has issued, or later issues, a regulation naming dollars-and-cents ceiling prices for sales by manufacturers and makes a provision for manufacturers selling to retailers, you shall figure your ceiling price for such item as a manufacturer under that regulation. You will not attempt to figure a "net cost" and apply a mark-up figure under this regulation.

(c) If the item is one for which OPA has not issued, or does not later issue, a regulation establishing dollars-and-cents ceiling prices for sales by manufacturers, you shall figure your ceiling price for such item as a manufacturer under the appropriate regulation covering sales of such item by manufacturers. You will not attempt to figure a "net cost" and apply a mark-up figure under this regulation.

(d) If, after you have established a ceiling price for an item which you "manufacture or otherwise process", the manufacturing regulation which you used in figuring your ceiling price under paragraph (a), (b), or (c) of this section is amended so that either (1) the manufacturer's regulation is no longer the type described in the applicable paragraph of this section or (2) the type of regulation is not changed but the prices set forth therein are changed, you must, within 5 days after the effective date of such amendment, refigure your ceiling price for the item under the applicable paragraph of this section based on the manufacturer's regulation as amended.

(e) For the purpose of this regulation you shall be considered a manufacturer of any item which you "manufacture or otherwise process" directly, or which is manufactured for you by a person to whom you supply the raw material.

SEC. 17. *How a retailer-owned cooperative wholesaler figures ceiling prices for sales to non-members.* If you are a retailer-owned cooperative wholesaler and you sell to non-members (those retailers who have no share or interest in your ownership) your ceiling prices for your sales to non-members without delivery may be figured as a Class 2 wholesaler. If you sell and deliver to non-members, your ceiling prices for such sales may be figured as a Class 3 wholesaler, in which event you may not add to such ceiling prices the additions for delivery allowed in section 21 of this regulation.

[8] 9 F.R. 2350, 7504, 8062, 10925, 12270.

[9] 9 F.R. 10938, 14318; 10 F.R. 1985, 4554.

SEC. 18. *How a service wholesaler figures ceiling prices for cash-and-carry sales.* If you are a service wholesaler but you also make cash-and-carry sales, you must use for such sales the mark-up figures of a cash-and-carry wholesaler if, during March 1942,

(a) You had a separate department for such sales, or

(b) You had a price list for such sales different from the price list which you used in making other sales.

SEC. 19. *How a service wholesaler figures ceiling prices for sales to commercial, industrial or institutional users.* If you are a service wholesaler and you make sales to commercial, industrial or institutional users, you may use for such sales the mark-up figures of an institutional wholesaler.

[Sec. 19 amended by Am. 6, 8 F.R. 17368, effective 1-8-44]

SEC. 20. *How an institutional wholesaler figures ceiling prices for sales to retailers.* If you are an institutional wholesaler but you also make sales to retail stores, your ceiling prices for such sales made without delivery must be figured as a Class 2 (cash-and-carry) wholesaler and your ceiling prices for such sales made with delivery must be figured as a Class 3 (service) wholesaler.

SEC. 21. *Addition allowed for deliveries by Class 1 and Class 2 wholesalers.* (a) If you are a retailer-owned cooperative wholesaler, or a cash-and-carry wholesaler, and you have customarily added a set amount or percentage to your sales price for delivering to retailers, you may, in figuring your ceiling price for each item you deliver to retailers, add to your ceiling price such set amount or percentage. The resulting figure will be your ceiling price for the item when delivered by you.

(b) If you are a retailer-owned cooperative wholesaler or a cash-and-carry wholesaler and you have not customarily added a set amount or percentage to your sales price for delivering to retailers, you may, in figuring your ceiling price for each item you deliver to retailers, add .01 to your mark-up figure (example: If your mark-up figure is 1.06, you change it to 1.07).

SEC. 22. *Addition allowed for deliveries outside of a base zone.*—(a) *Addition allowed to retailer-owned cooperative wholesalers, service wholesalers and institutional wholesalers.* (1) If you are a retailer-owned cooperative wholesaler, a service wholesaler or an institutional wholesaler, who, during March 1942, customarily sold goods on a delivered basis in different zones at established price differentials between zones, you may, in figuring your ceiling prices for items delivered by you to such other zones, add to your "base zone" ceiling prices, the same zone differentials which you added in March 1942. The resulting figures will be your ceiling prices for items delivered by you to such other zones. (Your base zone shall be the area surrounding your warehouse in which you customarily made free deliveries.)

(2) If you are a retailer-owned cooperative wholesaler, you may not, in figuring your ceiling prices under this section, include any addition allowed in section 21.

(3) Before using different delivered prices for different zones under this section, you must report, in writing, to the Distribution Branch, Food Price Division, OPA, Washington, D. C., the amount of such differentials and a description of your base zone and delivery zones.

(b) *Additions by certain wholesalers making f. o. b. sales.* If you are a service wholesaler or an institutional wholesaler who, during March, 1942, customarily sold f. o. b. your warehouse for delivery to zones or delivery points outside of your base zones, and

(1) If you added a freight charge when making such sales or included a freight charge in figuring your selling price, you may add to your ceiling price for each item the same charge or the same freight rate, apportioning the charge or freight rate to each item, in which case the resulting figure will be your ceiling price for the item when sold to such other zones or delivery points, or

(2) If your customer paid the freight bill, you may make such sales at your ceiling prices, the freight bill to be paid by the purchaser.

(c) *Additions by certain wholesalers who did not use a zone delivery system or make f. o. b. sales.* If you are a service wholesaler or an institutional wholesaler, who, during March 1942, customarily sold all customers on a delivered basis at the same price regardless of distance from your warehouse, you may, in figuring your ceiling price for an item delivered by you to a customer located at a distance of 125 miles or more from your warehouse, add to your mark-up figure whichever of the following amounts applies:

(1) If your customer is located at a distance of from 125 through 199 miles from your warehouse, you may add .01 to your mark-up figure (example: If your mark-up on mayonnaise in Table A is 1.16, you change it to 1.17).

(2) If your customer is located at a distance of from 200 miles through 299 miles from your warehouse, you may add .02 to your mark-up figure.

(3) If your customer is located at a distance of from 300 miles through 399 miles from your warehouse, you may add .03 to your mark-up figure.

(4) If your customer is located at a distance of 400 miles or more from your warehouse, you may add .04 to your mark-up figure.

(5) If your method of figuring ceiling prices for items delivered to zones outside of a base zone falls within either paragraph (a) or paragraph (b) of this section, you may not use this paragraph (c) in figuring your ceiling prices for items delivered to such other zones.

SEC. 22a. *Special limitations in figuring your net cost in certain cases.*—(a) *Pineapple which you import.*—(1) *"Net cost".* If you import any item of packed pineapple, or packed pineapple juice, (other than pineapple and pineapple juice packed in the Territory of Hawaii or in Puerto Rico), your "net cost" for any such item may not in any case exceed the maximum price fixed in Supplementary Regulation No. 14C [7] to the General Maximum Price Regulation for the item ex dock, any United States port of entry, duty paid, or ex railroad car or other type of carrier, any point of entry on the United States-Mexico border, duty paid, plus any allowable charges actually incurred in putting the items in the warehouse at port or point of entry, plus actual transportation charges from the port or point of entry to your usual receiving point.

If, prior to May 25, 1944, you had figured a ceiling price under this regulation for any of the above items of packed pineapple or packed pineapple juice which you imported, you must refigure your ceiling price for that item in accordance with the provisions of sections 3 and 4, basing your "net cost", however, on the first delivery to you of the item on or after May 25, 1944.

(2) *Notification of changes in ceiling price.* With the first delivery to retailers of any of the above items of packed pineapple or packed pineapple juice after you have figured or refigured your ceiling price for the item under the provisions of this section, you shall supply each retailer who purchases from you, with the written notice set forth below:

(Insert date)

NOTICE TO RETAILERS

Our OPA ceiling price for (describe item by kind, variety, grade, brand, container type and container size) has been changed by the Office of Price Administration. We are authorized to inform you that if you are a retailer pricing this item under Maximum Price Regulation Nos. 422 or 423, you must refigure your ceiling price for this item on the first delivery of it to you, from your customary type of supplier, containing this notification on and after (insert effective date of change in ceiling price). You must refigure your ceiling price following the rules in section 6 of Maximum Price Regulations Nos. 422 or 423, whichever is applicable to you.

For a period of 60 days after figuring such ceiling price and with each shipment after the 60 day period to each person who has not made a purchase within that period, you must place on or attach to each invoice the written notice set forth above.

(3) This section shall not apply to sales by you under the following conditions:

(i) If, prior to April 29, 1944, you figured a ceiling price for canned Cuban pineapple or canned Cuban pineapple juice for sales to industrial, institutional or commercial users under § 1341.155 (a)

[7] 10 F.R. 1165, 1704, 2618, 5458, 6308, 8000, 9010, 9882, 10124, 10231, 11364, 11905, 13369, 13370, 14395, 14318; 11 F.R. 1469, 3695.

of Maximum Price Regulation No. 197[8] or under this regulation for other packed pineapple or pineapple juice (other than pineapple or pineapple juice packed in the Territory of Hawaii or in Puerto Rico); and

(ii) If you have entered into contracts with a foreign seller prior to April 29, 1944, at prices not in excess of such ceiling price for the item; and

(iii) If you file a copy of each such contract with the Distribution Branch, Food Price Division, OPA, Washington, D. C., on or before September 9, 1944, together with a statement showing your cost for each item under such contract and your cost and ceiling prices for each item under Maximum Price Regulation No. 197 or this regulation.

In such cases, if your contracts are approved, the OPA will send you written notice permitting you to carry out such contracts at the contract price and setting forth the method you must use in figuring your ceiling prices for items delivered to you under the above contracts.

[Subparagraph (3) added by Am. 12, 9 F.R. 10257, effective 8-26-44]

(b) *Frozen fruits, berries and vegetables.* After you have figured a ceiling price under this regulation for an item of frozen fruits, berries, fruit or berry juices, vegetables or vegetable juices which is covered by the applicable Supplement to Food Products Regulation No. 1, you must, on the fifth day of each month, add 1/6 cent per pound to your existing ceiling price.

[Paragraph (b) added by Am. 12, 9 F.R. 10257, effective 8-26-44; amended by Am. 18, 9 F.R. 15047, effective 1-2-45; Am. 23, 10 F.R. 7251, effective 6-20-45 and Am. 31, effective 6-9-46]

[Sec. 22a added by Am. 10, 9 F.R. 5648, effective 5-25-44]

SEC. 22b. *Special rules for figuring ceiling prices for "sugar" after February 9, 1946.* At the close of business on February 9, 1946, you must determine the number of pounds of each item of "sugar" that you own at that time. You must make and keep a record of that inventory at your place of business. Do not include "sugar" which you obtained as an industrial user under Third Revised Ration Order 3[9] issued by the Office of Price Administration. After that date you must continue to sell each item of "sugar" at no more than the ceiling price you had in effect on February 9, 1946 until you have sold an amount equal to your February 9, 1946 inventory of the item. When you have sold that amount, you shall refigure your ceiling price for the item in accordance with the rules in section 6. However, if you receive a notification from your supplier to refigure your ceiling price for an item of "sugar", do not refigure your ceiling price or send notice to retailers until you have sold an amount equal to your February 9, 1946 inventory at no more than the ceiling price you had in effect on February 9, 1946.

If, at the close of business on February 9, 1946, you have an inventory of more than 10,000 pounds of all items of "sugar", you must, on or before February 25, 1946, file with the Wholesale-Retail and Fruit and Vegetable Branch of the Office of Price Administration, Washington, D. C. by registered mail, an affidavit showing the number of pounds of each item of "sugar" you own for resale at that time. You must keep a copy of that affidavit at your place of business.

[Sec. 22b added by Am. 30, 11 F.R. 1467, effective 2-10-46]

SEC. 23. *Special pricing provisions for manufacturers selling some commodities at wholesale.* Any person the larger part of whose business consists of the manufacturing or processing of foods but (a) his entire business in connection with a particular commodity consists of the purchase and resale of such commodity without materially changing its form and (b) the larger part of his sales of such commodity are made to independent retail stores or to commercial, industrial or institutional users (c) may figure his ceiling price under this regulation for sales of such commodity to retailers and commercial, industrial or institutional users, if the particular goods sold have been warehoused and are being sold in less-than-carload lots. However, this section shall not be applicable to sales of any "canned meat" covered by Revised Maximum Price Regulation 156.[10]

[Sec. 23 amended by Am. 11, 9 F.R. 9719, effective 5-14-44, and Am. 20, 10 F.R. 1496, effective 2-8-45]

ARTICLE III—ADJUSTMENT PROVISIONS

SEC. 24. *How retailer-owned cooperative wholesalers may, under certain conditions, apply for permission to use the mark-up figures designated for other wholesalers.* If you are a retailer-owned cooperative wholesaler, you may file an application for permission to use the mark-up figures designated for another class of wholesaler if you can establish:

(a) That you have customarily operated in the same manner as the other class of wholesaler, and

(b) That in 1941 you had an overall gross margin at least as high as the overall gross margin you would realize by using the mark-up figures specified in this regulation for such other class of wholesaler.

(c) Your application must set forth the following:

(1) A statement as to whether your members received dividends or other proceeds from your organization; the basis for determining the amount of such payments; the amount of such payments for the years 1941, 1942, and, if available, so far in 1943;

(2) The amount and conditions of fees, if any, paid by your members in addition to the invoice price of commodities;

(3) Your profit and loss statement for your fiscal years 1941 and 1942, and so much of 1943 as is available, and balance sheets as of the end of each such accounting period;

(4) Your percentage mark-ups over invoice cost for sales during 1941 to your members for each commodity group listed in this regulation, and if sales were made to non-members, the same information with respect to such sales;

(5) Any evidence you may be able to furnish showing the difference between your operations and functions and those of the usual retailer-owned cooperative wholesaler, including a statement of any special service performed by you, any additional compensation received for such special services, and a reasonable basis for distinction or classification, if any, between you and other retailer-owned cooperative wholesalers.

(d) Such application must be filed in duplicate by July 20, 1943, with your nearest District OPA office. You may not use these requested mark-up figures until you have received specific authorization from your proper OPA office.

(e) If you file an application under section 29 of Revised Maximum Price Regulation No. 237,[11] and such application has been denied, you are not eligible for adjustment under this section. If your application has been allowed, you may use the mark-up figures for the class of wholesaler to which you have been adjusted and you are subject to all of the provisions of this regulation applicable to such other class of wholesaler.

(f) *Applications for adjustment.* Any regional office of the OPA or such offices as may be authorized by order issued by the appropriate Regional Office, may act on all applications for adjustment under the provisions of this section. Applications for adjustment are governed by Revised Procedural Regulation No. 1.[12]

[NOTE: Procedural Regulation No. 6 (Revised: 9 F.R. 10628) provides for the filing of applications for adjustment of maximum prices for commodities or services under Government contracts or subcontracts. Revised Supplementary Order No. 9 (8 F.R. 6175) makes the provisions of Procedural Regulation No. 6 applicable to all price regulations, excepting those which expressly prohibit such applications and certain specific regulations listed in Revised Supplementary Order No. 9.]

SEC. 24a. *How certain wholesalers may, under certain conditions, apply for permission to use the mark-up figures designated for service wholesalers.* (a) If, prior to August 5, 1943, the larger part of your dollar food sales were made with delivery, to independent retail stores, but you are a Class 2 wholesaler because you did not deliver to all customers in a base zone without charge, you may file an application for permission to use the mark-up figures designated for service wholesalers, if you can establish that:

(1) Most of your sales prior to August 5, 1943 were, and still are made with delivery;

(2) Most of your sales prior to August 5, 1943 were, and still are made through the services of outside salesmen or fieldmen;

(3) Most of your sales prior to August 5, 1943 were, and still are made with credit; and that

(4) Your total gross margin was at least twelve percent on gross sales in your fiscal year 1941.

(b) Your application must set forth the following for the calendar or fiscal year 1943 and for either your most recent fiscal year or the first six months of 1945:

(1) Total dollar amount of sales;

(2) Total dollar amount of sales made with delivery;

(3) Total dollar amount of sales made through outside salesmen or fieldmen;

(4) Total dollar amount of credit sales; and

(5) Profit and loss statements.

Your application must also set forth a profit and loss statement for the year 1941 (calendar or fiscal), showing total dollar amount of sales, delivery charges if any, and cost of goods sold.

(c) Such application must be filed in duplicate on or before November 15, 1945 with your Regional OPA office. If your application is approved, you will be authorized to figure your ceiling prices as a service wholesaler, subject to all of the provisions applicable to such wholesalers and you will be authorized to make charges for delivery only in accordance with the provisions of section 22 (c). You may not use these requested mark-up figures until you have received specific authorization from this OPA office.

(d) Any Regional office of the OPA may act on all applications submitted under the provisions of this section by persons located within the area under its jurisdiction. Applications are governed by Revised Procedural Regulation No. 1.

[Sec. 24a added by Am. 25, 10 F.R. 12848, effective 10-20-45]

SEC. 25. *How service wholesalers may, under certain conditions, apply for permission to use the mark-up figures designated for institutional wholesalers.* If you are a service wholesaler (you must consider each warehouse as a separate wholesaler), you may file an application for permission to use the mark-up figures designated for institutional wholesalers if you can establish:

(a) The total gross margin on all sales made by you in your fiscal year 1941 was at least 20 percent; and

(b) During the years 1941 and 1944, your operations and functions differed substantially from those of the usual service wholesaler; for example, you regularly distributed grocery products over a much wider area and you offered for sale a substantially greater number of items of food than the usual service wholesaler.

(c) Your application must set forth the following for each warehouse for which the application for adjustment is filed:

(1) Profit and loss statements for the fiscal years 1941, 1942, 1943 and so much of 1944 as is available, and balance sheets as of the end of each such accounting period;

(4) The number of food items that you offered for sale in 1941.

(d) Such application must be filed in duplicate by February 22, 1945, with the Wholesale-Retail Branch, Food Price Division, OPA, Washington, D. C. You may not use these requested mark-up figures until you have received specific authorization from such OPA office. Applications for adjustment are governed by Revised Procedural Regulation No. 1.

If, prior to February 8, 1945, you filed an application under this section and your application has been allowed, you do not have to file another application, but shall continue to be subject to the order issued hereunder.

[Sec. 25 amended by Am. 10, 9 F.R. 5648, effective 5-25-44, and Am. 20, 10 F.R. 1489, effective 2-8-45]

[NOTE: Supplementary Order 106 (10 F.R. 2015) permits, under certain conditions, the addition of extra packing expenses to maximum prices on sales to procurement agencies of the United States.]

ARTICLE IV—MISCELLANEOUS PROVISIONS

SEC. 26. *Transfer of business and stock in trade.* If, after August 5, 1943, you acquire in any way the business, assets and stock in trade of any wholesaler covered by this regulation and you carry on the business, or continue to deal in the same type of food products in the same establishment, and you render the same service and sell to the same class of purchaser, your ceiling prices shall be the same as those of the former owner if no transfer had taken place. You must keep all the records needed to verify your ceiling prices. The former owner must either preserve and make available to you or give you all the records of his transactions before you acquired the establishment which you need to comply with the record provisions of this regulation.

If, after the transfer, you fall into a class of wholesaler different from the former owner's, your ceiling prices shall be those for the class of wholesaler in which you fall. (For example: If you acquire the business, assets, and stock in trade of a service wholesaler and you decide to discontinue making deliveries, your ceiling prices must be figured as a cash-and-carry wholesaler, using as your "net cost" the same "net cost" the former owner used in fixing his ceiling prices.)

SEC. 27. *Taxes.* You may collect, in addition to your ceiling price, any tax upon or incident to a sale at wholesale of food covered by this regulation, if you state the tax separately, and if the tax statute or ordinance does not prohibit sellers from stating and collecting the tax separately from the price.

SEC. 28. *Export sales.* The ceiling prices at which a person may export any product covered by this regulation shall be determined in accordance with the Second Revised Maximum Export Price Regulation,[13] as amended, issued by the OPA.

SEC. 29. *Relation to other regulations.* The provisions of this Maximum Price Regulation No. 421, except as otherwise provided in this regulation, shall, on and after August 5, 1943, supersede the provisions of Revised Maximum Price Regulation No. 237, Maximum Price Regulation No. 249,[14] Maximum Price Regulation No. 255,[15] the General Maximum Price Regulation, and any other applicable price regulation or order issued by the OPA except any order issued pursuant to General Order No. 51. with respect to sales and deliveries for which ceiling prices are established by this regulation.

SEC. 30. *Definitions*—(a) *Delivery.* Delivery of any item covered by this regulation shall be considered to have occurred when the item has been received by you at your usual receiving point.

(b) *Usual receiving point.* Your usual receiving point will be the warehouse at which you generally receive the particular item you are pricing under this regulation and from which you generally supply your customers.

(c) *Manufacture or otherwise process.* "Manufacture or otherwise process" shall mean blending, freezing, canning, preserving, bottling, milling, crushing, straining, roasting, centrifuging, cooking, distilling, purifying with heat, and other similar operations, and packaging of spices, tea and gelatin in the manner described in section 14. Packaging as used in section 14 (except for spices, tea and gelatin) shall not be considered manufacturing or processing under this regulation.

[Paragraph (c) amended by Am. 22, 10 F.R. 5369, effective 5-17-45]

(d) *Independent retail store.* Independent retail store shall mean one that is not one of four or more stores under one ownership whose combined "annual gross sales" are $500,000 or more.

(e) *Wagon wholesaler.* A "wagon wholesaler" is a wholesaler who distributes food products to retail stores or to commercial, industrial, or institutional users from an inventory stocked in trucks or other conveyances under the supervision of driver-salesmen who make deliveries at the time and point of sale. A wholesaler is a wagon wholesaler only of the food products he sells in this way.

(f) *Marine provisioners.* A "marine provisioner" is a person, the larger part of whose food sales are of food products which he purchases for resale and distributes from a warehouse, without materially changing their form, to boat and steamship companies and ship operators for the provisioning of boats and ships, with delivery from shore locations by the use of truck or launch facilities.

(g) *Flour jobber.* "Flour jobber" shall mean a "primary distributor" as defined in Maximum Price Regulation No. 296,[16] and also a person the larger part of whose business is the purchase and resale of flour made from wheat, semolina and farina without additional processing and in the original containers, to bakers and commercial, institutional or Governmental users. For sales to retail stores, "flour jobbers" other than "primary distributors" must figure their ceiling prices for flour under this regulation.

(h) *Cookie and cracker wholesaler.* A "cookie and cracker wholesaler" is a wholesaler the larger part of whose food sales were, prior to the effective date of the regulation, and still are of "cookies, crackers, toast and crumbs" which he purchases for resale and distributes from a warehouse, to independent retail stores, or to commercial, industrial or institutional users.

"Operator of a lake vessel or vessels" means any person who owns or operates a lake vessel or vessels, other than passenger boats, engaged in shipping upon the Great Lakes, and who in operating such vessels purchases or receives food products covered by this regulation from a Great Lakes marine supplier for consumption aboard such vessels. Excluded from this definition are hotel supply houses as defined in Second Revised Maximum Price Regulation No. 269,[17] hotel and restaurant supply houses as defined in Maximum Price Regulation No. 271,[18] and purveyors as defined in Maximum Price Regulation No. 426.

[Paragraph (i) added by Am. 27, 10 F.R. 13073, effective 10-25-45]

SEC. 31. *Geographical applicability.* The provisions of this regulation shall apply to the 48 States of the United States and the District of Columbia.

ARTICLE V—TABLE AND COMMODITY DEFINITIONS

SEC. 32. *Table of mark-up figures—(Table A.)*—(a) *Instructions.* Table A (printed below) lists the commodities and the mark-up figures for the four classes of wholesalers covered by this regulation. For a detailed list of the items included in each category of commodities, see "Commodity definitions", printed immediately after Table A. This regulation must not be used to determine ceiling prices for the commodities listed in paragraph (c) of this section.

The commodities covered by this regulation are listed in the column at the extreme left of Table A and the four classes of wholesalers are listed across the top of Table A. To find your proper mark-up figure for any item, first determine the class of wholesaler to which you belong; then find the commodity listed at the left of Table A which includes the item you are pricing. Directly opposite, in the column for your class of wholesaler, you will find the proper mark-up figure for the item. This is the figure by which you should multiply your "net cost" in order to determine your ceiling price. Drop any fraction of a cent which is less than ½ cent; take the next higher cent if the fraction is ½ cent, or more.

For example, you are a Service (Class 3) Wholesaler, and you want to figure your ceiling price for a case of 9-oz. packages of X Brand Spaghetti which you had in stock at the opening of business on August 5, 1943. The amount you paid your customary type of supplier for your last purchase of a customary quantity of this item prior to August 5, 1943, was $1.75 per case after deducting all discounts except the discount for prompt payment and swell and label allowances. In addition, you paid incoming freight, excluding local trucking charges, amounting to 9 cents per case. Your net cost is therefore $1.84 per case. Now refer to Table A. Check the list of commodities and you will find "Macaroni and spaghetti products." This category includes the item you are pricing. Directly opposite "Macaroni and spaghetti products", in the column headed "Class 3 Wholesaler", you will find the figure 1.15. Multiply your net cost by this mark-up figure; the resulting amount is $2.116. By rounding up the fraction of a cent, which is more than ½ cent, you will get your ceiling price of $2.12 per case.

SECTION 1. *Sales of mahogany lumber at higher than maximum prices prohibited.* On and after June 10, 1946, regardless of any contract or other obligation, no person shall sell or deliver, and no person shall buy or receive, mahogany lumber on a shipment subject to this regulation at prices higher than the maximum prices established by this regulation, and no person shall agree, offer, or attempt to do any of these things.

SEC. 2. *Products covered.* The term, mahogany lumber, in this regulation means lumber of the several species of the genus Swietenia, and of the several species of the genus Khaya, both of the Meliaceae family.

This regulation covers all mahogany lumber sold or delivered in the transactions referred to in section 3 regardless of whether the lumber is produced within the continental United States from imported logs or is produced outside continental United States.

This regulation covers all grades, sizes and specifications of mahogany lumber whether or not they are specifically priced in the tables below.

All grade terms and other terms, used in this regulation, have the meaning given in the current "Rules for the Measurement and Inspection of Hardwood Lumber" published by the National Hardwood Lumber Association, except where otherwise indicated.

SEC. 3. *Transactions covered.* This regulation covers all sales within the United States of mahogany lumber, except a sale out of distribution yard stock.

This regulation also covers purchases of mahogany lumber imported or to be imported into continental United States from a foreign country even though the seller's place of business is located outside continental United States. The resale of such imported mahogany lumber is also covered by this regulation unless the resale is a sale out of distribution yard stock. A sale out of distribution yard stock is covered by Maximum Price Regulation 467.

Specifically, but not exclusively, a consumer of mahogany lumber in the United States is not permitted, under this regulation, to purchase mahogany lumber in a foreign country at prices which, together with transportation costs and other costs, will result in delivered prices which exceed the maximum prices established in this regulation.

SEC. 4. *Definitions*—(a) *Distribution yard.* Under this regulation, the term, "distribution yard," has the same meaning as that term has under Maximum Price Regulation 467.

(b) *Sale out of distribution yard stock.* The term, "sale out of distribution yard stock," has the same meaning as that term has under Maximum Price Regulation 467.

(c) *Less-than-carload lot and carload lot.* A less-than-carload lot of mahogany lumber is a quantity of mahogany lumber which, if it were shipped by rail, would be shipped at the less-than-carload rates. Shipments differing from a less-than-carload lot are carload lots. For the purposes of this regulation, whether a quantity of mahogany lumber is a carload lot or a less-than-carload lot is determined by the total quantity involved in the transaction without regard to item quantities or whether it is broken up into smaller orders or deliveries.

(d) *Point of origin in the United States.* In the case of imported mahogany lumber, point of origin in the United States means either the point of entry or the port of entry into the United States.

(e) *Feet.* For lumber 1" or thicker, "feet" means board feet of lumber. For lumber less than 1" thick, "feet" means surface feet of lumber.

(f) *Cuban and San Domingo mahogany lumber.* Cuban and San Domingo mahogany lumber is mahogany lumber produced in Cuba, Santo Domingo or in any of the other islands of the West Indies. Cuban and San Domingo mahogany lumber is also mahogany lumber produced in the United States from logs or flitches imported from Cuba, Santo Domingo or from any of the other islands of the West Indies.

SEC. 5. *Maximum prices for other than Cuban and San Domingo mahogany lumber*—(a) *Application of maximum prices in this section.* The maximum prices in this section apply to mahogany lumber when sold on grade-rule-range widths and lengths, or widths and lengths substantially the same as grade-rule-range widths and lengths, or on specified average widths or specified average lengths which are substantially run-of-the-log.

Maximum prices in this section are also subject to the discounts and concessions provided for in section 7 of this regulation.

The maximum prices in this section do not apply to Cuban and San Domingo mahogany lumber. Maximum prices for Cuban and San Domingo mahogany lumber must be applied for under the provisions of section 6.

(b) *Basic maximum prices.* The basic maximum prices in Table 1 of this section are for 1,000 feet of mahogany lumber.

For carload lots, the prices in Table 1 are delivered prices up to and including an allowance for freight of 50 cents per hundredweight from the mill in the United States which produced the lumber or from the point of origin in the United States if it is imported lumber.

For less-than-carload lots, the prices in Table 1 of this section are prices f. o. b. the mill for mahogany lumber produced in the United States or they are prices f. o. b. point-of-origin in the United States for mahogany lumber imported into the United States.

The basic maximum prices are as follows:

SEC. 6. *Maximum prices for mahogany lumber not specifically priced in this regulation.* Mahogany lumber sold on special grades or specifications or with special services or other extras not specifically priced in this regulation is, nevertheless, subject to this regulation as a "specially priced item" or "special item," and a maximum price shall be applied for under either paragraph (a) or (b) below.

(a) *Sales by sellers within continental United States.* A seller located within continental United States, making a sale of mahogany lumber covered by this section for which that seller does not have a maximum price duly approved by the Office of Price Administration, shall apply for approval of a requested price for that mahogany lumber to the Lumber Branch of the Office of Price Administration, Washington 25, D. C. The application shall cover only one order or inquiry of mahogany lumber and a copy of that order or inquiry shall accompany the application.

If the seller had sales in March 1942 of the special item and of the most comparable item specifically priced in this regulation, he shall show on his application the price differential which he maintained between those two items in that month. If the seller did not have sales of both of such items in March 1942 he shall show on the application the price differential between these two items which existed in the first month preceding March 1942 in which he had sales of both of these items. If the seller did not have any sales of these two items in March 1942, or in any month preceding March 1942, the seller shall show on the application the price differential which he would have maintained between these two items in March 1942 if he had made sales of these items in that month.

The seller shall report his requested price in his application, together with an explanation of how he has determined such price. The maximum price, approved by the Office of Price Administration, shall be a price which is in appropriate relationship to the most comparable standard item, determined from an examination of the data submitted by the seller and from such other data as may be available to the Office of Price Administration. A maximum price duly approved by the Office of Price Administration for a seller for a special item shall apply to subsequent sales by that seller of the identical item of mahogany lumber unless the Office limits the applicability of the approved price in some manner.

If, within thirty (30) days of the receipt of the application by the Lumber Branch of the Office of Price Administration, the Office does not request additional information or disapprove the price requested by the seller on the application, that requested price may be deemed approved, but such approval shall be applicable only to the one specific order covered by the application and only to the quantity of the special item contained in that order on the date of the application.

Prior to approval by the Office of Price Administration of the maximum price for a special item of mahogany lumber covered by this section the seller shall not make any collections on account of the sale price of the special item. However, the seller may proceed with delivery of the special item using the requested price as a tentative maximum price, but all quotations, contracts and invoices must notify the buyer that the price is subject to approval by the Office of Price Administration within the thirty (30) days period described above.

(b) *Purchases of mahogany lumber to be imported into continental United States.* A buyer making a purchase of mahogany lumber, not specifically priced in this regulation, imported or to be imported into continental United States from a foreign country, shall apply to the Lumber Branch of the Office of Price Administration, Washington 25, D. C., for approval of a requested price for that mahogany lumber. The application shall cover only one offer to purchase mahogany lumber and a copy of that offer shall accompany the application.

The buyer shall report in the application the price which he desires to have approved, and an explanation of how that requested price was determined. The maximum price approved by the Office of Price Administration shall be a price which is in appropriate relationship to the price of the most comparable standard item determined from an examination of the data submitted by the purchaser and from such other data as may be available to the Office of Price Administration.

A maximum price duly approved by the Office of Price Administration under this paragraph shall apply only to subsequent purchases of the identical item of mahogany lumber by the same buyer from the same seller as those specifically covered by the price approval.

If, within 30 days of the receipt of the application by the Lumber Branch of the Office of Price Administration, that Office does not request additional information or disapprove the price requested by the buyer on the application, that requested price may be deemed approved, but such approval shall be applicable only to the one specific offer covered by the application and only to the quantity of the special item contained in that offer on the date of the application.

SEC. 7. *Discounts and concessions.* A seller of mahogany lumber must give the same trade, cash or service discounts or concessions to purchasers which he gave in March 1942 to purchasers of the same class.

A seller who did not sell mahogany lumber in March 1942 shall extend the same service discounts or concessions as his closest and most comparable competitor tendered in March 1942.

SEC. 8. *Transportation*—(a) *Carload lots*—(1) *Common or contract carrier, private truck.* On shipments of carload lots of mahogany lumber by common or contract carrier or by private truck owned or controlled by the seller, the seller may add to the basic maximum prices established in section 5 the actual lawful costs which he may incur in excess of 50 cents per hundredweight.

(2) *Trucking to railhead.* On shipments of carload lots of mahogany lumber, when a truck haul precedes rail shipment, as occurs when a mill located away from a railhead hauls lumber by truck to the railhead, no addition shall be made to the basic maximum prices for the truck haul.

(3) *Truck delivery after rail haul.* On shipments of carload lots of mahogany lumber, when truck delivery follows a rail haul, the seller may added to the basic maximum prices the actual costs which he may incur for that truck delivery.

(b) *Less-than-carload lots.* On shipments of less-than-carload lots of mahogany lumber the seller may add to the basic maximum prices any lawful costs which he may incur for delivery of the lumber.

SEC. 9. *Prohibited practices*—(a) *General.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the price is as much a violation of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying-in agreements, trade understandings and the like.

(b) *Specific practices.* The following are among the specific practices prohibited:

(1) Getting the effect of a higher price by changing credit practices from what they were in March 1942. This includes decreasing credit periods, or making greater charges for extension of credit. In all cases, if the sale is on cash terms, the maximum price must be affected by the same amount as the sale price would have been affected for similar cash terms on March 1, 1942.

(2) Refusing, without good reason, to ship mahogany lumber except in small quantities, or in specified or restricted lengths, or under other circumstances which bring the seller an extra return.

(3) Refusing, without good reason, to ship mahogany lumber in standard grades and in grade-rule-range widths and lengths.

(4) Grading as a special grade lumber which normally is graded by the seller as a standard grade; or wrongly grading or invoicing lumber in any other way.

(5) Unnecessarily routing lumber through a distribution yard.

(6) Quoting a gross price above the maximum price, even if accompanied by a discount, the effect of which is to bring the net price below the maximum.

(7) Selling graded mahogany lumber at an average price.

(8) Selling mahogany lumber priced on an ungraded basis.

(9) Making any of the additions to the basic maximum prices of the various items set forth in the tables unless the purchaser's order expressly requires the working, grade, condition, size or length for which the additions are permitted.

(c) *Purchasing commissions.* It is unlawful for any person to charge, receive or pay a commission for the service of procuring (including buying, selling, or locating lumber, or for any related service such as "expediting") if the commission plus the purchase price results in a total payment by the buyer of lumber which is higher than the maximum price of the lumber. For the purposes of this regulation, a commission is any compensation, however designated, which is paid for the procurement of lumber. This prohibition has no application to the case of a bona fide employer-employee relationship where the employee serves only one employer, insofar as lumber procurement is concerned, and where the compensation paid by the employer is a fixed salary and is not based directly or indirectly on the quantity, price or value of the lumber in connection with which the service is rendered.

(d) *Combination grades.* Graded mahogany lumber sold on combination (special inspection) grades for which no maximum prices have been established in this regulation (such as No. 1 Common and Better, Log Run—full run of the logs, excluding all grades below No. 2 Common, and Mill Run—full run of the log, No. 3 Common and Better) may not be sold at above the maximum prices for the lowest grade included in the combination grade. For example, the maximum price for Log run (No. 2 Common and Better) is that established for No. 2 Common for the species sold.

Of course, the different grades included can be quoted and invoiced separately on the individual footage and price for those grades.

(e) *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of shipment; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after shipment. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 10. *Invoices*—(a) *General.* All invoices must contain a sufficiently complete description of the mahogany lum-

ber to show whether the price is proper or not. Any working, specifications, quantity or extra which affects the maximum price must be referred to in the description. The amount added for these items need not be separately shown except in the special instances referred to below.

(b) *Transportation charges.* In delivered sales the invoice must contain the following information:

(1) Point of origin of shipment.

(2) Destination.

(3) The rail or truck rate if the shipment moves at a rate above 50 cents per hundredweight. If the shipment is by private truck, the invoice must show the truck charges.

(4) The invoice must state whether the shipment is a direct-mill shipment or not.

(c) *Delivery and custom kiln-drying and mill charges.* Any separate charge which the seller is permitted to make under this regulation for the following items must be shown separately on the invoice:

(1) *Truck delivery after rail haul.*

(2) *Custom kiln-drying or milling.* The invoice of the custom kiln-drying or milling establishment must be attacked to the lumber invoice of the seller.

SEC. 11. *Records and reports*—(a) *Records.* For the duration of the Emergency Price Control Act of 1942, as amended, all sellers of mahogany lumber must keep records which will show complete description of the item of lumber sold, the name and address of the buyer, the date of the sale, and the sales price. The buyer must keep similar records including the name and address of the seller. These records must be kept for any month in which the seller or buyer sold or bought $500.00 worth or more of mahogany lumber. They must keep such records for inspection by the Office of Price Administration and they must keep such further records as the Office of Price Administration may later require.

(b) *Reports.* Any reports that the Office of Price Administration may require must be submitted, subject to approval of the Budget Bureau in accordance with the Federal Reports Act of 1942.

SEC. 12. *Enforcement and licensing*—(a) *Criminal penalties.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for triple damages and proceedings for revocation of licenses provided for in the Emergency Price Control Act of 1942, as amended.

(b) *Licensing.* The provisions of Licensing Order No. 1 licensing all persons who make sales under price control are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, within the period of suspension, make any sale for which his license may be suspended.

SEC. 13. *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

SEC. 14. *Export sales.* The maximum prices of export sales of mahogany lumber are governed by the Second Revised Maximum Export Price Regulation.

This regulation shall become effective June 10, 1946.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 4th day of June 1946.

Administrator.

PART 1349 — ELECTRICAL GENERATION, TRANSMISSION, CONVERSION AND DISTRIBUTION APPARATUS

[MPR 82, Amdt. 9]

WIRE AND CABLE

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 82 is amended in the following respects:

The following paragraph (g) is added to section 16:

(g) *Procedure where OPA establishes industry-wide increases in the price of electrolytic copper.* (1) This paragraph applies only to copper, copper-alloy, or copper-clad wire and cable.

(2) The maximum net prices for wire and cable, excepting armored cable, cord sets, battery cables, wiring harnesses, and ignition sets, may be adjusted by the manufacturer, after June 3, 1946, the effective date of an amendment increasing the maximum prices of electrolytic copper, by an amount computed pursuant to the following provisions:

(i) Where the price of the following wire and cable is expressed in terms of a certain amount (dollars-and-cents) per unit of weight, the maximum net price of that wire and cable may be adjusted in accordance with this table:

Increase per pound in the net price for finished product for each one cent increase per pound in price of electrolytic copper

Wire and cable:	Cents
Magnet wire	1.10
Weather-proof wire, solid, or stranded	.85
Copper wire rod, black or cleaned	1.05
Bare or tinned copper wire, solid or stranded, sold to insulators for further fabrication	1.05
Bare or tinned copper wire, solid or stranded, sold to others than insulators	1.10

(ii) Where the price of wire and cable is expressed in terms of a certain amount (dollars-and-cents) per unit of length, the maximum net price of that wire and cable may be adjusted in this manner:

Single conductors. For each one cent per pound increase in the price of electrolytic copper, the maximum net price per thousand feet of single conductor wire or cable may be increased by an amount equal to the cross-sectional area of the conductor (expressed in circular mils) multiplied by $.0000340.

Multiple conductors. For each one cent per pound increase in the price of electrolytic copper, the maximum net price per thousand feet of wire or cable having more than one conductor may be increased by an amount equal to the sum of the cross-sectional areas of the conductors (expressed in circular mils) multiplied by $.0000348.

(3) The foregoing increases are to be adjusted proportionately where the increase in the price of copper is more or less than one cent per pound, as illustrated by these examples:

Example 1. Assume the price of electrolytic copper to be increased by 1.5 cents per pound instead of one cent per pound. The increase per pound in the net price of finished magnet wire would therefore be 50 percent higher than 1.10 cents; in other words, 1.65 cents.

Example 2. With the same assumption made in Example 1, the maximum net price of single conductor wire and cable for each thousand feet would be increased by an amount equal to 150% of the product of the cross-sectional area of the conductor (expressed in circular mils) and $.0000340 cents.

(4) Resellers may increase their maximum net prices for wire and cable by the dollars-and-cents amount by which their net invoiced costs have been increased as a result of the foregoing provisions.

(5) The increases obtained as a result of the application of the foregoing provisions shall be separately stated on the invoice. However, sellers may round out these increases to the nearest ten cents.

This amendment shall become effective June 3, 1946.

Issued this 3d day of June 1946.

Administrator.

PART 1395—NON-FERROUS FOUNDRY PRODUCTS

[RMPR 125, Amdt. 12]

NON-FERROUS CASTINGS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation No. 125 is amended in the following respects:

1. A new § 1395.4b is added to read as follows:

§ 1395.4b *Permitted increases in certain maximum prices.* Maximum prices for copper and copper-base castings established in accordance with § 1395.3 and paragraph (d) of § 1395.4 of this regulation and maximum prices established in accordance with paragraphs (a), (b) and (c) of § 1395.4 of this regulation prior to June 3, 1946, are increased in accordance with the following provisions of this section.

(a) *Amount of increase.* The increase shall be in the amount stated below. Specifications are indicated by OPA group and alloy numbers as used in § 1309.165 of Maximum Price Regulation No. 202. If the specification of the casting to be priced is not listed, the price of such casting is to be increased in the amount indicated for a casting of the most similar specifications listed.

	Increase in cents per pound
97% or more copper	2½
85-5-5-5 group (OPA Nos. 100–132, inclusive)	2½
88 10-2 group (OPA Nos. 193–257, inclusive)	2¼
80-10-10 group (OPA Nos. 295–326, inclusive)	2½
Yellow brass group (OPA Nos. 400–409, inclusive)	2½
Nickel alloys group (OPA Nos. 410–414, inclusive)	1½
Aluminum bronze group (OPA No. 415)	2
Manganese bronze group (OPA Nos. 420–424, inclusive)	1
Silicon bronze group (OPA No. 500)	2

(b) *Specification is the test.* In figuring the increase under paragraph (a), the test is the metal specification for the casting to be priced. The test is not the individual metals (alloy, virgin or scrap) used in making up the specification. The test is the specification of metal at the time of the pricing involved and not at the time the casting was made for the first time or at any other time in the past.

(c) *Applicability of increases to adjusted prices.* The increase authorized by this section may be added to any price which has been increased by an adjustment order issued under § 1395.12 of this regulation.

This amendment shall become effective June 3, 1946.

Issued this 3d day of June 1946.

Administrator.

Supplementary Regulation 14G is amended by adding thereto a new section to read as follows:

SEC. 12. *Maximum prices for producers' sales of general line cans and resellers' sales of general line cans, packers' tin cans and condensed milk cans.* The increases in maximum prices set forth herein may not be added to maximum prices established by individual adjustment orders, but any person who heretofore has received such adjustment may sell, at his option, at the price set forth in the individual order or at the maximum price permitted by this section.

(a) *Producers' sales of general line cans.* Regardless of the provisions of the General Maximum Price Regulation, any producer may sell and deliver, and any person may buy and receive, general line cans at a price not to exceed the applicable maximum price determined in accordance with the General Maximum Price Regulation or Revised Order 414, under § 1499.3 (b) plus 9% of such maximum price.

(b) *Resellers' sales of general line cans, packers' tin cans, and condensed milk cans.* Regardless of the provisions of the General Maximum Price Regulation, any reseller may sell and deliver, and any person may buy and receive general line cans, packers' tin cans, and condensed milk cans at prices not to exceed those set forth below:

(1) In the case of general line cans, the applicable maximum price determined in accordance with the General Maximum Price Regulation, plus the dollars and cents amount of the increase in maximum prices granted producers by paragraph (a) above.

FEDERAL POWER COMMISSION.

[Docket No. G-732]

MONTANA-DAKOTA UTILITIES CO.

NOTICE OF APPLICATION

JUNE 3, 1946.

Notice is hereby given that on May 27, 1946, an application was filed with the Federal Power Commission by Montana-Dakota Utilities Co. ("Applicant"), a Delaware corporation with its principal place of business at Minneapolis, Minnesota, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the construction and operation of certain facilities in Valley County, Montana, hereinafter more particularly described, which, if constructed, will extend and enlarge Applicant's existing interstate natural-gas pipeline system located in the States of Montana, North Dakota and South Dakota. Such system extends from points on the north in the vicinity of Malta, Montana, and Williston, North Dakota, to Rapid City, South Dakota, on the south; and from Miles City, Montana, on the west to Bismarck, North Dakota, on the east. Natural gas originating in the Bowdoin Field in Phillips and Valley Counties, Montana, and in the Baker-Glendive Field in Fallon and Wibaux Counties, Montana, and Bowman County, North Dakota, is transported by Applicant through the interconnected pipe lines of such system for distribution in numerous communities in Montana, North Dakota and South Dakota.

The facilities which Applicant seeks authorization to construct and operate are described as follows:

A 10¾-inch pipeline, 28.5 miles in length, extending from a point in the southeast quarter of Section 31, Township 30 North, Range 38 East, to a point in the southeast quarter of Section 28, Township 27 North, Range 41 East, all in Valley County, Montana.

The application recites that the proposed pipeline will permit transmission of additional gas through other pipelines already in place and that no change in the system is contemplated.

The application further recites that by means of such additional pipeline Applicant proposes (1) to deliver additional natural gas for distribution in communities now served by it, (2) to obtain additional gas from Bowdoin Field in meeting peaks upon the system, thereby offsetting the effect of declining rock pressure in the Baker-Glendive Field, and (3) to transport additional quantities of gas from the Bowdoin Field during summer and off-peak periods for repressuring and storing in the Baker-Glendive Field.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Part 67 of the provisional rules of practice and regulations under the Natural Gas Act, and if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Montana-Dakota Utilities Co. should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen (15) days from the date of this publication, a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

Secretary.

(h) Supplementary Order 154[4] and Revised Supplementary Order 154.[5]

2. Section 5 is added to read as follows:

SEC. 5. *Recalculation of net surcharges—(a) How to recalculate your net surcharge.* If you had a net surcharge on June 4, 1946, and if you had, prior to June 4, 1946, delivered items in any category at ceiling prices properly adjusted under SO 149, SO 154 or RSO 154 you may deduct from that net surcharge an amount computed as follows:

Step 1: Find the amount of your net surcharge which you have not yet made up on June 3, 1946.

Step 2: Find all units delivered between April 1, 1946 and June 3, 1946 at ceiling prices properly adjusted under SO 149, SO 154 or RSO 154.

Step 3: Find the difference on each unit between the original ceiling price and the ceiling price as adjusted.

Step 4: Add together all amounts found in Step 3.

Step 5: Deduct from the net surcharge existing on June 4, 1946 the amount found in Step 4.

NOTE: If the amount found in Step 4 is equal to or greater than the net surcharge found in Step 1, you are deemed to have completed your makeup operation on June 3, 1946 and may resume normal operation on June 4, 1946. However, if the amount found in Step 4 is greater than the net surcharge found in Step 1, you may not carry over the difference as a credit into your normal operation.

(b) *Filing a report of the recalculation.* If you have recalculated a net surcharge as described in (a) above you must file with your OPA District Office on or before June 15, 1946 two signed copies of a statement showing all the calculations found in steps 1 through 5.

This amendment shall become effective June 4, 1946.

Coke in New York Region

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1340.259 (a) (1) and Rule 4 under § 1340.254 of Revised Maximum Price Regulation No. 122, *It is ordered:*

1. Paragraphs (d) (1) and (d) (2) are amended to read as follows:

(d) *Sales of coke (all kinds) by new coke dealers and their resellers.* (1) *Dealers receiving at and selling from their own yard.* A dealer, who has not established a maximum price for any coke under Revised Maximum Price Regulation No. 122, and who receives coke in his yard and sells it from his yard, may calculate his maximum price for sales of coke by taking the sum of the following:

First. The per net ton cost of such coke to the dealer f. o. b. supplier's shipping point.

Second. The actual transportation cost from supplier's shipping point to the dealer's yard, dock, or other terminal facility when such transportation is by common or contract carrier; or the actual cost of such transportation, not to exceed the truck common carrier rate for an identical shipment, when the dealer transports the coke to his yard, dock, or other terminal facility, in his own trucks.

Third. A margin not to exceed the following in the applicable situation:

(i) For delivered sales by the dealer out of his own yard, $3.85 per net ton (for cash or credit sales). To this may be added the service charges, if any, applicable to sales of the fuel replaced by the coke, considering the point of replacement as the consumer's premises.

(ii) For yard sales, $1.35 per net ton (for cash or credit sales). Where yard sales are to other dealers for resale, $1.25 per net ton and the invoice, sales slip, or receipt given to such other dealers shall carry the notation, "OPA Permitted Markup on Resale—$2.60 per net ton".

(2) *Resellers of dealers who price under paragraph (d) (1).* Any dealer purchasing coke at the yard, from another dealer who has determined his yard maximum price under paragraph (d) (1), may add no more than $2.60 per net ton (for cash or credit sales), exclusive of permissible service charges, in determining his own maximum delivered price for such coke. The only service charges that may be added are the charges, if any, applicable to sales of the fuel replaced by the coke, considering the point of replacement as the consumer's premises.

2. Paragraphs (e) (1) and (e) (2) are amended to read as follows:

(e) *Sales of beehive oven coke; all dealers—(1) Dealers receiving at and selling from their own yard.* Any dealer in beehive oven coke, whether fresh or reclaimed, who during December 1941 did not make like sales of such coke (taking into account class of purchaser, method of delivery, i. e., from his yard or from supplier's facilities, etc.), and who receives beehive oven coke in his yard and sells it from his yard, may determine his maximum price for sales of such fuel by taking the sum of the following:

First. The per net ton cost of such coke to the dealer f. o. b. supplier's shipping point.

Second. The actual transportation cost from supplier's shipping point to the dealer's yard, dock, or other terminal facility when such transportation is by common or contract carrier; or the actual cost of such transportation, not to exceed the truck common carrier rate for an identical shipment, when the dealer transports the coke to his yard, dock, or other terminal, in his own trucks.

Third. Either subparagraph (i) or (ii) below:

(i) A margin not to exceed the following: (a) for delivered sales by the dealer out of his own yard, $3.85 per net ton (for cash or credit sales). To this may be added the service charges, if any, applicable to sales of the fuel replaced by the coke, considering the point of replacement as the consumer's premises. (b) for yard sales, $1.36 per net ton (for cash or credit sales). Where yard sales are to other dealers for resale, $1.25 per net tone and the invoice sales slip, or receipt given to such other dealers shall carry the notation, "OPA Permitted Mark-up on Resale—$2.60 per net ton"; or

(ii) The dealer's margin over delivered cost in effect during December 1941 on sales of other coke most nearly like the sales now made (taking into account class of purchaser, method and terms of delivery, including discounts and service charges, if any).

Where such other coke sold during December 1941 was purchased f. o. b. truck and delivered directly to the purchaser, the "margin over delivered cost" shall be the difference between the highest price charged by the dealer during December 1941 for like sales of such coke, and the highest price paid by the dealer to the supplier for such fuel, f. o. b. truck, during December 1941, or the last calendar month of 1941 in which the dealer took deliveries of such fuel from a supplier.

Where such other coke sold by the dealer during December 1941 was coke transported to his yard and delivered out of his yard, "margin over delivered cost" shall be the difference between the highest price charged by the dealer during December 1941, for like sales of by-product or retort gas coke and the sum of (1) the highest price paid by the dealer to the supplier for such fuel during December 1941, or the last calendar month of 1941 in which the dealer took deliveries of such fuel from the supplier, and (2) the actual transportation cost as defined in Item "Second," (a) Where sales are at the yard to other dealers for resale, the invoice, sales slip, or receipt given to such other dealers shall carry the notation, "OPA permitted markup on resale—$2.60 per net ton."

(2) *Resellers of dealers who price under Paragraph (e) (1).* Any dealer purchasing coke at the yard, from another dealer who has determined his yard maximum price under paragraph (e) (1), may add no more than $2.60 per net ton (for cash or credit sales), exclusive of permissible service charges, in determining his own maximum delivered price for such coke. The only service charges that may be added are the charges, if any, applicable to sales of the fuel replaced by the coke, considering the point of replacement as the consumer's premises.

This Amendment No. 7 to Order No. G-54 is effective as of March 30, 1946.

SEC. II. *Geographical applicability.* This Order G-24 applies to re-siding installed on residences located in the Clarksburg trading area, which includes the following counties: Harrison, Lewis, Upshur, Barbour, Taylor, and Doddridge in the State of West Virginia.

SEC. III. *Relationship of this order to Revised Maximum Price Regulation No. 251.* (a) This order supersedes sections 6, 7, and 8 of Revised Maximum Price Regulation No. 251 with respect to sales covered by this order. All other sections of Revised Maximum Price Regulation No. 251, together with all amendments thereto that have been or may be issued, except to the extent they are inconsistent with the provisions of this order, shall apply to sales covered by this order.

(b) On and after the effective date of this order, regardless of any contract or other obligations, no person shall sell or offer to sell re-siding materials on an installed basis covered by this order at prices higher than the maximum prices established by this order: *Provided*, That installations made not more than thirty days after the effective date of this order on bona fide contracts executed prior to the effective date of this order shall not be considered to be violations of this order.

SEC. IV. *Maximum prices for sales of materials on an installed basis.* The maximum prices for sales covered by this order shall be as follows:

INSTALLED RE-SIDING PRICES

(a) Asbestos-cement Siding, Standard Surface Hardness, White or Buff, 12 inches x 24 inches or 12 inches x 27 inches: $24.00 per square.

SEC. V. *Guaranteed or lump sum prices.* (a) A seller may offer to or make sales covered by this order on the basis of a lump sum price but such lump sum price must not be higher than the maximum price calculated in accordance with the pricing methods and requirements of this order.

(b) *Recomputation.* Within 30 days from the completion of any service covered by this order for which a price was charged on the basis described in paragraph (1) above, the seller shall check his price by reviewing the categories and other factors used in his estimate on the basis of the actual services rendered and material furnished and shall determine whether the price quoted, charged or collected is higher than the maximum price computed under this order. In the event that the price quoted, charged or collected is higher than the maximum price computed under the terms of this order the seller shall reduce his price to the proper maximum price and shall refund to the buyer within such period of 30 days after the completion of the service any excess which may have been collected or, if no excess has been collected, then, by written notice to the buyer, shall cancel the indebtedness of the buyer for any such excess, or both, as the case may require. SECURITIES AND EXCHANGE COMMISSION.

[File Nos. 59-54, 54-141]

KEWANEE PUBLIC SERVICE CO. AND NORTH AMERICAN LIGHT & POWER CO.

NOTICE OF FILING OF AMENDMENT TO PLAN AND ORDER RECONVENING HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 29th day of May 1946.

In the matters of Kewanee Public Service Company and North American Light & Power Company, respondents, File No. 59-54; Kewanee Public Service Company and North American Light & Power Company, applicants, File No. 54-141.

The Commission having heretofore ordered that a hearing be held on a plan filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 (the "act") by Kewanee Public Service Company ("Kewanee") and its parent, North American Light & Power Company ("Light & Power"), a registered holding company, and a hearing having been held on said plan, which provided for the issuance of new common stock in exchange for presently outstanding preferred and common stock, but proposed no allocation of such new common stock, and such hearing having been adjourned on May 2, 1946 to permit the applicants to file an amendment to said plan for the purpose of providing for the allocation of such new common stock among Kewanee's preferred and common stockholders;

Notice is hereby given that Kewanee and Light & Power have jointly filed an amendment to the plan previously jointly filed pursuant to section 11 (e) of the act.

All interested persons are referred to said amendment to said plan (which plan prior to said amendment has heretofore been summarized by the Commission by order dated April 11, 1946, Holding Company Act Release No. 6545) which amendment is on file in the offices of this Commission, for a statement of transactions therein proposed, which may be summarized as follows:

It is proposed to amend the charter of Kewanee to provide for but one class of stock having a total stated value of $650,000, divided into 50,000 shares of common stock, without par value, having preemptive rights, and to distribute such common stock in the following proportions:

1. There would be issued to each holder of preferred stock (7%, $50 par) of Kewanee, 4 shares of the new common stock in exchange for each share of preferred stock in full satisfaction of the interest of each such preferred stockholder, including accrued and unpaid dividends aggregating $47.25 per share as of June 30, 1946. Under this proposal the holders of the presently outstanding 5,504 shares of publicly held preferred stock would receive 22,016 shares of new common stock, or approximately 44% of the 50,000 shares of new common stock to be issued.

2. There would be issued to Light & Power 27,984 shares or approximately 56% of the new common stock in exchange for its present security holdings in Kewanee, consisting of (a) 1,496 shares of preferred stock; (b) $210,000 of promissory notes of Kewanee, plus interest amounting to $26,950 as of June 30, 1946; and (c) all of the presently outstanding common stock of Kewanee, aggregating 10,000 shares. Light & Power represents that the cost of the securities it holds in Kewanee was $1,957,926.90, including the accrued interest on said notes to June 30, 1946.

The applicants request that if the Commission approves the plan, application be made to a court as provided by section 11 (e) of the act to enforce the plan.

The Commission being required by the provisions of section 11 (e) of the act, before approving any plan submitted thereunder, to find after notice and opportunity for hearing that such plan as submitted and amended is necessary to effectuate the provisions of subsection (b) of section 11, and is fair and equitable to the persons affected by such plan;

It is ordered, That the hearing upon said plan, as amended, filed pursuant to section 11 (e) of the act, is hereby reconvened, and shall be held at 10:00 a. m., e. d. s. t., on the 24th day of June 1946, at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such day, the hearing room clerk in Room 318 will advise as to the room in which such hearing shall be held.

It is further ordered, That any interested person who desires to file objections to said plan as amended may do so on or before June 20, 1946. Such objections shall also be considered at such hearing. Any other person desiring to be heard or otherwise wishing to participate in these proceedings shall file with the Secretary of the Commission on or before June 20, 1946, his request or application therefor as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all the powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That without limiting the scope of the issues presented by said plan, as amended, particular attention will be directed to the following matters and questions:

1. Whether the proposed plan as submitted and amended is necessary to effectuate the provisions of section 11 (b) of the act;

2. Whether the proposed plan as submitted and amended is fair and equitable to the persons affected thereby;

3. Whether the transactions proposed in said plan as submitted and amended comply with all the requirements of the applicable provisions of the act and the rules promulgated thereunder; and

4. Whether, and to what extent, the proposed plan as submitted and amended should be modified or terms and conditions imposed to ensure adquate protection of the public interest and the interests of investors and consumers and compliance with all applicable provisions of the act.

It is further ordered, That the Secretary of this Commission shall serve notice of the aforesaid reconvened hearing by mailing a copy of this notice and order by registered mail to Kewanee Public Service Company; North American Light & Power Company; the City of Kewanee, Illinois; and the Illinois Commerce Commission. Notice shall be given to all other persons by a general release of the Commission distributed to the press and mailed to the mailing list for releases under the act, and by publication of this order in the FEDERAL REGISTER.

It is further ordered, That Kewanee Public Service Company shall give notice of the aforesaid reconvened hearing to each of the holders of its capital stock (in so far as the identity of such holders is known or available to Kewanee) by mailing a copy of this notice and order to each of such holders at least fifteen days prior to the date of hearing set herein.

The amount of $650,000 so advanced, with interest at 3% per annum, will be included in the expenses of operation of the Municipal Gas Works and will be repaid to Gas Company and, in turn, to U. G. I. by charging the same to the cost of gas. Gas Company estimates that the revenue from additional sales, made possible by increasing the plant capacity, will be sufficient to allow the recovery of the amount advanced plus interest within five years without increasing the present gas rates.

4 X 5 COMMERCIAL CAMERAS

The following direction is issued pursuant to Priorities Reg. 28:

Applications for CC ratings for 4 x 5 commercial cameras and other press type cameras from persons qualified for ratings under paragraph (f) of Priorities Regulation 28 have reached such a volume that granting such ratings would preempt an undue proportion of the total production of these types of cameras. Consequently, the Civilian Production Administration will not grant a CC rating for these types of cameras except in cases of emergency under the special provisions of paragraph (h) of the regulation, or for export under paragraph (i).

USE OF HH RATINGS FOR RADIATION FOR USE IN THE VETERANS' EMERGENCY HOUSING PROGRAM

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of building materials and building supplies for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

(a) *Purpose of this direction.* Priorities Regulation 33 provides for the assignment to builders of preference ratings to secure materials, listed on Schedule A of that regulation, which are required for use in the Veterans' Emergency Housing Program. Among these items is radiation. This direction explains under what circumstances orders bearing HH ratings for radiation must be accepted and also what the restrictions are in connection with the sale of radiation by producers, distributors and jobbers.

(b) *Definitions.* For the purposes of this direction:

(1) "Producer" means a person owning or operating facilities in which radiation is manufactured.

(2) "Distributor" or "jobber" means a person who buys radiation from a producer for resale. If a producer owns and operates factory branch sales offices other than his central factory sales office, such offices shall be considered to be distributors.

(3) "Radiation" means, unless otherwise specified, cast iron radiation (tubular and convector types) and extended surface convector radiation (consisting of a heating element of tube and fin construction). Any accompanying metal enclosures and grilles are included.

(c) *Prohibition on extension of HH ratings by distributors.* A distributor or jobber who receives an HH rated order for radiation shall not extend the rating.

(d) *Use of HH rating by heating contractor and dealer.* A heating contractor, heating dealer or other person who has been authorized to use an HH rating in accordance with paragraph (d) of Priorities Regulation 33, may use the rating to get radiation, subject to the provisions of that regulation.

(e) *Handling of HH rated orders by producers.* A producer who sells radiation only to distributors, jobbers or manufacturers of pre-fabricated housing need not accept an HH rated order for radiation. This is the general rule. But a producer who sells any portion of his production to persons other than distributors, jobbers or manufacturers of pre-fabricated housing must sell that portion according to the following rule: After February 1, 1946, for cast iron radiation and after June 9, 1946, for extended surface convector radiation, at least 70% of all radiation sold or delivered by the producer to persons other than distributors, jobbers or manufacturers of pre-fabricated housing must be sold or delivered on HH rated orders.

(f) *Set-asides by jobbers or distributors.* (1) An adequate reserve stock of radiation must be maintained by distributors and jobbers to fill orders bearing HH ratings. Consequently, a distributor or jobber must set aside and reserve for a period of twenty-one days, to fill orders bearing HH ratings, not less than 70% of the radiation in each shipment received by him from the producer. Direct shipments from a producer to a customer of a distributor or jobber for the account of the latter shall be considered as shipments to, and deliveries by, the distributor or jobber. Until the end of each such twenty-one day period, referred to above, he must accept all HH rated orders up to the reserved quantity regardless of whether such orders call for delivery within the twenty-one day period, but he need not accept HH rated orders for radiation in excess of the reserved quantity.

(2) Any radiation which the distributor or jobber is not required to set aside, and any radiation in the set-aside for which HH ratings are not received in the set-aside period, may be disposed of without regard to HH ratings. Orders rated AAA, MM, or CC must be filled from this balance in that order of preference in accordance with Priorities Regulation 1. A distributor or jobber may not refuse to accept an HH rated order on the ground that he has no radiation in stock, but he must accept the order for delivery out of the 70% set-aside of a later shipment from the producer.

(g) *Calculation basis.* Calculations of quantities of radiation required by this direction shall ordinarily be on the basis of square feet of heating surface (as rated by the producer). However, where a producer delivers, or a distributor or jobber receives, extended surface convector heating elements without enclosures, the calculations as to these elements shall be on the basis of the producer's billing price to distributors or jobbers.

(h) *This direction not applicable to AAA ratings.* Nothing in this direction affects AAA rated orders.

Issued this 5th day of June 1946.

WATER-WELL DRILLING EQUIPMENT

The following direction is issued pursuant to Priorities Reg. 28:

Applications for CC ratings for water-well drilling equipment, rotary and percussion type, from persons qualified for ratings under paragraph (f) of Priorities Regulation 28 have reached such a volume that granting such ratings would preempt an undue proportion of the total production of this equipment. Consequently, the Civilian Production Administration will not grant a CC rating for this equipment except in cases of emergency under the special provisions of paragraph (h) of the regulation, or for export under paragraph (i).

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 28, Schedule I, as Amended June 5, 1946]

CRITICAL PRODUCTS

(a) *Introduction.* The table in this Schedule lists certain of the critical products which the Civilian Production Administration has determined to be in such tight supply that they are serious threats to the national economy. (This Schedule supersedes former Directions 1 through 5 and 7 through 12 to PR-28 covering critical products.) When effective assistance of other kinds is not practicable, the CPA may assign CC preference ratings under paragraph (e) of Priorities Regulation 28 for material which is needed to sustain or increase the production of these products. In addition to the rules explained in paragraph (b) below, the general rules in paragraphs (c) and (d) of Priorities Regulation 28 governing the application for and assignment of CC ratings are also applicable. Especially important is paragraph (d) (1) of Priorities Regulation 28, requiring a determination that the use of substitute and less scarce materials is not practicable, that reasonable efforts have been made to get the required item without a rating, and that a rating is required to obtain the item by the latest date and in the minimum quantity practicable after taking into consideration material in inventory and available without a rating.

(b) *Explanation of table.*

Column I—Critical products. Column I lists the critical products for which CC ratings may be granted to sustain or increase production. When "specialized machinery" for another critical product is listed in Column I, it includes only machinery and equipment designed solely for the production of that critical product. It does not include general types of equipment suitable for other use even though a particular piece of equipment is designed and built expressly for a producer of the critical product.

Column II—Persons eligible. Column II states the persons who may apply for CC ratings. Where Column VI indicates that CC ratings may be assigned for construction, the builder or contractor may apply instead of the person listed.

Column III—Production materials. (1) If the word "yes" appears in Column III, the CPA may assign CC ratings to the person named in Column II to get production materials needed to make the item listed in Column I regardless of the applicant's minimum economic rate of operation. Where the applicant regularly sells materials as maintenance, repair or operating supplies for the item he makes, CC ratings may also be assigned to him for such supplies or for materials needed to make them. Applications for CC ratings for textile fabrics or yarns should be made under Priorities Regulation 28A, and CC ratings may be assigned under paragraph (d) of that Regulation in accordance with subpargaraph (d) (5) (i).

(2) If the word "no" appears in Column III, CC ratings will be assigned for production materials only as provided in Priorities Regulation 28. The same rule applies to any production materials expressly excluded from Column III.

Column IV—Capital equipment. (1) If the word "yes" appears in Column IV, the CPA may assign CC ratings to the person named in Column II to get capital equipment which either (i) will result in a substantial increase in production of the item listed in Column I, or (ii) is needed to replace present operating equipment which is in danger of imminent breakdown.

(2) Where the word "no" appears in Column IV, CC ratings will be assigned for capital equipment only as provided in Priorities Regulation 28. The same rule applies to any capital equipment expressly excluded from Column IV.

Column V—MRO. (1) If the word "yes" appears in Column V, the CPA may assign CC ratings to the person named in Column II to get maintenance, repair and operating supplies (MRO) which he needs to use in making the item listed in Column I.

(2) If the word "no" appears in Column V, CC ratings will be assigned for MRO only as provided in Priorities Regulation 28.

Column VI—Construction. (1) If the word "yes" appears in Column VI, the CPA may assign CC ratings to the person named in Column II, or to his builder, for material needed for incorporation in new plants or in expanded or modernized old ones where increased production of the item listed in Column I will result, or where the construction is necessary to prevent a loss of production.

(2) If the word "no" appears in Column VI, CC ratings will be assigned for construction materials only as provided in Priorities Regulation 28.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 33, Direction 1A, as Amended June 5, 1946]

SOFTWOOD PLYWOOD

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of softwood plywood for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

(a) *What this direction does.* Priorities Regulation 33 and Direction 8 to Priorities Regulation 33 provide for the assignment to builders and prefabricators of priorities assistance to secure materials listed on Schedule A of PR 33 and List I of Direction 8 to PR 33 which are required for use in the Veterans' Housing Program. Among these items is softwood plywood. This direction provides that the manufacturers of softwood plywood shall produce a percentage of their total production in construction and door panel grades and reserve a percentage of those grades for certified orders from prefabricators, distributors, cabinet manufacturers, stock door manufacturers and housing contractors. It provides that the softwood plywood reserved and the product into which it is incorporated, may only be sold on certified orders or HH rated orders.

This direction does not apply to plywood not in construction and door panel grades and thicknesses, such plywood must be sold and delivered in accordance with the rules in Priorities Regulation 1.

(b) *Definitions for the purpose of this direction.* (1) "Softwood plywood" means laminated veneers of any species of softwood united with a bonding agent to produce board.

(2) "Construction plywood" means plywood of one or more softwood panels, 12 feet and shorter and without external sealer treatment of the following grades: Interior (moisture resistant) type as follows: ¼" sanded or 5/16" unsanded wallboard; 3/8" sanded or 7/16" unsanded wallboard; ¼" sanded or 5/16" unsanded sound one side plypanel; 3/8" sanded or 7/16" unsanded sound one side plypanel; 5/16" sheathing; 3/8" sheathing; ½" sheathing and 5/8" sheathing; and Exterior type ¼" sanded or 5/16" unsanded sound one side plypanel and 3/8" sanded or 7/16" unsanded sound one side plypanel.

(3) "Door plywood" means softwood plywood, Interior (moisture resistant) and Exterior type without external sealer treatment of ¼" sound two sides door plypanel.

(4) "Plywood manufacturer" means a person engaged in the manufacture of softwood plywood.

(5) "Prefabricator" means a person engaged in the manufacture of prefabricated houses, panels or sections who has been granted priorities assistance on Form CPA-4415 to build prefabricated houses, panels or sections.

(6) "Housing contractor" means a builder (applicant) who has been directly assigned an HH rating by CPA, FHA or NHA. It also includes a general contractor who has been directly authorized by such a builder to use the HH rating for the whole job. It does not include a subcontractor authorized to use the HH rating for a part of the job.

(7) "Distributor" means a person who buys and stocks softwood plywood for resale as plywood at wholesale or retail.

(8) "Cabinet manufacturer" means a person who produces kitchen cabinets for built-in installation in housing.

(9) "Stock door manufacturer" means a person who consumes softwood plywood in the manufacture of standard house doors.

(10) "Square footage" means measurement on a 3/8" rough basis.

(11) "Certified order" means any order for the delivery of softwood plywood bearing the certificate prescribed in paragraph (j).

(12) "Person" means any individual, partnership, association, business trust corporation, governmental corporation or agency or any organized group of persons whether incorporated or not.

Plywood Manufacturers

(c) *Plywood manufacturers reserve production.* The following conditions will govern the amount of construction plywood and door plywood, plywood manufacturers shall produce and reserve for certified orders:

(1) Each softwood plywood manufacturer shall reserve in his total over-all production of softwood plywood in square footage for the month of April, 1946, and for each calendar month thereafter, time and supplies sufficient to produce and deliver within such month; (i) at least 45% of his expected monthly production of softwood plywood in the form of construction plywood of which not more than 20% of the construction plywood may be in exterior type; (ii) at least 5% of his expected monthly production of softwood plywood in the form of door plywood, for delivery on certified orders.

The CPA may from time to time change such percentages by amendments published in the Federal Register prior to the first day of any month.

(2) Every plywood manufacturer must hold 60% of his production of construction plywood in square footage in any month for delivery on certified orders. A plywood manufacturer must accept and ship such certified orders in preference to all other orders (except AAA) to the extent that such orders do not require more than 60% of his production of construction plywood for that month. When a plywood manufacturer has accepted certified orders for construction plywood for this amount, he must not accept additional certified orders for construction plywood produced in that month. Any portion of the plywood manufacturer's reserve which is not required to fill certified orders received in the month it was produced, may be sold only on uncertified and unrated (except AAA) orders.

(3) A plywood manufacturer must reserve 40% of his total production of construction plywood in square footage beginning with the month of April, 1946, and for each calendar month thereafter for delivery only on uncertified and unrated orders from distributors.

(4) A plywood manufacturer must hold his reserve production of door plywood for certified orders from door manufacturers or distributors and must accept and ship such certified orders in preference to all other orders (except orders rated AAA) to the extent that such certified orders do not require more than the monthly reserve production of door plywood. Any quantities of door plywood manufactured which, by the 20th of any month in which production is reserved, are not required to fill certified orders received before that time, may be delivered by the plywood manufacturer as he may desire subject to all applicable orders and regulations of the CPA.

Prefabricators

(d) The following provisions tell how prefabricators may place with a plywood manufacturer or distributor certified orders for construction plywood:

(1) A prefabricator may place certified orders with a plywood manufacturer or a distributor for construction plywood in the amount for which he has received priorities assistance on Form CPA-4415. A prefabricator must not specify delivery dates (at his plant or warehouse) on certified orders more than 30 days before the time the construction plywood is needed for incorporation into the prefabricated houses, panels, or sections. Furthermore, a prefabricator must not place certified orders for construction plywood in which is specified a delivery date later than during the third calendar month after the time when the purchase order is placed.

(2) A prefabricator must use construction plywood obtained on certified orders in the

production of prefabricated houses, panels or sections to be sold on orders rated HH.

(3) A prefabricator may not apply or extend an HH rating for construction plywood.

Housing Contractors

(e) *Housing contractors.* The following provisions tell how a housing contractor may place certified orders or HH rated orders with a plywood manufacturer or distributor for contruction plywood.

(1) A housing contractor may apply the HH rating on orders for construction plywood to a distributor, but not to a plywood manufacturer, or a housing contractor purchasing in not less than carload lots, may place certified orders for mill shipment delivery each month starting with the month of April 1946, with a plywood manufacturer or a distributor, in an amount in square footage not in excess of the total construction plywood required to meet his construction schedule for housing for which he has received priorities assistance on Form CPA-4386. A housing contractor may not place HH rated or certified orders for construction plywood except for use in kitchen cabinets and bathroom and kitchen flooring. He may not apply the HH rating or use a certificate for an amount in excess of 300 square feet per house or apartment. If kitchen cabinets are purchased as millwork the total permissible amount of construction plywood must be reduced by the amount of plywood in the cabinets.

(2) A housing contractor must not specify delivery dates (at site or warehouse) on certified orders or HH rated orders, more than 30 days from the time that the construction plywood is needed for incorporation into the housing. Furthermore, the housing contractor must not place certified orders for construction plywood in which is specified a delivery date later than the third calendar month after the time when the purchase order is placed. A housing contractor may place certified orders for construction plywood only to the extent that HH rated orders have not been placed with a distributor.

(3) A housing contractor must use the construction plywood obtained on certified orders or HH rated orders on housing construction for which the HH rating was authorized.

Cabinet Manufacturers

(f) *Cabinet manufacturers.* The following provisions tell how a cabinet manufacturer may obtain authority to place certified orders with a plywood manufacturer or a distributor for construction plywood for use in drawer bottoms of built-in kitchen cabinets and how the cabinets must be sold:

(1) A cabinet manufacturer wishing to place certified orders with a plywood manufacturer or a distributor for construction plywood to be used in the manufacture of drawer bottoms for kitchen cabinets, shall apply to the CPA for authority to place such orders. A cabinet manufacturer must apply to CPA before May 10, 1946, unless already authorized, for the months of May and June, 1946, and for calendar quarters thereafter must apply at least 20 days before the first day of the quarter, by letter stating: (i) average monthly consumption of construction plywood in drawers for built-in kitchen cabinets in year 1940 (required in first application only); (ii) average anticipated monthly production of kitchen cabinets in units to be produced in the period for which authorization is requested, and (iii) total requirements in ⅜" basis of construction plywood for drawers for built-in kitchen cabinets in item (ii) above. Such application will be processed equitably. A cabinet manufacturer must not specify delivery dates (at plant or warehouse) on certified orders more than 30 days before the time the construction plywood is needed for incorporation into the kitchen cabinet drawers. Furthermore, the cabinet manufacturer must not place certified orders for construction plywood in which is specified a delivery date later than during the third calendar month after the time the purchase order was placed.

(2) Authorizations to cabinet manufacturers will bear a serial number which must be inserted by the cabinet manufacturer in the place provided in the certificate required by paragraph (j) below.

NOTE: Subparagraph (3), formerly subparagraph (2), redesignated June 5, 1946.

(3) A cabinet manufacturer must use the construction plywood received on certified orders in the production of built-in kitchen cabinets suitable for housing. The cabinets manufactured from the construction plywood must be held for sale as millwork and sold in conformity with paragraph (e) (2) of Direction 1 to PR 33 providing for the sale of millwork.

Door Manufacturers

(g) *Door manufacturers.* The following provisions tell how door manufacturers may place with plywood manufacturers or distributors certified orders for door plywood for the manufacture of standard house doors and how the doors must be sold.

(1) A door manufacturer may place certified orders for door plywood for delivery in each month beginning with the month of April, 1946, with the plywood manufacturer or a distributor for an amount in square footage not in excess of 10% of the amount in square footage of door plywood consumed by him in the manufacture of standard house doors in the year 1940.

(2) A door manufacturer must use each month, all the door plywood received on certified orders in the manufacture of standard house doors. The doors so manufactured must be held for sale as millwork and sold in conformity with paragraph (e) (2) of Direction 1 to PR 33 providing for the sale of millwork.

Distributors

(h) *Distributors.* The following provisions tell how distributors may place orders for construction plywood, and how the construction plywood may be sold:

(1) A distributor may place uncertified and unrated orders for delivery each month for construction plywood with a plywood manufacturer. Every distributor must reserve 75% of the construction plywood received in any month for delivery on certified and rated orders. A distributor must accept all certified and rated orders which are received before the end of the month up to the reserve quantities regardless of whether such orders call for delivery within that month. A distributor, however, may not accept for delivery in any month orders rated MM for more construction plywood than 5% of the quantity reserved in that month. In addition, he must not accept certified or rated orders (except AAA) for construction plywood for a quantity in excess of the reserve. Any construction plywood which a distributor is not required to reserve, and any construction plywood in the reserve for which certified and rated orders are not received during the month, may be delivered by a distributor only on uncertified and unrated (except AAA) orders.

(2) A distributor who has received a certified order for construction or door plywood may place the certified order with a plywood manufacturer to get the construction or door plywood which will be delivered direct to consumer subject to the applicable inventory regulations. A distributor may not place a certified order with a producer for replacement of inventory.

(i) *Newcomers.* (1) A person who in the year 1940 was not established as a cabinet manufacturer or a door manufacturer, and who wants to place monthly certified orders for construction plywood for use in kitchen cabinets or for door plywood for use in standard house doors, may apply to CPA for authorization to place certified orders for a calendar quarter. Authorization will be issued on a quarterly basis and application by letter must be filed at least 10 days before the first day of the calendar quarter for which authorization is asked. The letter should state: (i) location of plant; (ii) amount of equipment and its production capacity to manufacture kitchen cabinets or house doors; (iii) line of kitchen cabinets to be produced; (iv) anticipated monthly production of house doors or kitchen cabinets in which plywood is required; (v) total requirements on a ⅜" basis of plywood for house doors or kitchen cabinets for the next current quarter. Such application will be processed in an equitable manner.

(2) A person receiving authorization to place a certified order under paragraph (i) (1) above, must hold kitchen cabinets or doors manufactured for sale in conformity with the provisions of paragraph (f) (2) and (g) (2) above, respectively.

Certification

(j) *Certification.* To certify an order for construction plywood or door plywood under this direction, the following certificate must be endorsed on or attached to the purchase order, or sales ticket. Certification must be signed manually or as explained in PR 7. However, the standard form described in that regulation may not be used in place of the certificate described in this direction. The certificate described in this direction may not be waived by paragraph (f) under PR 7. The serial number must be inserted by cabinet manufacturers, door manufacturers and persons holding authorizations on Form CPA-4386 or Form CPA-4415 in the place provided in the certificate.

Prefabricators, housing contractors, cabinet manufacturers, door manufacturers and distributors who place certified orders calling for delivery of construction plywood or door plywood, must use a certificate reading substantially as follows:

The undersigned certifies to the supplier and to the CPA that he is a ------ (prefabricator, housing contractor, cabinet manufacturer, door manufacturer, or distributor) and that the quantities of construction plywood or door plywood covered by this order (together with all other certified orders for construction plywood or door plywood for delivery in the months specified in this order) do not exceed the amount he has been allowed under Direction 1A of PR 33 with the provisions of which he is familiar.

Miscellaneous

(k) *Miscellaneous.* The following provisions generally affecting plywood manufacturers, prefabricators, housing contractors, cabinet manufacturers, door manufacturers and distributors should be carefully read:

(1) *Status of certified orders.* Certified orders for the purpose of this direction are subject to the rules for acceptance and rejection of rated orders as provided in Priorities Regulation 1 as if they were rated orders. The order of precedence where orders are received by distributors, cabinet manufacturers and door manufacturers is (subject to any provision of this direction limiting the quantity of orders that need be accepted) as follows: (i) AAA; (ii) MM; (iii) CC, HH and certified orders which are of equal value.

(2) *Applicability of regulations.* Except as otherwise required by this direction Priorities Regulations 1 and 3 govern the use of ratings and the acceptance, scheduling and filling of orders placed with distributors. All other applicable regulations and orders of the Civilian Production Administration must be observed.

(3) *Extension of rated orders.* Ratings (except AAA) may not be applied or extended to a plywood manufacturer for construction or door plywood. However, any person who has received a rated order for the delivery of construction or door plywood may extend the rating to his suppliers (except to a plywood manufacturer) to get plywood which he will deliver on that order subject to applicable inventory regulations. If a person has made delivery of construction or door plywood on a rated order, he may extend the rating to his suppliers (except to a plywood manufacturer) to replace the amount in his inventory subject to the applicable inventory regulations. A millwork manufacturer who has received a rated order (except AAA) for millwork or who has delivered millwork on a rating (except AAA), may not extend the rating (except AAA), for construction or door plywood for incorporation into millwork. These rules supersede paragraphs (d) and (d) (1) of Priorities Regulation 3 on the extension of ratings.

(4) *Violations.* Any person who willfully violates any provisions of this direction, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(5) *Reports.* Every person shall file with the Civilian Production Administration, or any other federal agency, through which the Civilian Production Administration may distribute plywood, such reports and questionnaires as the Civilian Production Administration or such other agency may from time to time require subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(6) *Appeals.* Any appeal from the provisions of this direction shall be made by mailing a letter in triplicate to the Civilian Production Administration, Forest Products Division, Washington 25, D. C., Ref.: Direction 1A to PR 33 stating the particular provision appealed from and stating fully the grounds for the appeal.

(7) *Communications.* All communications unless otherwise directed must be addressed as follows: Civilian Production Administration, Forest Products Division, Washington 25, D. C.

PART 1349—ELECTRICAL GENERATION, TRANSMISSION, CONVERSION AND DISTRIBUTION APPARATUS

[MPR 82, Amdt. 10]

WIRE AND CABLE

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 82 is amended in the following respects:

The following paragraph (h) is added to section 16:

(h) *Procedure where OPA establishes industry-wide increases in the price of lead.* (1) Manufacturers of lead covered wire or cable, excluding armored cable, sold in terms of dollars-and-cents amounts per unit of length, may, after June 3, 1946, the effective date of an amendment to Revised Price Schedule 69, raising the maximum price of lead, increase their maximum net prices, which would be in effect for each 1000 feet of such lead covered cable in the absence of this paragraph, by the dollars-and-cents amount obtained by applying the following formula, and rounding out the resultant figure to the nearest ten cents:

Formula: 177 x (T+D) x T x ¢ where "T" represents the thickness, expressed in inches, of the lead sheath, "D" represents the inside diameter, expressed in inches, of the lead sheath, and "¢" represents the total increase in cents per pound of lead established by the amendment to RPM 69.

Example: Assume that on June 3, 1946, the OPA effectuates an industry-wide increase of 3¢ per pound in the price of lead. Assume that the maximum net price of the applicable lead covered cable would be 100 dollars for each 1000 feet without considering the provisions of this paragraph, and further assume the inside diameter of the lead sheath to be one inch, with the thickness of the lead sheath being one-fourth of an inch. The amount the manufacturer may add to the aforesaid net price would be obtained as follows:

177 x (¼+1) x ¼ x 3, or $1.66, which, when rounded out to the nearest ten cents, becomes $1.70. The new maximum net price would therefore become $101.70 for the thousand feet.

(2) *Resellers.* Resellers may increase their maximum net prices for wire and cable, which would be in existence in the absence of the foregoing provisions, by the dollars-and-cents amount by which their net invoiced costs have been increased as a result of the foregoing provisions.

(3) Increases in maximum prices obtained as a result of the provisions of subparagraphs (1) and (2) shall be separately stated on the invoice furnished in transactions affected thereby.

This amendment shall become effective June 4, 1946.

Issued this 4th day of June 1946.

Administrator.

HOUSING IN MIAMI

The Rent Regulation for Housing in the Miami Defense-Rental Area is amended in the following respects:

1. The first paragraph of section 4 (c) is amended to read as follows:

(c) *Priority-constructed housing.* For housing accommodations newly constructed with priority rating or under specific authorization from the United States or any agency thereof for which the rent is approved by the United States or any agency thereof prior to September 1, 1943, or, if the accommodations were not rented on that date, prior to the first renting of the accommodations after that date, the rent so approved, but in no event more than the rent on September 1, 1943, or, if the accommodations were not rented on that date, more than the first rent after that date: *Provided, however,* That if, prior to September 1, 1943, or, if the accommodations were not rented on that date, prior to the first renting of the accommodations after that date, the landlord made a written request to the appropriate agency of the United States to approve a higher rent than the rent initially approved because of increased costs of construction, and a higher rent is approved by such agency on or after March 29, 1944, because of such increased costs of construction, the maximum rent on and after the date of such approval shall be the rent so approved: *And provided further,* That as to housing constructed with priority rating obtained prior to October 15, 1945, and in which initial occupancy occurred on or after that date, the landlord may at his option elect to have the maximum rents therefor determined under section 4 (b).

3. Section 6 (d) (1) is amended to read as follows:

A written copy of such notice shall be given to the area rent office within 24 hours after the notice is given to the tenant.

No tenant shall be removed or evicted from housing accommodations by court process or otherwise, unless at least ten days (or, where the ground for removal or eviction is non-payment of rent, the period required by the local law for notice prior to the commencement of an action for removal or eviction in such cases, but in no event less than three days) prior to the time specified for surrender of possession and to the commencement of any action for removal or eviction, the landlord has given written notices of the proposed removal or eviction to the tenant and to the area rent office, stating the ground under this section upon which such removal or eviction is sought, the facts necessary to establish the existence of such ground, and specifying the time when the tenant is required to surrender possession.

Where the ground for removal or eviction of a tenant is non-payment of rent, every notice under this paragraph (d) (1) shall state the rent for the housing accommodations, the amount of rent due and the rental period or periods for which such rent is due. The provisions of this paragraph (d) (1) shall not apply if the eviction is pursuant to the terms of a certificate issued by the Administrator under the provisions of paragraph (b) of this section.

§ 15.1 *Definitions.* (a) The word "claims" as used in these regulations refers to those demands for payment, within the scope of this part, submitted by individuals, partnerships, associations, or corporations, or political entities, including countries, states and territories, and political subdivisions thereof, but excluding the Federal Government of the United States and its instrumentalities, other than such demands for payment as arise under ordinary obligations incurred by the Coast Guard in the procurement of services or supplies, and other claims within the scope of paragraph (b) of this section.

(b) The word "claims" when used in this part does not include:

(1) Foreign claims which arose while the Coast Guard was operating as a part of the Navy and which are administered under the act of January 2, 1942, as amended by the act of April 22, 1943 (31 U.S.C. 224d).

(2) Admiralty claims for damages caused by a Coast Guard vessel which arose while the Coast Guard was operating as a part of the Navy, which claims would be administered under the act of July 3, 1944 (46 U.S.C. 797) and the act of December 5, 1945 (Public Law 246, 79th Congress).

(3) Personnel claims of either military or civilian personnel of the Coast Guard for damages to or loss, destruction, capture, or abandonment of personal property which occurred as an incident to their service and which are administered under Coast Guard Personnel Claims Regulations by virtue of section 5, act of March 20, 1946 (Public Law 327, 79th Congress) and the act of May 29, 1943 (Public Law 67, 79th Congress).

(4) Claims for rent of real or personal property.

(c) The phrase "In time of war" as applied to conditions as of the date of the promulgation of this part shall include the period between December 7, 1941, and the date the war is declared to be at an end by resolution of the Congress or by proclamation of the President.

(d) The word "Commandant" as used in this part refers to the Commandant, U. S. Coast Guard, Washington, D. C.

(e) The words "Assistant Commandant" as used in this part refers to the Assistant Commandant, U. S. Coast Guard, Washington, D. C.

(f) The words "This part" as used in this part refer to the Coast Guard General Claims Regulations.

(g) The phrase "when the Coast Guard was not operating as a part of the Navy" when used in this part means any period other than the period beginning November 1, 1941 and ending December 31, 1945.

(h) Coast Guard aircraft, when waterborne, shall be considered as vessels for the purposes of this part.

§ 15.2 *Scope; general.* Claims arising on or after May 27, 1941 for damage to or loss or destruction of real or personal property, or for reasonable medical, hospital or burial expenses, actually incurred on account of personal injury or death, caused by military personnel or civilian employees of the Coast Guard while acting within the scope of their employment, or otherwise incident to activities of the Coast Guard, including claims under Title 14, section 71, U. S. Code, on account of damages occasioned by collisions or incident to the operation of Coast Guard vessels; claims for damage to or loss or destruction of registered or insured mail while in the possession of Coast Guard authorities even though resulting from criminal acts; claims for damage to or loss or destruction of personal property bailed to the government; and claims for damage to real property incident to the use and occupancy thereof under a lease, express or implied, or otherwise, and including claims of the foregoing categories arising out of civil works, are payable provided they do not exceed $500 or, in time of war, do not exceed $1,000.

§ 15.3 *Application of claims not previously adjusted.* The provisions of this part apply to all claims otherwise within the scope thereof, not heretofore adjusted, including claims formerly payable under provisions of law and regulations now superseded, arising out of accidents or incidents occurring on or after May 27, 1941. Claims arising out of accidents or incidents occurring prior to May 27, 1941, but otherwise within the scope of this part will be forwarded to the Commandant, with related files and recommendations by or through the Commander of the district in which the accident or incident resulting in the claims, occurred: *Provided*, That in the cases of independent Coast Guard activities, such as the Coast Guard Yard, the files and recommendations will be forwarded directly to the Commandant.

§ 15.4 *Acts or omissions.* (a) Military personnel and civilian employees whose acts or omissions may give rise to claims within the scope of this part, include all military personnel of the Coast Guard and volunteer workers, and others, serving as employees of the Coast Guard, even though without compensation.

(b) *Scope of employment.* Acts or omissions of military personnel and civilian employees may give rise to claims payable under the provisions of this part only if such acts or omissions occur while such military personnel or civilian employees are acting within the scope of their employment.

§ 15.5 *Contributory negligence.* Except with respect to cases within the admiralty and maritime jurisdiction, negligence or wrongful act of the claimant, or his agent or employee acting within the scope of his employment, in whole or in part the proximate cause of the accident or incident, bars a claim. The doctrine of comparative negligence will not be applied. The law of the jurisdiction in which the accident or incident occurred will normally be followed in determining whether contributory negligence is present.

§ 15.6 *Registered and insured mail.* Claims for damage to or destruction of registered or insured mail while in the possession of the military authorities are within the scope of this part, if caused by military personnel or civilian employees of the Coast Guard even though resulting from criminal acts, or if otherwise incident to activities of the Coast Guard. Claims for damage, loss or destruction occurring prior to delivery by the Post Office Department (for distribution to the addressee) to authorized military personnel or civilian employees, are not payable under the provisions of this part, nor are claims for damage, loss or destruction occurring due to the fault of or while in the hands of bonded personnel; nor are claims arising after resumption of possession by the Post Office Department (e. g. for the purpose of forwarding to the addressee at a different address) and prior to redelivery to authorized military personnel or civilian employees of the Coast Guard charged with distribution to the addressee. "Minimum fee" insured mail carrying no insurance number and not requiring hand-to-hand receipts is not within the scope of this section.

§ 15.7 *Bailed personal property.* Claims for damage to or loss or destruction of personal property loaned, rented, or otherwise bailed to the Government under an agreement, express or implied, are payable under the provisions of this part even though legally enforceable against the Government as contract claims, unless by express agreement the bailor has assumed the risk of damage, loss or destruction; the cause of loss is immaterial. Claims payable under this section may, if deemed in the best interests of the Government, be processed as contract claims through the General Accounting Office. Claims for rent of personal property are not payable under this part.

§ 15.8 *Use and occupancy of real property.* Claims for damage to real property incident to the use and occupancy thereof by the Government under a lease, express or implied, or otherwise, are payable under the provisions of this part, even though legally enforceable against the Government as contract claims. Claims payable under this section may, if deemed in the best interests of the Government be processed as contract claims through the General Accounting Office. Claims for rent of real property are not payable under this part.

§ 15.9 *Contract claims.* Claims for damage to or loss or destruction of property founded in contract, express or implied, except those under §§ 15.7 and 15.8, are normally not payable under the provisions of this part. Any claim which is apparently within the provisions of the act of March 20, 1946 but appears to be founded in contract, express or implied, will be forwarded with related files and recommendations by or through the Commander of the cognizant Coast Guard district or activity to the Commandant for appropriate administrative action.

§ 15.10 *Other noncombat activities.* Claims for damage to or loss or destruction of property, or for personal injury or death, though not caused by acts or omissions of military personnel or civilian employees of the Coast Guard are payable under the provisions of this section if otherwise incident to the activities of the Coast Guard. In general, claims within the above category are those arising out of authorized activities which are peculiarly Coast Guard activities having little parallel in civilian pursuits and out of situations which historically have been considered as furnishing a proper basis for the payment of claims, such as claims for damage or injury arising out of, and which are natural or probable results of incidents of, maneuvers and special exercises, practice firing, operation of aircraft, use of instrumentalities having latent mechanical defects not traceable to negligent acts or omissions, explosions of ammunition, movement of vehicles designed especially for military use, and use and occupancy of real estate.

§ 15.11 *Foreign claims.* Claims for damage to or loss or destruction of property, or for personal injury or death, arising out of accidents or incidents occurring in foreign countries when the Coast Guard was not operating as a part of the Navy, are within the provisions of this part.

§ 15.12 *Claims for military personnel or civilian employees.* Claims for damage to or loss or destruction of personal property of military personnel or civilian employees of the Coast Guard occurring incident to their service will first be considered under the provisions of Personnel Claims Regulations, which, if applicable take precedence over the provisions of this part. Such claims found not to be payable under provisions of the Personnel Claims Regulations may then be considered under the provisions of this part. Claims of such personnel and employees for damage to or loss or destruction of property not incident to their service are payable under the provisions of these regulations, on the same basis as are claims of persons not military personnel or civilian employees of the Coast Guard. Claims for medical, hospital and burial expenses on account of injury or death of military personnel or civilian employees of the Coast Guard if not within the provisions of other statutes or regulations, are payable under the provisions of this part on the same basis as are claims of persons not military personnel or civilian employees of the Coast Guard.

§ 15.13 *Depredation.* Claims for damage to or loss or destruction of property, by persons subject to military law, caused by riotous, violent, or disorderly conduct, or acts of depredation, willful misconduct, or such reckless disregard of property rights as to carry an implication of guilty intent, are not payable under the provisions of this part.

§ 15.14 *Medical expenses*—(a) *Included.* Items properly allowable include, if reasonably necessary, reasonable in amount, and actually incurred: (1) Transportation by ambulance or otherwise, from the scene of the accident or incident to a physician or hospital, and to and from residence to physicians or hospitals, for examination or treatment; (2) services performed by physicians, surgeons, dentists, laboratory technicians, anesthetists, masseurs, and registered and practical nurses; (3) physiotherapy; (4) X-ray and roentgenological examination and treatment; (5) laboratory tests; (6) medicines; (7) other reasonably necessary medical expenses.

(b) *Excluded.* No amount may be allowed, as an item of claim, for medical services furnished at the expense of the United States.

§ 15.15 *Hospital expenses*—(a) *Included.* Items properly allowable include, if reasonably necessary, reasonable in amount, and actually incurred: (1) Use of emergency and surgical rooms; (2) room and board; (3) anesthetics, medicines, laboratory fees, and dressings; (4) payments to blood donors; (5) other reasonably necessary hospital expenses.

(b) *Excluded.* No amount may be allowed, as an item of claim, for hospital services furnished at the expense of the United States.

§ 15.16 *Burial expenses*—(a) *Included.* Items properly allowable include, if reasonable in amount and actually incurred: (1) Undertaker's services; (2) casket; (3) transportation; (4) cemetery lot; (5) services of a minister, priest, or rabbi; (6) interment or cremation; (7) other reasonably necessary burial and funeral expenses.

(b) *Excluded.* No amount may be allowed, as an item of the claim, for any portion of the expense of burial otherwise paid by the United States.

§ 15.17 *Statute of limitations.* Claims must be presented in writing within one year after the occurrence of the accident or incident out of which the claim arises, except that if the accident or incident occurs in time of war, or if war intervenes within one year after its occurrence, a claim may, if good cause for the delay is shown, be presented within one year after peace is established. (See § 15.1 (c)).

§ 15.18 *Claims for subrogees*—(a) *Settlement to be only in name of insured.* Settlement will be made solely with the insured, rather than the insurer or with both the insured and insurer, in cases of damage, loss, destruction, injury, or death covered by insurance. No injury will be made into, nor determination made of, the relative interests as between insured and insurer. The entire claim, including any portion thereof insured against, will be filed by or on behalf of the insured and payment of the entire amount approved will be made in the name of the insured. Evidence of authority to file a claim on behalf of the insured may be established by a power of attorney, insurance policy provision, or other documentary evidence satisfactory to the approving authority. The foregoing provisions will be equally applicable in cases of subrogation based other than on insurance.

(b) *Excluded.* Claims by subrogees in their own right are not within the scope of this part and will not be considered.

(c) *Claims accruing prior to March 20, 1946.* The provisions of paragraphs (a) and (b) of this section are, however, inapplicable to claims growing out of accidents or incidents which occurred prior to March 20, 1946.

§ 15.19 *Approval of claims.* (a) Subject to appeal to the Secretary of the Treasury, claims under the provisions of these regulations may be approved or disapproved by the Commandant, Assistant Commandant, or the Chief Counsel, U. S. Coast Guard. These claims when approved as aforesaid will be forwarded to the appropriate authorized certifying officer for certification as provided in Chapter XVI, Pay and Supply Instructions, U. S. Coast Guard.

(b) Prior to the payment of any approved claim within the provisions of this part, each of the following conditions must be fulfilled:

(1) The amount of the damage, loss, or destruction, or the amount payable on account of personal injury or death, must be determined.

(2) The amount approved to be paid must not exceed $500 ($1,000 in time of war).

(3) The claim must have been presented within one (1) year after the occurrence of the accident or incident out of which the claim arises except as provided in § 15.17.

(4) The claimant must accept, in full satisfaction and final settlement, the

amount approved, if less than the full amount claimed.

§ 15.20 *Claims in excess of $500.* Claims in excess of $500 ($1,000 in time of war) if otherwise within the scope of this part may be reported by the Secretary of the Treasury to Congress for its consideration. Any claim which is asserted in an amount in excess of $500 ($1,000 in time of war) will be forwarded promptly with the related file, and with comments and recommendations, by or through the office of the cognizant District Commander to the Commandant for appropriate action, except in the case of independent activities, where the claim will be forwarded directly to the Commandant. To the extent that the claim is for damage to or loss or destruction of property, or for reasonable medical, hospital, or burial expenses actually incurred, within the provisions of these regulations, except as the aggregate amount exceeds $500 ($1,000 in time of war), such action may include the reporting of the claim in a deficiency bill for consideration by Congress without the necessity of the claimant's initiating private relief legislation. Elements of such a claim to compensate for loss of wages, pain and suffering, permanent disability, and death not being within the scope of these regulations will not be included in any claim so reported, and no private relief legislation therefor will be sponsored by the Treasury.

§ 15.21 *Government immunity.* Except when the claim arises under a contract or is otherwise specifically permitted by statute, no person may have a legally enforceable claim against the United States for property damage or personal injury arising out of the activities of the Coast Guard. Accordingly, unless the claim falls within the scope of this part or arises under contract, the claimant has no recourse against the government except through the enactment of private relief legislation by the Congress, which legislation the Treasury Department does not sponsor except in cases set forth in § 15.20.

§ 15.22 *Action by claimant*—(a) *Claims for damage, loss or destruction of property.* Claims for damage to or loss or destruction of property may be presented by the owner of the property or his duly authorized agent or legal representative. The word "owner", as so used, includes charterers, bailees, lessees, mortgagors, and conditional vendees, but does not include mortgagees, conditional vendors, and others having title for purpose of security only. The claim, if filed by an agent or legal representative, should show the title or capacity of the person signing and be accompanied by evidence of the appointment of such person as agent, executor, administrator, guardian, or other fiduciary.

(b) *Claims for personal injury or death.* Claims for personal injury or death may be presented by the injured person or his duly authorized agent or legal representative. Claims for medical, hospital and burial expenses, not presented by the injured person or his duly authorized agent or legal representative, may, if it appears that no legal representative has been appointed, be presented by any person who, by reason of family relationship, has in fact incurred the expenses for which claim is made.

(c) *Form of claim.* Claims should be submitted by presenting in triplicate a statement in writing stating the claimant's address and setting forth the amount of the claim and, so far as possible, the detailed facts and circumstances surrounding the accident or incident, indicating the date and place, the property and persons involved, the nature and extent of the damage, loss, destruction or injury, and the agency which was the cause or occasion thereof. Form, CG–2880 will be used whenever practicable.

(d) *Prior claims.* Claimants, whose claims arose prior to March 20, 1946, who, prior to this part, submitted claims on Standard Form 28 or in any other approved manner will not be required to resubmit their claims.

(e) *Evidence to be submitted by claimant*—(1) *General.* The amount claimed for damage to or loss or destruction of property or for personal injury or death should be substantiated by competent evidence. All statements or estimates required to be submitted by the following subparagraphs should, if possible, be by disinterested competent witnesses, preferably reputable dealers or officials familiar with the type of property damaged. Such statements and estimates should be certified as just and correct and if payment has been made, itemized receipts evidencing such payment should be included.

(2) *Damage to personal property.* In support of claims for damage to personal property which has been or can be economically repaired, the claimant should submit an itemized signed statement or estimate of the cost of repairs; if not economically reparable, or if the property is lost or destroyed, the value thereof at the time of loss or destruction, should be stated.

(3) *Damage to real property.* In support of claims for damage to land, trees, buildings, fences and other improvements, and similar property, the claimant should submit an itemized signed statement of estimate of the cost of repairs; if not economically reparable, the value both before and after the accident, of the land damaged, or of the improvement or other property if it can be readily and fairly valued apart from the land, should be stated.

(4) *Damage to crops.* In support of claims for damage to crops, the claimant should submit an itemized signed statement showing the number of acres, or other unit measure, of the crops damaged, the normal yield per unit, the gross amount which would have been realized from such normal yield and an estimate of the further costs of cultivation, harvesting and marketing; if the crop is one which need not be planted each year, the diminution in value of the land beyond the damage to the current years crop should also be stated.

(5) *Damage to registered or insured mail.* In the case of claims for damage to or loss or destruction of registered or insured mail, the claimant should in addition submit, where possible, the registration or insurance receipt, or an attested copy thereof, showing the amount of fee and postage paid.

(6) *Marine casualty damage.* In support of claims for damage to or destruction of marine property which has been or can be repaired or replaced, the claimant must submit an itemized statement or estimate of the cost of repairs or replacement, supported by an appraisal or survey report of disinterested, competent persons familiar with the subject matter.

If the property is so severely damaged that it is not susceptible of being repaired, its value as of the time of the accident must be stated and established by competent evidence. Whenever a claim includes a charge for detention or loss of earnings during repairs of damage to a vessel, the claimant must support such item with a statement as to:

(i) The date when the vessel was disabled.

(ii) The name and location of the repair yard.

(iii) The date when repairs were commenced.

(iv) The date when repairs were completed.

(v) Whether or not while undergoing collision repairs, any other work for the owner's account was performed, and if so, the cost and character thereof and the time required for performance.

(vi) The date on which the vessel was returned to service after completion of repairs .

(vii) Place where the vessel was put into service after completion of repairs.

(viii) An explanation of any delay between the date repairs were completed and the date the vessel was returned to service.

(ix) Whether or not during the course of undergoing collision repairs the vessel could have been employed, and an explanation submitted showing the identity of the person who offered to give such employment; the terms of the offer; time of prospective service and rate of compensation.

(x) If the vessel was under charter at the time of collision or was otherwise employed, the claimant should state each of the details set forth last above, and as well submit a statement of operating expenses which were, or would have been, incurred to earn such hire, specifically stating wages and bonuses which would have been paid during the period of employment (including the master's), the value of fuel which would have been consumed during the period of employment, the value of consumable stores which would have been used during the period of employment, port charges which would have been incurred during the period of employment and which would have included such items as harbor fees, wharfage, dockage, sheddage, stevedoring, towage, pilotage, inspection, tollage, lockage, anchorage and moorage, grain elevation, storage, and customs fees. All such statements or estimates should be supported by statements or reports of disinterested, competent witnesses, preferably marine surveyors, familiar with the type of property damaged or destroyed. Such statements and estimates should be certified as just and correct, and if payment has been made, itemized receipts evidencing payment should be included.

(7) *Personal injury.* In support of claims for personal injury or death, the claimant should submit a written report by attending physician, showing the nature and extent of injury, the nature and extent of treatment, the degree of permanent disability, if any, the prognosis, and the period of hospitalization or incapacitation, attaching itemized bills for medical, hospital, or burial expenses actually incurred.

(8) *Signatures.* The claim and all other papers requiring the signature of the claimant should be signed by the claimant personally or by a duly authorized agent. (See 18 U. S. C. 80.)

(9) *Place of filing.* The claim should be submitted to the Commanding Officer of the activity involved, if known; otherwise to the Commanding Officer of any Coast Guard activity, if practicable the one within or nearest to which the accident or incident occurred; or the Commandant, Washington 25, D. C.

§ 15.23 *Reports by Coast Guard personnel*—(a) *Motor vehicle accidents.* All motor vehicle accidents will be reported by the driver of the Coast Guard vehicle on Standard Form 26, (Driver's Report—Accident—Motor Transportation). A report on Standard Form 26 will be filed even though the driver of other vehicle states no claim will be filed or even if only Government owned vehicles are involved. An accident will be reported regardless of who was hurt, what property was damaged or to what extent, where it occurred, or who was responsible. The report will be referred to the Commanding Officer of the activity for such disposition as he deems appropriate under § 15.25 of these regulations.

(b) *Marine casualties involving Coast Guard vessels and private vessels or instrumentalities.* Whenever there is a casualty involving a Coast Guard vessel and a private vessel or instrumentality, irrespective of the extent of damage, or wherein the fault of said casualty lies, the Commanding Officer or officer in charge of the Coast Guard vessel will make a report of the same by dispatch to the Commander of the district in which the collision occurred, or, if without the limits of a Coast Guard district directly to the Commandant. This dispatch report shall be followed, as soon as practicable, by a complete written report containing all information pertaining to the marine casualty.

(c) *Aircraft accidents or damage.* Whenever an officer in charge of a Coast Guard aircraft becomes aware that personal injury to private citizens or damage to private property has occurred as a result of the operation of the Coast Guard aircraft under his charge, he will make a report by dispatch to the Commander of the district in which such injury or damage occurred, or, if without the limits of a Coast Guard district, directly to the Commandant. This dispatch report shall be followed, as soon as practicable, with a complete report containing all information pertaining to such personal injury or damage.

(d) *Miscellaneous.* Whenever an incident occurs within the scope of this part, as set forth in § 15.2, for which a specific type of report is not required by paragraph (a), (b) or (c) of this section, the Coast Guard personnel having cognizance of such incident shall make a report of the same to the Commanding Officer of the Coast Guard activity in which the incident occurred for action under § 15.25.

(e) *Action by Commandant.* Whenever reports required by paragraphs (b) and (c) of this section are received by the Commandant he will forward the same for action to the Commanding Officer of the Coast Guard activity whom he desires to take administrative cognizance as provided in § 15.25.

§ 15.24 *Investigating officers*—(a) *Appointment of.* The Commanding Officer of each Coast Guard activity will designate a qualified individual of his command, if practicable one experienced in the conduct of investigations and preferably with legal training, as the investigating officer of the activity. Wherever necessary, in the discretion of the Commanding Officer, additional or assistant investigating officers may be appointed, each with all and the same powers as the investigating officer except that all assistant investigating officers will be under the general supervision of the investigating officer.

(b) *Duties of.* The investigation of an accident or incident by the investigating officer will cover all phases of such accident or incident and its future bearing on the interests of the service, including possible claims against or in favor of the Government.

(c) *Priority over other duties.* Whenever an investigating officer is engaged in an investigation, this duty will ordinarily have priority over other duties or assignments to which he has been assigned to insure prompt investigation while witnesses are available and before damage is repaired.

§ 15.25 *Boards of Investigation.* (a) Except as provided in paragraph (b) of this section, Commanding Officers of Coast Guard activities will be required upon receipt of a report required by § 15.23 or upon submission of a claim, to determine whether the facts in each case require the convening of a board of investigation as prescribed in Article 900, Coast Guard Courts and Boards, 1935, or an administrative investigation by an investigating officer as provided in § 15.24. In all cases involving possible disciplinary action against military personnel of the Coast Guard, a board of investigation will be convened. In no case will a board of investigation and an investigating officer conduct simultaneous and duplicitous investigations. In those administrative cases where an investigating officer discovers evidence which is to the prejudice of the interest of military personnel of the Coast Guard, he will immediately convey this information to his Commanding Officer for appropriate action under Article 900, Coast Guard Courts and Boards, 1935. If the Commanding Officer convenes a board of investigation, the investigating officer may be named as a member of the board. If no board of investigation is convened, the investigating officer will continue his investigation as provided in § 15.24.

(b) In the case of marine casualty involving a Coast Guard vessel and a private vessel or instrumentality, the procedure set forth in the Commandant's letter 30 March, 1943 and section 7–3–5 A, Merchant Marine Inspection Instructions shall be followed.

§ 15.26 *Disposition of reports.* (a) The reports of an investigating officer will be prepared in triplicate and delivered to the Commanding Officer by whom the investigating officer was appointed, for immediate transmission to the Commandant.

(b) The boards of investigation will be submitted in triplicate to the Commandant via the convening authority.

(c) Investigation into marine casualty conducted by a Merchant Marine Examining Officer will be forwarded in the manner prescribed by section 7–3–5 A, Merchant Marine Inspection Instructions.

§ 15.27 *Procedure*—(a) *When investigation will be made.* Investigation of service-connected accidents and incidents will be made in accordance with the provisions of this part, (1) when the private property is damaged, lost or destroyed; or (2) when injury or death results to any civilian other than an employee of the Government acting within the scope of his employment and covered by the United States Employees' Compensation Act; or (3) when Government property is damaged, lost or destroyed under circumstances which indicate the existence of a claim in excess of $25 in favor of the Government; or (4) when a claim is made; or (5) when specifically directed by competent authority.

(b) *Responsibility for investigation.* Immediate responsibility for the investigation of an accident or incident as provided in this part, rests upon the Commanding Officer of that local Coast Guard activity which is most directly involved, normally the Commanding Officer of the personnel involved or of the activity in which the accident or incident occurred: *Provided,* That where two or more such activities are concerned the senior of the Commanding Officers concerned will decide which of them will have immediate responsibility for the investigation.

(c) *Type of investigation.* Upon making the determination required of him by § 15.25, the Commanding Officer immediately responsible for the conducting of the investigation into the accident or incident, will refer the matter, with all the available information relating thereto, to an investigating officer, or an examining officer, or to properly convened board of investigation.

§ 15.28 *Transfer or assignment of claim.* No transfer or assignment of any interest in any claim which is adjusted under this part, and no power of attorney, order or other authority for receiving payment thereof, except as authorized by Title 31 U. S. Code, section 203, will be recognized.

§ 15.29 *Appeals.* Any claimant may appeal to the Secretary of the Treasury

for a review of the adjustment or determination of his claim. Such appeal shall be made in writing and shall be addressed to the Secretary of the Treasury, Washington 25, D. C.

§ 15.30 *Release.* Acceptance by claimant of any amount found to be due and payable under the provisions of this part shall be deemed to be in full satisfaction and settlement of such claim against the Government of the United States and no formal release will be necessary.

§ 15.31 *Authorization for issuance of administrative instructions.* The Commandant is hereby authorized to issue such administrative instructions not in conflict with this part as may be necessary from time to time to give full force and effect thereto.

Dated: May 29, 1946.

Acting Secretary of the Treasury.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Reclamation

[Order 2195]

PART 401—APPLICATIONS FOR ENTRY ON PUBLIC LANDS AND WATER RENTAL

QUALIFICATIONS FOR APPLICANTS

MAY 10, 1946.

Regulations governing the administration of subsection C of section 4 of the act of December 5, 1924 (43 Stat. 702; 43 U.S.C. 433). Qualifications of applicants for entry to public lands of Federal Reclamation projects.

In conformance with the increased significance of settlement activities in the Federal Reclamation program, and to adjust previous regulations and practices to present economic conditions and settlement requirements, this order amends and supersedes all previous regulations relative to the selection of settlers pursuant to the act of December 5, 1924, particularly regulations pursuant to Circular Letter No. 1455, September 12, 1925.

General policies. Project lands available for homesteading shall be opened to entry in a manner that will afford:

(a) Preference to veterans in accordance with the provisions of the act of September 27, 1944, Public Law 434, 78th Congress, and other preferences authorized by law. (58 Stat. 747; 43 U.S.C. Sup., 279–283)

(b) Reasonable assurance of success by the prospective settler through selection of entrymen on the basis of qualifications as to industry, experience, character, capital, and other pertinent requirements.

(c) Opportunity to homestead on a Federal Reclamation project primarily to qualified veterans who probably would not otherwise have opportunity to establish a family-size farm, due consideration being given to the desirability of securing in any new farming community a number of veterans who are well experienced farm operators able to assist new settlers through demonstrating desirable irrigation farming methods and practices adapted to the locality.

Boards of examiners. Authority has been delegated to the Commissioner of the Bureau of Reclamation to appoint Boards of Examiners to assist in the selection of settlers. Each Board so appointed shall consist of not less than two citizens residing on or in the vicinity of the project who are deemed to have public spirited interest in successful development of the project, the welfare of project settlers, and the special problems of veterans desiring opportunities to homestead on Federal Reclamation projects. A third member of each Board, who shall be the secretary of the Board, shall be a Bureau of Reclamation official, preferably a senior member of the local project staff. Citizen members, additional to the minimum number of two, may be appointed to any Board when, in the judgment of the Commissioner of Reclamation, such additional membership is desirable in view of the volume of work or the variety of problems involved in the selection of settlers.

The Boards of Examiners, after appointment as herein provided, shall be called into active status by the Regional Director sufficiently in advance of the opening of any project lands to settlement so that the members of the Board will have opportunity (1) to be fully informed of the character of the settlement opportunities and any special problems connected therewith, and (2) to make suitable recommendations as to the procedure for settler selection.

The duties of the Boards of Examiners include:

(a) Recommendation, through the Regional Director and Commissioner of the Bureau of Reclamation, for approval by the Secretary of the Interior, of standards as to the industry, experience, character, and capital and other qualifications for a successful entryman, such standards to be in conformity with and in furtherance of the general policies governing the settlement of Reclamation homesteads.

(b) The examination, approval, or rejection of applications for Reclamation homesteads and the award of farm units to qualified applicants.

(c) Recommendation to the Commissioner of Reclamation, or other appropriate official of the Bureau of Reclamation, concerning any matters connected with the settlement of the project, with a view to increasing the opportunities for success by the prospective settlers, for the establishment of family-size farms, and for carrying out the preference provisions of reclamation laws. Recommendations concerning standards as to industry, experience, character, capital and other requisite qualifications of a successful entryman, the selection of applicants and the award of farm units shall be made by the Boards of Examiners only by action of a majority of the members of said Boards.

Qualification as to capital. The standards relative to the amount of capital needed for reasonable assurance of success shall be established at the lowest amount consistent with protection of the settler, during development of his farm unit, from excessive hardship or failure due to inadequate funds for the expenses of family living and of needed farming operations. Recognition shall be given, through explicit definition in the standards for each project land opening, to useful assets other than cash, such as equipment, and to credit facilities that, by reason of their terms and conditions, would not interfere with proper development of the farm units, and repayment of construction charges. Recognition shall also be given to the opportunities for employment in connection with project construction, and for initial homesteading with minimum housing and other facilities that could be progressively improved in subsequent years. Consideration shall be given in the recommendations of the Board of Examiners relative to the qualification as to capital of any predevelopment of public lands by the Bureau of Reclamation that would reduce the amount of capital initially required by settlers to bring their farm units into income-producing condition.

Filing of application. The Board shall require each applicant for entry to public lands, including preference-right veterans, to file a written application with the Bureau of Reclamation on a form furnished for that purpose, which, among other things, must state with respect to the applicant: Age; status of citizenship; veteran preference, if any; martial status; number of children—ages, sexes; number of dependents; ownership of farm lands; value of farm lands; years of farming experience as owner, renter, laborer, farmer's son; financial situation—assets, liabilities; and reference as to character and industry.

Board decision and right of appeal. The decision of the Board as to the rating of applicants and the awards of farm units shall be reduced to writing and a copy forwarded to the applicant by registered mail. Evidence of service of such notice of decision shall be the registry return receipt signed by the applicant or his agent, or registered letter addressed to applicant at record address and returned unclaimed.

The Board's decision shall be final unless written appeal from such decision is made to the Regional Director of the Bureau of Reclamation and filed within such period, not exceeding 60 days from receipt of the Board's decision, as may be prescribed in the public notice or order opening project lands. The Regional Director's action on the appeal shall be final.

No entry for public lands within a Federal reclamation project shall be accepted by the local land office until the applicant therefor has satisfied an examining board and received its written approval of his qualifications to enter the farm unit awarded.

Procedure after application is approved. Approval by the Board of an application (followed by the filing of water right or water rental application when required) will entitle the applicant to file homestead application at the designated local District Land Office for the farm unit awarded to him. Such homestead application shall be made within a period of time to be specified by the public notice, except in those cases where a preference right is being exercised, in which event the period provided by law for the exercise of the preference right shall control.

Failure to so make such homestead application within the period prescribed will entitle the Board to approve another application for the same unit and continue this procedure, if necessary, until an approved applicant makes a homestead entry.

Order opening lands. Each public notice or order opening project lands will contain detailed instructions as to the qualifications necessary for prospective entrymen, including required standards of industry, experience, character and capital, and the procedures under which such qualifications will be determined.

J. A. KRUG,
Secretary of the Interior.

[P. & S. Docket No. 1246]

ST. LOUIS NATIONAL STOCKYARDS CO.

NOTICE OF PETITION FOR MODIFICATION

By an order entered on May 9, 1946, made pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (U.S.C.A. 181 et seq.), the Secretary of Agriculture prescribed maximum reasonable rates and charges to be observed by the petitioner, St. Louis National Stockyards Company. These rates and charges are to become effective on Saturday, June 8, 1946, thirty (30) days from the date of the order.

By a document filed on May 27, 1946, the St. Louis National Stockyards Company requests a modification of the Secretary's order referred to above to permit it to file a supplement to its tariff increasing its rates and charges for stockyard services as follows:

YARDAGE CHARGES

	Cents per head
A. Livestock sold or resold in the Commission Division:	
Cattle	40
Calves	33
Hogs	18
Sheep and goats	10
B. Livestock received directly by packers through the yards:	
Cattle	25
Calves	17
Hogs	9
Sheep and goats	5

Feed margins. No request was made for an increase in feed margins over and above that which is prescribed in the order of the Secretary dated May 9, 1946.

Livestock resold in other than the Commission Division. No request was made for an increase in rates and charges for livestock resold at the stockyard other than in the Commission Division.

In support of its request for modification, the petitioner states that during December 1945 the St. Louis National Stockyards Company entered into a contract with the livestock handlers of the Amalgamated Meat Cutters and Butcher Workmen of North America, American Federation of Labor, Local Union No. 225, at East St. Louis, Illinois, providing for increases in wages of certain employees of the company. The increases were made effective as of December 2, 1945, and will amount to an increased expense to the Stockyards Company of approximately $105,000 annually. The proposed increases in rates and charges are for the sole purpose of providing additional revenue to the stockyard company to meet its increased expenses due to these wage increases.

Effect of proposed modifications. The effect of such proposed modifications, if granted, would result in additional revenue to the respondent and, accordingly, it appears that public notice should be given to all interested persons, including patrons of the respondent, so that they may have an opportunity to manifest their desire to be heard on this matter.

Therefore, notice is hereby given to the public and to all interested persons of the request of the respondent for a modification of the order of May 9, 1946, and for the purpose of affording the petitioner and all other interested persons, including patrons of the respondent, an opportunity to be heard upon the matters covered in the petition for modification.

All persons who desire to be heard on this matter shall notify the hearing clerk, Office of the Solicitor, United States Department of Agriculture, Washington 25, D. C., within fifteen (15) days from the date of the publication of this order.

Copies hereof shall be served on the petitioner by registered mail, or in person.

Done at Washington, D. C., this 4th day of June 1946.

RECORD OF HOURS WORKED BY UNSUPERVISED EMPLOYEES IN WOODS OPERATIONS ON PULPWOOD

NOTICE OF HEARING ON PROPOSED AMENDMENT

In the matter of the amendment to the record-keeping regulations, Part 516, issued pursuant to authority contained in section 11 (c) of the Fair Labor Standards Act of 1938.

Whereas, on April 19, 1946, the Administrator caused to be published in the FEDERAL REGISTER a notice of opportunity to show cause why the following proposed amendment to Title 29, Chapter V, Code of Federal Regulations, Part 516, issued September 15, 1941, pursuant to authority contained in section 11 (c) of the Fair Labor Standards Act of 1938, should not be adopted by the Administrator:

(b) *Record of hours worked by unsupervised employees engaged in woods operations on pulpwood, including the hauling of pulpwood in or from the woods.* An employer of an employee who is employed in woods operations on pulpwood, including the hauling of pulpwood in or from the woods, away from supervision under circumstances in which it is impracticable or impossible for the employer to ascertain the number of hours worked by the employee in any way other than on the representation of such employee, may instruct and require such employee to enter on an appropriate form, furnished by the employer, the number of hours the employee has worked on each day during the workweek. The employer shall give full and detailed instructions to such employee with respect to the entries to be made on the form to the end that the employee may fully understand the nature and purpose of the report as the basis for determining the straight-time and overtime compensation to be paid to him and the necessity for completeness and accuracy of the entries to be made by the employee. Such a record, when signed by the employee as a true and accurate statement of the hours he has worked, shall be kept and preserved by the employer and, with respect to the hours worked by the employee away from supervision, shall be considered to meet the requirement of these regulations insofar as they require the recording of the hours worked each day, provided that the employer has used such means as are reasonably available to determine that the hours actually worked by such an employee have been accurately recorded.

and

Whereas, within 15 days following the publication of the said notice of opportunity to show cause, the Administrator received objections and requests for hearing,

Now, therefore, pursuant to § 516.19 of regulations, Part 516, notice is hereby given of a public hearing to be held on July 10, 1946 at 10 a. m. in Room 1213 of the office of the Wage and Hour and Public Contracts Divisions, United States Department of Labor, 165 West 46th Street, New York, New York, before a presiding officer to be designated by the Administrator, for the purpose of receiving evidence and hearing argument with respect to whether the proposed amendment shall be adopted by the Administrator, and, if not, whether any alternative amendment concerning the subject matter of the proposal shall be adopted.

Any interested person may appear at the hearing to offer evidence or give testimony provided that not later than July 1, 1946 such person shall file with the Administrator of the Wage and Hour Division, U. S. Department of Labor, 165 West 46th Street, New York 19, New York, a notice of intention to appear containing the following information:

1. The name and address of the person appearing.

2. If he is appearing in a representative capacity, the names and addresses of the persons or organizations which he is representing.

3. Whether he is appearing in support of or in opposition to adoption of the proposed amendment.

Such notice may be mailed to the Administrator and shall be considered filed upon receipt. Written statements in lieu of personal appearance may be mailed to the Administrator at any time prior to the date of hearing or may be filed with the presiding officer at the hearing.

Signed at New York, New York, this 4th day of June 1946.

OFFICE OF PRICE ADMINISTRATION.

[MPR 120, Corr. to Order 1343]

BITUMINOUS COAL IN DISTRICT 8

ESTABLISHMENT OF MAXIMUM PRICES

Order No. 465 under Maximum Price Regulation No. 120 was corrected by order on March 1, 1944; and a review of the maximum prices and mine index numbers contained in that order for the various mines of the applicant, Columbia Coal & Mining Company, has recently been made. It now appears that because of the abandonment of one of its mine openings and an incomplete plan of the former Bituminous Coal Division to reassign one of the index numbers to the Dixie Flash Mine opening on the same property, some confusion has existed in properly identifying coals of the respective mines, and because of this the applicant correctly assumed that Mine Index No. 586 should apply to the Dixie Flash Mine. Therefore, applicant has used this index number throughout the past. The matter is probably further aggravated by the omission of a substitute index number for index "266," which was deleted from Order 465 by the order of correction dated March 1, 1944. Order 465 was subsequently revoked by Order No. 906, which continued the original adjustment. This adjustment was again revoked and further continued by Order No. 1343. In order to prevent further confusion, it is deemed appropriate to make an additional correction by inserting in the presently effective Order No. 1343 the proper maximum prices, the mine name and its index number. The maximum prices for the Dixie Flash Mine will, of course, be the same as those originally intended, and as granted for Mine Index Nos. 826 and 3612.

After due consideration of the foregoing and pursuant to §§ 1340.207 (a) and 1340.210 (a) (6) of Maximum Price Regulation No. 120; *It is ordered:*

Order No. 1343 under Maximum Price Regulation No. 120 is hereby corrected in the following respect:

The following is inserted immediately below mine index number "540" and above mine index number "590" in the following manner:

Mine index No.	Mine name	Subdistrict	Maximum prices and size group numbers for high volatile coal for shipment by rail or river including railroad fuel for all uses													
			1	2	3	4	5	6	7	8	9	10	11-17	18	19	20-21
586	Dixie Flash	1	$4.40	$4.30	$4.30	$4.15	$4.05	$3.75	$3.45	$3.40	$3.35	$4.65	$3.40	$3.30	$3.20	$3.15

A copy of this correction has been filed today with the Secretary of the Office of Price Administration, Washington, D. C., where it is open to inspection by the public.

This correction shall be effective as of April 16, 1945.

Issued this 4th day of June, 1946.

An opinion accompanying this order issued simultaneously herewith has been filed with the Division of Federal Register.

In the judgment of the Regional Administrator of Region III of the Office of Price Administration, the maximum prices established by this order are generally fair and equitable, and are necessary to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328.

Therefore, under the authority vested in the Regional Administrator of Region III of the Office of Price Administration by the Emergency Price Control Act of 1942, as amended and by section 9 of Revised Maximum Price Regulation No. 251, this order is issued.

SECTION 1. *What this order does.* This order fixes maximum prices for all sales of re-roofing when sold installed on residential structures in the Fairmont, West Virginia Area. All other provisions of Revised Maximum Price Regulation No. 251 not inconsistent with this order are applicable to transactions covered by this order.

On and after the effective date of this order, regardless of any contract or other obligation, no person shall contract to sell, offer to sell or deliver re-roofing sold on an installed basis on residential structures as herein defined, at prices higher than the maximum prices established by this order provided that deliveries made not more than thirty days after the effective date of this order on bona fide contracts executed prior to the effective date of this order shall not be considered to be violations of this order.

(b) *Recomputation.* Within 30 days from the completion of the sale of any material and/or service covered by this order for which a price was charged on the basis described in paragraph (a) above, the seller shall check his price by reviewing the categories and other factors used in his estimate on the basis of the actual services rendered and material furnished and shall determine whether the price quoted, charged or collected is higher than the maximum price computed under this order. In the event that the price quoted, charged or collected is higher than the maximum price computed under the terms of this order, the seller shall reduce his price to the proper maximum price and shall refund to the buyer within such period of 30 days after the completion of the service, any excess which may have been collected or, if no excess has been collected, then, by written notice to the buyer, shall cancel the indebtedness of the buyer for any such excess, or both, as the case may require. Such a charge or collection in an amount in excess of the maximum price properly computed in accordance with this order shall not be considered to be a violation of this order if the amount thereof is refunded or credited to the buyer in accordance with this paragraph.

SEC. 5. *Additional, incidental or preparatory construction work.* If, on any job, any installed building materials are furnished or any incidental or preparatory construction services performed by the seller, other than and in addition to re-roofing, the cost of such work shall not be included in the cost of installed re-roofing but shall be separately priced and billed on all invoices. The maximum price of any incidental work shall be determined under Revised Maximum Price Regulation No. 251, or other applicable regulation or order.

SEC. 6. *Measurements.* It shall be the seller's responsibility to measure with reasonable accuracy the area or footage to be covered. At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 5th day of April A. D. 1946.

This proceeding came on for hearing before the Federal Trade Commission on the complaint, answer of respondent, testimony and other evidence, report of the trial examiner, briefs in support of the complaint and in opposition thereto, and oral arguments of counsel. The Commission, after duly considering the matter and finding that the proceeding was in the public interest, made, entered and served upon respondent and duly recorded and filed in the office of the Commission on September 7, 1943, its findings as to the facts, its conclusion drawn therefrom and its order to cease and desist.

Subsequently thereto, and after the statutory time allowed for the filing of a petition for review of said proceeding had expired, the Commission, on the 27th day of March, 1946, duly notified respondent to appear and show cause why this proceeding should not be reopened and the findings of facts and order to cease and desist be altered, modified and set aside, in part, in the manner and terms therein set forth.

Respondent, on the 1st day of April 1946, having filed a waiver of hearing and its consent to the entry of an order modifying the findings of facts and the order to cease and desist in the manner set forth in the order to show cause, and the Commission having duly considered the matter and being now fully advised in the premises, and being of the opinion that the public interest requires that said findings of facts and order to cease and desist be altered, modified and set aside, in part.

It is now ordered, That this proceeding be, and the same hereby is, reopened.

It is further ordered, That the second sentence of the second paragraph of paragraph 7 of the said findings of fact be, and the same hereby is, set aside, and the following finding substituted in lieu thereof:

The Commission is of the opinion, however, and finds that these legends as heretofore used are too inconspicuous and inadequate to adequately explain or qualify the word "Canadian," so as to prevent deception or confusion in the mind of a substantial portion of the public.

It is hereby further ordered, That paragraph 1 of said order to cease and desist be, and the same hereby is, set aside, and the following order substituted in lieu thereof:

Using any brand or trade name containing the word "Canadian" or any simulation thereof, to designate, describe, or refer to any beer or ale which is not brewed in Canada unless accompanied in immediate connection and conjunction therewith by suitable statements clearly, conspicuously and adequately informing prospective purchasers and the public that such beer or ale is brewed in the United States of America; or otherwise representing directly or by implication, that beer or ale which is not brewed in Canada is brewed in that country.

It is further ordered, That the said findings as to the facts and conclusion and order to cease and desist, modified as hereinbefore set forth, shall be as follows:

Modified Findings as to the Facts and Conclusion

PARAGRAPH 1. The respondent, Manhattan Brewing Company, is a corporation organized under the laws of the State of Illinois, with its principal office and place of business located at 3901 Emerald Avenue, Chicago, Illinois. Respondent is now and for a number of years last past has been engaged in the brewing of beer and ale, and in the sale and distribution of such products to wholesale and retail dealers, restaurants, taverns, and other purchasers.

PAR. 2. In the course and conduct of its business respondent causes and has caused its products, when sold, to be transported from its place of business in the State of Illinois to purchasers thereof located in various other States of the United States. Respondent maintains and has maintained a course of trade in its products in commerce among and between various States of the United States.

PAR. 3. Respondent is and at all times mentioned herein has been in substantial competition with other corporations and with partnerships and individuals engaged in the sale and distribution of beer and ale in commerce among and between various States of the United States.

PAR. 4. Among the various brands of beer and ale brewed and sold by respondent is a beer designated by respondent as "Canadian Ace Brand Beer" and an ale designated by respondent as "Canadian Ace Brand Ale." The beer was placed on the market in 1939 and the ale in the early part of 1941. Respondent formerly sold another brand of beer designated by it as "Old Wisconsin Lager Brand Beer." This beer was placed on the market in September 1939, but was discontinued in the spring of 1941.

PAR. 5. Respondent advertises its Canadian Ace Brand beer and ale extensively, most of the advertising being what is known as point-of-sale advertising, that is, advertising supplied to the retail seller for display or distribution to the public. The various advertising media used include menu covers and sheets, table display cards, place cards and coasters, paper table napkins, leaflets, booklets, and large show window placards. Radio advertising has also been employed to a limited extent, and at least one advertisement was inserted in a trade journal having general circulation among beer distributors. In all of this advertising the word "Canadian" or the words "Canadian Ace" have been featured. These words are also featured in the labels on the bottles or other containers in which the beer is packaged and sold.

PAR. 6. The Commission finds that the use by respondent of the word "Canadian" as a part of the brand or trade name for these products constitutes a representation that the products are of Canadian origin, that is, that they are brewed in the Dominion of Canada and imported into the United States. Not only does this conclusion necessarily result from a consideration of the word itself, but it is supported also by the testimony of a number of witnesses at the hearings, including both persons in the trade and members of the purchasing public. Neither the beer nor the ale is in fact brewed in Canada, both being brewed by respondent at its place of business in Chicago along with various other products. The evidence further shows, and the Commission finds, that there is a preference on the part of a substantial portion of the purchasing public for beer and ale which is brewed in Canada over that brewed in the United States, this preference being found particularly in those States of the United States which lie nearest the Dominion of Canada.

PAR. 7. Early in 1940 respondent began placing on its labels the words "Made in the U. S. A.," these words appearing at the lower right-hand corner of the label and being imprinted in white on a red background. In the lower left-hand corner of the label there appear in small type the words "Brewed and Bottled by Manhattan Brewing Co., Chicago, Illinois." Also in some of its advertising material respondent has inserted certain expressions such as "Made in the U. S. A.," and "An American beer in the best Canadian tradition." Some of the advertising also carries a picture of the bottle showing the current label.

It is urged by respondent that the use of these words on the labels and in the advertising, particularly the use on the labels of the words "Made in the U. S. A.," is sufficient to correct any erroneous impression which might otherwise be conveyed through the use of the word "Canadian," and that in consequence, there is no deception of the public. The Commission is of the opinion, however, and finds that these legends as heretofore used are too inconspicuous and inadequate to adequately explain or qualify the word "Canadian", so as to prevent deception or confusion in the mind of a substantial portion of the public.

PAR. 8. The Commission finds further that the former use by respondent of the word "Wisconsin" as a part of the brand name for one of its products constituted a representation that the beer so designated was brewed in the State of Wisconsin. This beer was not in fact brewed in Wisconsin but was brewed by respondent at its place of business in Chicago. There is a preference on the part of a substantial portion of the purchasing public for beer which is brewed in Wisconsin over that having its origin in other States of the United States.

PAR. 9. In connection with the sale of its Canadian Ace Brand beer and ale, respondent has also made use of a crest simulating the British Royal Coat of Arms, such crest being displayed both in certain of respondent's advertising material and in the labels of the bottles. The use of this crest constituted a representation that respondent was a Royal Warrant holder, enjoying the patronage of the British Royal Family or some member thereof, and was therefore entitled to display the British Royal Coat of Arms on its products. Respondent has not at any time been a Royal Warrant holder and was not authorized to make use of such crest. There is a preference on the part of a substantial portion of the purchasing public for merchandise bearing the British Royal Coat of Arms. In 1942 respondent made material changes in the crest, with the result that the similarity between the crest and the British Royal Coat of Arms was eliminated.

PAR. 10. The Commission finds further that the use by respondent of the word "Canadian" and the word "Wisconsin" in designating and describing its products, and the use of the crest simulating the British Royal Coat of Arms, as herein set forth, has or has had the tendency and capacity to mislead and deceive a substantial portion of the purchasing public with respect to the origin of such products and with respect to respondent's business identity and status, and the tendency and capacity to cause such portion of the public to purchase substantial quantities of respondent's products as a result of the erroneous and mistaken belief so engendered. In consequence thereof, substantial trade has been diverted unfairly to the respondent from its competitors, among whom are many who do not use the practices and methods herein described.

Conclusion

The acts and practices of the respondent as herein found are all to the prejudice of the public and of respondent's competitors, and constitute unfair methods of competition in commerce within the intent and meaning of the Federal Trade Commission Act.

Modified Order to Cease and Desist

It is ordered, That the respondent, Manhattan Brewing Company, a corporation and its officers, agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution of respondent's beer and ale in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using any brand or trade name containing the word "Canadian" or any simulation thereof, to designate, describe, or refer to any beer or ale which is not brewed in Canada unless accompanied in immediate connection and conjunction therewith by suitable statements clearly, conspicuously and adequately informing prospective purchasers and the public that such beer or ale is brewed in the United States of America; or otherwise representing directly or by implication, that beer or ale which is not brewed in Canada is brewed in that country.

2. Using any brand or trade name containing the word "Wisconsin", or any simulation thereof, to designate, describe, or refer to any beer which is not brewed in the State of Wisconsin; or otherwise representing, directly or by implication, that beer which is not brewed in Wisconsin is brewed in that State.

3. Representing, directly or by implication, that beer or ale brewed in the United States is imported from any foreign country.

4. Using any pictorial representation which simulates in appearance the British Royal Coat of Arms.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this modified order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

An opinion by Commissioner Mason, and a dissenting opinion by Commissioner Ayres, concurred in by Commissioner Davis, are attached.[1]

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827 and Pub. PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 33, Direction 1, as Amended June 6, 1946]

LUMBER, HARDWOOD FLOORING AND MILLWORK

Direction 1 to Priorities Regulation 33 is hereby amended to read as follows:

The fulfilment of requirements for the defense of the United States has created a shortage in the supply of lumber and millwork for defense, for private account and for export; and the following direction is deemed necessary and appropriate in the public interest and to promote the national defense:

(a) *What this direction does.* Priorities Regulation 33 and Direction 8 to Priorities Regulation 33 provide for the assignment to builders, prefabricators and others, of priorities assistance to secure materials listed on Schedule A of Priorities Regulation 33 and List I of Direction 8 to Priorities Regulation 33, which are required for use in the Veterans' Emergency Housing Program. Among these items are lumber, hardwood flooring and millwork. This direction provides that sawmills shall produce a percentage of their total production of lumber in housing construction lumber and hardwood flooring lumber and hold as a reserve for certified orders from distributors, office wholesalers, millwork manufacturers, hardwood flooring manufacturers and prefabricators, as well as rated orders from housing contractors and other consumers. It applies to all sawmills and to lumber distributors, office wholesalers, millwork manufacturers, hardwood flooring manufacturers, prefabricators and housing contractors, and other consumers who have been assigned priorities assistance. It explains how such persons may obtain lumber or lumber products for the purpose for which the priorities assistance was granted and how delivery on such orders must be made. It also provides that the Civilian Production Administration may issue directives to allocate production, direct shipments, and direct or prohibit production of particular items.

This direction does not apply to lumber other than housing construction lumber and hardwood flooring lumber, and all such lumber must be sold and delivered in accordance with Priorities Regulation 1.

DEFINITIONS

(b) *Definitions for the purpose of this direction.* (1) "Lumber" means any sawed lumber of any species, size or grade, including rough, surfaced on one or more sides or edges, dressed and matched, shiplapped, worked to pattern, or grooved for splines, except (i) shingles, slabs and round edge lumber; (ii) mine and railway cross ties nine feet or less in length; (iii) any segment of a log which has been produced so that it can be converted into veneer and which is sold and used for that purpose.

(2) "Distributor" means any person who buys and stocks lumber for resale as lumber either at wholesale or retail. A distributor who has two or more distinct and separate yards must for the purpose of this direction, consider each yard a "distributor".

(3) "Housing construction lumber" means softwood lumber in the form of flooring, ceiling, siding, partition, casing, base, moulding stock, strips and boards, two-inch dimension, finish, shop and lath.

(4) "Millwork" means windows, sash, doors; window sash and door frames; window and door screens; out stock for foregoing items; trim, mouldings, built-in kitchen cabinets and other built-in millwork items suitable for authorized housing construction under Priorities Regulation 33.

(5) "Hardwood flooring lumber" means Grades 2 and 3a, rough, in all thicknesses of Oak, Pecan and Beech, in 4/4 and 8/4 thicknesses of Hard Maple and 4/4 and thinner thicknesses in Birch.

(6) "Sawmill" means: (i) any mill or plant, stationary or portable; (ii) any plant or concentration yard which processes (by drying, resawing, edging, grading, sorting, planing, or otherwise) 25 percent or more of the total volume of logs and lumber which it receives, into an item which is defined as lumber. However, the term "sawmill" does not include any establishment known in the trade as a distribution yard engaged in either retail or wholesale business even though it may process, for the servicing of special orders from consumers, more than 25 percent of the lumber it receives.

(7) "Housing contractor" means a builder (applicant) who has been directly assigned an HH rating under Priorities Regulation 33. It also includes a general contractor who has been directly authorized by such a builder to use the HH rating for the whole job. It does not include a subcontractor authorized to us the HH rating for a part of the job.

(8) "Millwork manufacturer" means a person who consumes a softwood lumber in the manufacture of millwork.

(9) "Hardwood flooring manufacturer" means a person who consumes hardwood flooring lumber in the manufacture of standard hardwood flooring.

(10) "Office wholesaler" means a person who buys lumber for resale but does not stock lumber.

(11) "Certified order" is any order for the delivery of lumber bearing the certificate described in paragraph (1).

(12) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(13) "Prefabricator" means a person engaged in the manufacture of prefabricated houses, panels or sections who has been directly given priorities assistance on Form CPA-4415 to build prefabricated houses, panels or sections.

SAWMILLS

(c) *Sawmill reserve production.* The following provisions will govern the amount of housing construction lumber sawmills shall produce and reserve for certified and rated orders.

(1) Each sawmill as described in paragraph (b) (6) above, shall reserve in his over-all production of lumber in footage for the month of June, 1946, and for each calendar month thereafter, time and supplies sufficient to produce and deliver on certified or rated orders within such month at least 50 percent of his expected monthly production of softwood lumber in the form of housing construction lumber, and 100 percent of the Grades 2 and 3a rough, in all thicknesses of Oak and Pecan; 100 percent of Grades 2 and 3a rough, in 4/4 and 8/4 thicknesses of Hard Maple; 25 percent of Grades 2 and 3a rough, in all thicknesses of Beech; and 25 percent of Grades 2 and 3a rough, in 4/4 and thinner thicknesses of Birch.

The Civilian Production Administration may from time to time, change such percentage by publication in the Federal Register prior to the first day of any month.

(2) Where it is the customary practice of a sawmill to season lumber as described in paragraphs (b) (3) and (b) (5) by air drying, the lumber properly piled for seasoning and carried in inventory for this purpose will not be considered as produced until seasoned for the customary period.

(3) This direction does not prevent the free movement of softwood or hardwood lumber between sawmills. However, a sawmill that delivers all or any part of his lumber to another sawmill must still manufacture the percentage required under paragraph (c) (1) above, of his softwood or hardwood production into housing construction lumber or hardwood flooring lumber. A sawmill receiving housing construction lumber or hardwood flooring lumber from another sawmill must hold such lumber for sale on certified or rated orders in addition to his own reserve production. A sawmill delivering housing construction lumber or hardwood flooring lumber to another sawmill may credit against his reserve production under paragraph (c) (1) above the amount of housing construction lumber or hardwood flooring lumber so delivered.

(4) Every sawmill must hold his reserve production until the last day of each month for delivery on certified or rated orders and must accept and ship such orders for delivery in that month in preference to all other orders to the extent that such orders do not require more than the sawmill's monthly reserve production. The order of precedence for filling certified and rated orders is given in paragraph (m) (1) below. A sawmill, however, must not accept for delivery in any month orders rated MM for more housing construction lumber or hardwood flooring lumber than 5 percent of his reserve production for that month except on special authorization from the Civilian Production Administration. When a sawmill has accepted certified or rated orders for housing construction lumber or hardwood flooring lumber to the extent of his reserve, he must not accept additional certified or rated orders (except AAA), for housing construction lumber or hardwood flooring lumber produced in that month. Any portion of the sawmill's production of housing construction or hardwood flooring lumber not required to fill certified or rated orders received during the month, may be sold only on uncertified and unrated (except AAA) orders.

(5) *Certified orders.* The following types of certified orders placed with the sawmill will be accorded the treatment provided for in paragraph (c) (4) above, and shipments on such orders may be credited against the percentage the sawmill is required to produce and reserve each month: Certified orders from (i) distributors; (ii) millwork manufacturers; (iii) hardwood flooring manufacturers; (iv) office wholesalers; (v) prefabricators.

DISTRIBUTORS

(d) *Distributors.* The following provisions tell how lumber distributors may place certified orders for housing construction lumber and how lumber so obtained may be sold:

(1) Any distributor may place certified orders for delivery each month for housing construction lumber with a sawmill, a distributor who sells at wholesale or an office wholesaler for one of the following amounts whichever is greater: (i) starting with the month of June an amount of housing construction lumber not exceeding 7 percent of the amount in footage of his inventory of all softwood lumber as of January 1, 1942, or (ii) two carloads of housing construction lumber in any calendar quarter at the rate of not more than one carload in any month of the quarter.

(2) Every distributor must reserve 75% of the lumber received in any month on certified orders for delivery on certified and rated orders. A distributor must accept all certified and rated orders up to the reserve quantities which are received before the end of the month regardless of whether such orders call for delivery within that month. A distributor, however, may not accept for delivery in any month orders rated MM for more housing construction lumber than 10% of the quantity reserved in that month. In addition, he must not accept certified or rated orders (except AAA) for a quantity in excess of the reserve. Any lumber received on certified orders which a distributor is not required to reserve and any lumber in the reserve for which certified and rated orders are not received during the month, may be delivered by a distributor only on uncertified and unrated (except AAA) orders.

(3) A distributor may not use MM, CC or HH rated orders to get housing construction lumber from a supplier to fill a rated order for housing construction lumber, and he may not use an MM, CC or HH rating to replace in inventory housing construction lumber delivered from inventory on an MM, CC or HH rated order.

OFFICE WHOLESALER

(e) *Office wholesaler.* (1) An office wholesaler receiving certified orders from a distributor, millwork manufacturer, hardwood flooring manufacturer, or prefabricator, may place certified orders with the sawmill for an amount of housing construction lumber or hardwood flooring lumber not in excess of the amount called for by the certified orders which he has received.

(2) An office wholesaler receiving AAA, MM, CC or HH rated orders for not less than carload lots of housing construction lumber or hardwood flooring lumber may extend the rating on such orders to the sawmill for direct mill shipments.

MILLWORK MANUFACTURERS

(f) *Millwork manufacturers.* The following provisions tell how millwork manufacturers may place with a sawmill, an office wholesaler or a distributor certified orders for housing construction lumber and how such lumber shall be used, and the millwork sold:

(1) Any millwork manufacturer may place certified orders for delivery in each month starting with the month of June, 1946, for housing construction lumber with a sawmill, an office wholesaler or a distributor for an amount in footage not exceeding 8 percent of the amount in footage of softwood lumber consumed by him in the manufacture of millwork in the year 1940.

(2) A millwork manufacturer must use each month a quantity of lumber equal to all housing construction lumber received on certified orders for the manufacture of millwork. Every millwork manufacturer must reserve 75 percent of the millwork so manufactured for delivery on certified or rated orders. He must accept certified or rated orders up to the reserve which are received before the end of the month, regardless of whether such orders call for delivery within the month. A millwork manufacturer, however, may not accept for delivery in any month orders rated MM for more millwork than 10% of the quantity reserved in that month. In addition, he must not accept certified and rated orders for a quantity in excess of the reserve. Any millwork which the millwork manufacturer is not required to reserve and any millwork in the reserve for which certified and rated orders are not received during the month in which it is manufactured, may be delivered by the millwork manufacturer only on uncertified and unrated (except AAA) orders.

(3) A millwork manufacturer placing certified orders under paragraph (f) (1) above for delivery of housing construction lumber, who receives a rated order (except AAA) for millwork, may not extend the rating to a supplier to get housing construction lumber.

(4) A person not authorized as a millwork manufacturer to place certified orders under paragraph (f) (1) above, who has received an AAA, MM, CC or HH rated order for millwork, may extend the AAA, MM, CC or HH rating to his supplier, except to a sawmill, to get housing construction lumber to be incorporated in the millwork which he will deliver on that order, subject to the applicable inventory regulations.

HARDWOOD FLOORING MANUFACTURERS

(g) *Hardwood flooring manufacturers.* The following provisions tell how hardwood flooring manufacturers may place with a sawmill or office wholesaler certified orders for hardwood flooring lumber and how such lumber shall be used and the hardwood flooring sold:

(1) Hardwood flooring manufacturers may place certified orders for delivery each month starting with the month of June, 1946, with a sawmill or with an office wholesaler for hardwood flooring lumber for an amount in footage not to exceed 8 percent of the amount of footage of hardwood flooring lumber consumed in the manufacture of hardwood flooring in the year 1940.

(2) A hardwood flooring manufacturer shall use each month a quantity of hardwood lumber equal to all hardwood flooring lumber received on certified orders for the manufacture of hardwood flooring. Every hardwood flooring manufacturer must reserve 75 percent of the hardwood flooring so manufactured during that month for delivery on certified or rated orders. He must accept certified or rated orders up to the reserve which are received before the end of the month, regardless of whether such orders call for delivery within the month. A hardwood flooring manufacturer, however, may not accept for delivery in any month orders rated MM for more hardwood flooring than 10% of the amount reserved in that month. In addition, he must not accept certified and rated orders for a quantity in excess of the reserve. Any hardwood flooring which the hardwood flooring manufacturer is not required to reserve and any hardwood flooring in the reserve for which certified and rated orders are not received during the month it is manufactured, may be delivered by hardwood flooring manufacturer only on uncertified and unrated (except AAA) orders.

(3) Hardwood flooring manufacturers receiving rated orders (except AAA) for hardwood flooring may not extend the ratings to a supplier to get hardwood flooring lumber.

HOUSING CONTRACTORS

(h) *Housing contractors.* The following provisions tell how a housing contractor may place with a sawmill distributor or office wholesaler HH rated orders for housing construction lumber:

(1) A housing contractor who has an HH rating may apply the HH rating on orders for housing construction lumber to a distributor, or he may place HH rated orders for delivery each month starting with the month of June, 1946, with a sawmill or with an office wholesaler for housing construction lumber for an amount in footage not in excess of the total lumber required to meet his construction schedule for housing for which he has received priorities assistance under PR-33. Rated orders may be placed with a sawmill or with an office wholesaler for housing construction lumber only to the extent that other rated orders have not been placed with distributors for authorized amounts. The housing contractor must not specify delivery dates on rated orders more than 30 days before the time that the housing construction lumber is needed for incorporation into housing. Furthermore, the housing contractor must not place rated orders for housing construction lumber in which is specified a delivery date later than during the third calendar month after the time when the purchase order was placed.

(2) The housing contractor must use the housing construction lumber obtained on rated orders in the construction of housing for which the priorities assistance was authorized.

PREFABRICATORS

(i) *Prefabricators.* The following provisions tell how a prefabricator may place certified orders for housing construction lumber, millwork or hardwood flooring:

(1) A prefabricator may place certified orders for housing construction lumber with a sawmill, distributor or office wholesaler, for millwork with a millwork manufacturer, and for hardwood flooring with a hardwood flooring manufacturer, for an amount not in excess of the total amount of housing construction lumber, millwork or hardwood flooring required to meet a quarterly production schedule for prefabricated houses, panels or other sections for which he has received priorities assistance on Form CPA-4415. A prefabricator must not specify delivery dates (at plant or warehouse) on certified orders more than 30 days before the time the housing construction lumber, millwork or hardwood flooring is needed for incorporation into the prefabricated houses, panels or sections. Furthermore, a prefabricator must not place certified orders for housing construction lumber, millwork or hardwood flooring

in which is specified a delivery date later than during the third calendar month after the time when his purchase order is placed.

(2) A prefabricator must use the housing construction lumber, millwork or hardwood flooring obtained on certified orders for the purposes for which priorities assistance has been granted under Direction 8 to Priorities Regulation 33.

(3) A prefabricator may not apply or extend an HH rating for housing construction lumber, millwork or hardwood flooring.

INTEGRATED SAWMILLS

(j) *Sawmills that are also prefabricators, millwork or hardwood flooring manufacturers.* If a person engaged in operating a sawmill is also engaged in manufacturing prefabricated houses, panels or sections, millwork or hardwood flooring, he may transfer housing construction lumber or hardwood flooring lumber from his sawmill to his manufacturing operation provided he is permitted to place monthly certified orders for housing construction lumber, millwork or hardwood flooring lumber. The transfer from the sawmill must be treated as delivery on a certified order and he must keep records of the transfer in his sawmill files and endorse the appropriate certificate on his records.

A person making a transfer permitted in the above paragraph must use or dispose of the housing construction lumber, millwork or hardwood flooring lumber transferred to his manufacturing operation in conformity with the applicable paragraphs above.

NEWCOMERS

(k) *Persons not established as distributors, millwork manufacturers or hardwood flooring manufacturers.* (1) Any person who was not on January 1, 1942, a lumber distributor and wants permission to place monthly certified orders for an amount of housing construction lumber in excess of two carloads of housing construction lumber in any calendar quarter at the rate of not more than one carload in any month of the quarter, may apply by letter to the Civilian Production Administration.

(2) Any person who was not, in the year 1940 a millwork or hardwood flooring manufacturer, and wants permission to place monthly certified orders may apply by letter to the Civilian Production Administration.

(3) Any person applying by letter under subparagraph (1) or (2) above should state how much housing construction lumber or hardwood flooring lumber he needs each month, proximity of his place of business to similar businesses, and any other information to help the Civilian Production Administration decide what amount of housing construction lumber or hardwood flooring lumber is needed by him to engage in business. Such application will be processed in an equitable manner.

CERTIFICATION ON ORDERS

(l) *Certification on orders.* To certify an order for housing construction lumber or hardwood flooring lumber or millwork or hardwood flooring under this direction, the following certificate must be endorsed on or attached to the purchase order, sales ticket or other delivery orders. Certificates must be signed manually or as explained in Priorities Regulation 7. However, the standard form described in that regulation may not be used in place of certificate described in this direction. The certification required by this direction may not be waived under paragraph (f) or Priorities Regulation 7. The Serial Number must be inserted by persons holding authorizations on Form CPA-4386 or Form CPA-4415 in the place provided in the certificate. Orders placed verbally must be confirmed immediately and the confirmation must bear the appropriate certificate. The certificate must be substantially as follows:

The undersigned certifies to the supplier and to the Civilian Production Administration that he is a (distributor, millwork manufacturer, hardwood flooring manufacturer, prefabricator, office wholesaler) and that the quantities of housing construction lumber or hardwood flooring lumber or millwork or hardwood flooring covered by this order (together with all other certified orders for the particular material for delivery in the month specified in this order) do not exceed the amount permitted under Direction 1 to Priorities Regulation 33 with the provisions of which he is familiar.

MISCELLANEOUS

(m) The following provisions generally affecting sawmills, distributors, millwork manufacturers, hardwood flooring manufacturers, prefabricators, housing contractors, and office wholesalers, should be carefully read:

(1) *Status of certified orders.* Certified orders for the purpose of this direction shall be subject to the rules for acceptance and rejection of rated orders as provided in Priorities Regulation 1 except as modified in this direction. The order of precedence is (subject to any provision limiting the quantity of orders that need be accepted) as follows:

(i) At sawmill: (i) AAA; (ii) MM; (iii) certified; (iv) CC and MH;

(ii) At a supplier other than a sawmill: (i) AAA; (ii) MM; (iii) CC, MH and certified orders which are of equal value.

(2) *Applicability of regulations.* Except as otherwise required by this direction, Priorities Regulations 1 and 3 continue to govern the use of ratings and the acceptance, scheduling and filling of orders placed with distributors and sawmills. All other applicable regulations and orders of the Civilian Production Administration must be observed where not inconsistent with this direction.

(3) *Extension of preference ratings.* For the purpose of this direction the extendibility of ratings (except AAA) is governed by paragraphs (d), (e), (f), (g) and (h) which rules supersede paragraphs (d) and (d-1) of Priorities Regulation 3.

In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(5) *Reports.* Every person shall file with the Civilian Production Administration, or any other federal agency, through which the Civilian Production Administration may distribute housing construction lumber, such reports and questionnaires as the Civilian Production Administration or such other agency may from time to time require subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(6) *Directives.* The term "directive" as used in this direction means written instructions to a specific person regarding the manufacture, delivery, or use of lumber, millwork or hardwood flooring. The Civilian Production Administration may issue directives requiring sawmills, millwork manufacturers or hardwood flooring manufacturers or distributors to set aside specific quantities or percentages of production or shipments for persons placing certified or rated orders. It may also allocate production or shipments to specified persons for specified uses, and may direct how and in what quantities deliveries to specified persons or uses may be made. It may also direct distribution to particular areas and may direct or prohibit the production by any person of particular items of lumber, millwork or hardwood flooring. Directives supersede any preference ratings (except AAA) or certifications assigned to particular purchase orders or contracts. They may be issued for the satisfaction of Veterans' Emergency Housing Program and essential civilian requirements, and in order to carry out more fully the purposes of this direction.

(7) *Appeals.* Any appeal from the provisions of this direction should be made by mailing a letter in triplicate to the Civilian Production Administration, Forest Products Division, Washington 25, D. C., Ref.: Direction 1 to Priorities Regulation 33, stating the particular provision appealed from and stating fully the grounds for the appeal.

PART 1351—FOOD AND FOOD PRODUCTS

[MPR 53,[1] Amdt. 60 (§ 1351.151)]

FATS AND OILS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Section 9.2 (f) of MPR 53 is amended to read as follows:

(f) *Castor Oil or castor beans to be imported into the continental United States.* (1) Except as hereinafter provided no person in the course of trade or business shall import (buy, receive, or in any manner pay for and bring in, deliver or cause to be brought into the continental United States) castor beans or castor oil at prices higher than the following:

(i) $118.00 per long ton (2240 pounds) of castor beans c. i. f. first United States point or port of arrival, Atlantic or Gulf coasts.

(ii) $120.18 per long ton (2240 pounds) of castor beans, c. i. f. first United States point or port of arrival, Pacific Coast.

(iii) 11.15 cents per pound c. i. f. first United States point or port of arrival for No. 1 castor oil.

(iv) 10.85 cents per pound c. i. f. first United States point or port of arrival for No. 3 castor oil.

(2) The word "person" as used in this section 9.2 (f) means the first consignee of the imported castor beans or castor oil in the continental United States.

(3) The above prices include foreign export duties of taxes, freight to the point or port of arrival within the United States, brokerage, marine insurance and all other charges except applicable United States duties.

These maximum importing prices do not apply to castor beans or castor oil on the high seas en route to the United States on February 13, 1946.

Contracts for castor oil and castor beans entered into prior to February 13, 1946, under which the importing price is higher than the price established by this section 9.2 (f) may be carried out at the contract price where such contract or contracts are accompanied by an unexpired irrevocable letter or letters of credit having a definite expiration date and where such letter or letters of credit were issued prior to February 13, 1946. Such contracts may be carried out until the expiration date of such letter or letters of credit and any such contract may be extended after its expiration date if complete shipment has not been received pursuant to it.

Where a contract is excepted by this subsection the importer shall file a copy of said contract and the accompanying letter or letters of credit with the Fats and Oils Section, Food Price Division, Washington, D. C., within two weeks of June 11, 1946.

After the importer has received the final shipment called for in such excepted contract, he shall report such receipt to the Fats and Oils Section, Food Price Division, Washington, D. C., within two weeks of the receipt of the final shipment, stating that the total amount received did not exceed the quantity specified in such excepted contract.

Every person importing castor beans or oil into the continental United States after June 11, 1946, shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, accurate records of each importation including the date of the contract, the name of the foreign supplier, the price paid and the grade, quality and amount purchased.

PART 1356—COOKERS AND HEATERS

[MPR 64, Amdt. 7]

DOMESTIC COOKING AND HEATING STOVES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 64 is amended in the following respects:

1. Section 2 is amended to read as follows:

SEC. 2. *Persons and transactions covered.* (a). This regulation covers all sales of domestic cooking and heating stoves by a manufacturer to any person. As used in this regulation, a "manufacturer" of a particular stove is (1) a person who operates a factory in which the stove is assembled or manufactured, or (2) a person who regularly sells the stove under a private brand to distributors or jobbers or wholesalers.

Under the circumstances set forth in section 11 of this regulation, an order under this regulation may establish maximum prices for sales of stoves by wholesalers and retailers. Ceiling prices for sales by persons other than manufacturers are governed by the General Maximum Price Regulation or Maximum Price Regulation No. 210 as modified by the provisions of this regulation and orders issued under it.

(b) The word "person" includes an individual, corporation or any other organized group, their legal successors or representatives, the United States or any Government or any of their political subdivisions.

2. Section 7 (a) (1) is amended to read as follows:

(1) Find the model of stove for which you have a ceiling price which is comparable to the stove being priced. The "comparable" model is the one which is like the stove being priced in design, construction, process of manufacture and fuel type, and which is closest to it in unit direct cost. If a stove on which "minor changes" have been made is subsequently used as the "comparable" model the cost for the "comparable" model shall be computed on the basis of the cost to make the stove without the "minor changes". If the changes in the new model include minor changes, the cost of the new model shall be computed on the basis of the cost to make it without the minor changes.

3. Section 8b is amended to read as follows:

SEC. 8b. *Manufacturers' reconversion increases of certain ceiling prices*—(a) *Stoves other than electric ranges.* This paragraph authorizes certain reconversion adjustments of ceiling prices by manufacturers of stoves other than electric ranges. As used in this regulation the term "electric ranges" includes electric combination ranges. An electric combination range is one which consists of an electric range with three or more top burners or two or more top burners and an oven or broiler burner, in combination with another unit which uses a fuel other than electricity. Combination stoves which include less than three electric top burners, or less than two top burners and an oven or broiler burner are not electric combination ranges. Unless directed otherwise by an order issued under this section by the Office of Price Administration every manufacturer of stoves other than electric ranges may adjust his ceiling prices for his sales of such stoves to persons other than ultimate consumers which have been established under sections 3, 4, 5, 7, or 8 of the regulation, by adding to that price an amount equal to five percent of that price.

The five percent adjustment charge permitted by this section is hereby designated as the "OPA industry reconversion increase".

(b) *Electric ranges.* This paragraph authorizes a reconversion adjustment of ceiling prices by manufacturers of electric ranges. Unless directed otherwise by an order issued by the Office of Price Administration under this section, every manufacturer of electric ranges covered by this regulation may adjust his f. o. b. factory ceiling prices (exclusive of the Federal excise tax) for sales to persons other than ultimate consumers established under sections 3, 4, 5, 7, or 8 of the regulation by adding to that price an amount equal to eleven percent of that price. The increase granted by this paragraph is hereby designated as the "OPA industry electric range reconversion increase".

(c) *"Additional OPA industry reconversion increase" of manufacturers' ceiling prices.* This paragraph authorizes an "additional OPA industry increase" by manufacturers of their ceiling prices for stoves other than electric ranges. Unless directed otherwise by an order issued under this regulation by the Office of Price Administration, every manufacturer of any stoves covered by this regulation other than electric ranges may further adjust any ceiling price for his sales which has been adjusted under section 8b (a) of this regulation by adding to that price an amount equal to 7.6 percent of that price. The increase granted by this paragraph is hereby designated as the "additional OPA industry reconversion increase". Thus the total increase granted under this section 8b to manufacturers of stoves other than electric ranges over their ceiling prices established under sections 3, 4, 5, 7, or 8 is 13 percent.

(d) *Denial of the industry reconversion increase by order.* Orders will be issued under this section denying a manufacturer permission to adjust his ceiling prices by all or part of the increases granted under this section when it appears to the Price Administrator on the basis of the manufacturer's production reports as filed under Supplementary Order No. 146 and other information available to the Office of Price Administration, that the manufacturer has discontinued production of his low-end model of any type of stove which he produces or has decreased the proportion of low priced to high priced models of each type of stove which he manufactures so that his present production is not representative of his production in that respect of those stoves during the year July 1, 1940 through June 30, 1941. The average price at which the manufacturer's production of each type of stove will be sold will be considered in determining how much, if any, of the increase will be granted to such a manufacturer.

(e) *Notification.* At the time of or prior to the first invoice to each purchaser for resale of a stove sold on or after June 7, 1946 at a price which includes any part of the adjustments granted by this section the manufacturer shall notify the purchaser in writing that the price the manufacturer is charging includes an adjustment under section 8b and that the purchaser for resale must find his ceiling prices under section 11a if he is a wholesaler, or under section 11b if he is a retailer. If the stove is an electric range the manufacturer must also notify each wholesale distributor of the retail ceiling prices which he has determined for the range under the provisions of sections 11b or 11e of this regulation.

4. Section 9 is amended to read as follows:

SEC. 9. *Sales to the United States and Allied Governments*—(a) *Sales to the United States and Allied Governments of stoves for which the manufacturer has established ceiling prices.* The ceiling price for sales by a manufacturer to any agency of the United States Government or of any Allied Government of any stove covered by this regulation shall be the manufacturer's lowest ceiling price for sales of the stove f. o. b. factory to a wholesale distributor, or if he has no ceiling price for sales to a wholesale distributor, his lowest ceiling price for sales f. o. b. factory to any reseller. The ceiling prices so determined may be increased by the manufacturer's customary charge for service if the agency purchasing the stove requires the seller to service it for a period of one or more years.

(b) *Ceiling prices requiring prior approval under this regulation.* A manufacturer may sell and deliver and tentatively collect a price for any stove which he sells directly to any agency of the United States Government or of any Allied Government without prior approval of the Office of Price Administration when such prior approval would otherwise be required under the applicable pricing method. The manufacturer must, however, inform the buyer that the ceiling price is still to be established under this regulation and must refund any amount he collected which is in excess of the ceiling price approved for the sale by the Office of Price Administration. Within ten days after the manufacturer has entered into a contract for such a sale, he must file a report or an application as provided in section 7 or 8.

5. Section 11a is amended to read as follows:

SEC. 11a. *Reconversion adjustments of wholesale ceiling prices.*—(a) *Stoves other than electric ranges.* A wholesale distributor shall determine his adjusted ceiling prices for his sales of any stove other than an electric range which the manufacturer sells to him at a price which includes any part of the increases permitted by sections 8b (a) and 8b (c) as follows:

(1) If his ceiling price for the same stove was established or determined before June 7, 1946 under the General Maximum Price Regulation, Maximum Price Regulation No. 210 or an order under section 11 of this regulation, or if his ceiling price is determined under section 1499.2 of the General Maximum Price Regulation on or after June 7, 1946 he shall redetermine that ceiling price by subtracting from the ceiling price so established or determined the amounts included therein on account of the "OPA industry reconversion increase" and the Federal excise tax, increasing the result by 9.0 percent, and adding thereto the dollar-and-cent amount of any Federal excise tax paid by the manufacturer on the stove.

(2) If he establishes his ceiling price on or after June 7, 1946 under a provision which requires him to compute his ceiling prices on the basis of cost, he shall use as his cost for that purpose his supplier's ceiling price not including the "OPA industry reconversion increase" of 5 percent or the "additional OPA industry reconversion increase" of 7.6 percent allowed the manufacturer by sections 8b (a) and 8b (c) of this regulation or any amount included therein on account of the Federal excise tax. To the ceiling price so computed he may add an amount equal to 9.0 percent of that price and the exact amount of any Federal excise tax paid on the stove by the manufacturer.

(3) If his ceiling prices are established on or after June 7, 1946 by an order under section 11 of this regulation or under § 1499.3 (e) of the General Maximum Price Regulation or by an approval under § 1499.3 (c) of the same regulation, and the order or approval does not specifically authorize the addition of an adjustment under this section to the wholesale distributor's ceiling prices, his ceiling prices under this section are those established by the order or approval.

(4) If hs ceiling prices are established on or after June 7, 1946 under § 1372.103 of Maximum Price Regulation No. 210, his ceiling prices under this section are those he established under § 1372.103 of Maximum Price Regulation No. 210.

(b) *Electric ranges.* A wholesale distributor's ceiling prices for sales of a particular model of electric range to a particular class of purchaser is that established by an order issued under section 11 of this regulaton after June 6, 1946. A wholesale distributor of electric ranges who has ceiling prices established for his sales of a particular range by an order under section 11 of this regulation issued before June 7, 1946, shall determine his adjusted ceiling prices for his sales of any such electric range which the manufacturer sells to him at a price which includes any part of the adjustment permittted by section 8b (b) in accordance with the first applicable rule of the following contained in this section:

Rule 1. A wholesale distributor's ceiling price for sales in each zone of each model to retail dealers who provide consumers purchasing from them with delivery, installation and the servicing necessary to comply with the first year warranty shall be the price which will yield the wholesale distributor the same percentage of the total dollar margin between the manufacturer's ceiling price to him (including the Federal excise tax) and the dealer's ceiling price (including the Federal excise tax) for resales to ultimate consumers in that zone as he received during the period May 7, 1946 to June 6, 1946 in connection with the sale of the most "comparable" model sold by him to the same class of purchaser. To be "comparable" a model must be one produced by the same manufacturer. A wholesale distributor determining his ceiling prices under this rule shall calculate his ceiling prices for sales to other classes of purchasers on the basis of the differentials which he had on sales of the comparable model to different classes of purchasers.

Example: A distributor who sold Model X produced and sold by manufacturer Y during the period May 7, 1946 to June 6, 1946 to servicing dealers at a dollar-and-cent ceiling price established by an order under Maximum Price Regulation No. 64 computes his ceiling prices for resales of the Model X electric range as follows:

Retail ceiling price in the distributor's zone including the Federal excise tax	$210.00
Retail ceiling price in distributor's zone, exclusive of Federal excise tax	200.00
Manufacturer's ceiling price, f. o. b. factory to distributors on April 30, 1946, exclusive of the Federal excise tax	100.00
Gross dollar margin	100.00
Distributor's ceiling price exclusive of the Federal excise tax to servicing dealers on May 15, 1946	125.00
Amount of total dollar margin received by the distributor	25.00
Percent of gross margin	25%
Manufacturer's ceiling price to distributors adjusted under section 8b (b)	111.00
Retail ceiling price under section 11b exclusive Federal excise tax	204.00
Gross dollar margin	93.00
Portion taken by distributor (25% of $90.00)	23.25
Distributor's new ceiling price exclusive of the Federal excise tax to servicing dealers	134.25
Distributor's new ceiling price to servicing dealers including the Federal excise tax	145.35

Distributor may determine his ceiling price for sales to other classes of dealers by adding his customary differentials for such sales.

NOTE: To assist the wholesale distributor in making this computation, a manufacturer who sells electric ranges at prices which include the "OPA industry electric range reconversion increase" is required to notify the wholesale distributor at the time of, or prior to the first invoice covering such sales, of the retail ceiling prices which he has determined for those ranges under the provisions of sections 11b or 11c of this regulation.

Rule 2. If a wholesale distributor cannot determine his ceiling price for sales of a particular model of electric range to a particular class of purchaser under Rule 1, his ceiling price for that sale is the ceiling price established under this paragraph for the same sale by the "closest seller of the same class." A wholesale distributor's "closest seller of the same class" is a distributor who (a) has established a ceiling price for sales of the identical model of electric range to the same class of purchaser, and (b) is the same general type of seller, and (c) is located in the same zone and is nearer to the seller than any other seller who meets requirements (a) and (b) of this rule.

Rule 3. If the wholesale distributor cannot otherwise find his ceiling price for a particular sale, his ceiling price for that sale is the price established by the Office of Price Administration in an order under this section. An application under this rule shall state the name of the manufacturer of the electric range being priced, its model designation, the classes of purchaser to whom the applicant proposes to sell the range, the ceiling prices he proposes for such sale, and a statement of the reasons he cannot use the other rules in this section.

(c) *Notification.* At the time of, or prior to the first invoice to each purchaser for resale of a stove sold on or after June 7, 1946 at a price determined in accordance with this section 11a, each wholesale distributor shall notify the purchaser in writing that each purchaser for resale at retail must find his resale ceiling prices under section 11b of this regulation. This notice may be given in any convenient form.

5. Section 11b is amended to read as follows:

SEC. 11b. *Retail ceiling prices of stoves subject to an industry reconversion increase*—(a) *Stoves not subject to the Federal excise tax.* A retailer shall determine his ceiling prices for his sales of any stove covered by this regulation which is not subject to the Federal excise tax when sold by the manufacturer and which he purchases at prices which include an adjustment under section 8b or 11a of this regulation, as follows:

(1) He shall increase by 3.0 percent and then round to the nearest 25 cents those of his ceiling prices established before June 7, 1946, under the General Maximum Price Regulation, or Maximum Price Regulation No. 210, or a central pricing order issued under § 1499.4a of the General Maximum Price Regulation or Supplementary Order No. 13 as amended or revised, or under section 11 of this regulation.

(2) He shall increase by 3.0 percent and then round to the nearest 25 cents those of his ceiling prices established after June 6, 1946, under § 1499.2 of the General Maximum Price Regulation.

(3) A seller who establishes his ceiling prices on or after June 7, 1946, under a provision which requires him to compute his ceiling price on the basis of cost, shall use as his cost for that purpose his supplier's ceiling price to him exclusive of any adjustment taken by his supplier under section 8b or section 11a. He shall compute his ceiling price under this section by adding to the price determined upon the cost basis defined above an amount equal to 3.0 percent of that price and rounding the result to the nearest 25 cents.

(4) If his ceiling prices are established on or after June 7, 1946, by an order under section 11 of this regulation or under §1499.3 (e) of the General Maximum Price Regulation or by an approval under § 1499.3 (c) of the same regulation and the order or approval does not provide that the retail ceiling prices shown therein may be adjusted under this section, the retailer's ceiling prices under this section are those established by the order or approval.

(b) *Stoves subject to the Federal excise tax other than electric ranges.* Included among stoves covered by this regulation and subject to a Federal ex-

cise tax assessed on the sale by the manufacturer are gas ranges including gas combination and gas bungalow ranges, oil ranges including oil combination and bungalow ranges, oil cooking stoves, and gas hot plates and gas laundry stoves. A retailer shall determine his ceiling prices for stoves subject to the Federal excise tax (other than electric ranges) which he purchases at prices which include an adjustment under section 8b or 11a of this regulation as follows:

(1) If the retail ceiling price is a uniform dollar-and-cent price set by an order issued under section 11 of this regulation before June 7, 1946 which includes the Federal excise tax he shall increase that price by 3.7 percent and round the result to the nearest 25 cents. The result is his new ceiling price inclusive of the Federal excise tax.

(2) If the retail ceiling price has been established before June 7, 1946 under the General Maximum Price Regulation, or Maximum Price Regulation No. 210, or a central pricing order issued under § 1499.4a of the General Maximum Price Regulation or Supplementary Order No. 13 as amended or revised and he passed on to his customers the Federal excise tax paid by the manufacturer he shall compute his new ceiling price by increasing the ceiling price for the stove established by him before June 7, 1946 by 3.7 percent of that price and rounding the result to the nearest 25 cents.

(3) He shall increase by 3.7 percent ceiling prices which he establishes after June 6, 1946, under § 1499.2 of the General Maximum Price Regulation.

(4) A retailer who establishes his ceiling price on or after June 7, 1946 under a provision which requires him to compute his ceiling prices on the basis of cost shall use as his cost for that purpose his supplier's ceiling price exclusive of any adjustment under section 8b or 11a. He shall compute his ceiling price under this section by adding to the price determined upon the cost basis defined above an amount equal to 3.7 percent of that price, and rounding the result to the nearest 25 cents.

(5) If his ceiling prices are established on or after June 7, 1946, by an order under section 11 of this regulation or under § 1499.3 (c) of the General Maximum Price Regulation or by an approval under § 1499.3 (c) of the same regulation and the order or approval does not provide that the retail ceiling prices shown therein may be adjusted under this section, the retailer's ceiling prices under this section are those established by the order or approval.

(6) If his ceiling prices are established on or after June 7, 1946 under § 1372.103 of Maximum Price Regulation No. 210, the retail ceiling prices under this section are those established under § 1372.103 of Maximum Price Regulation No. 210.

(c) *Electric ranges.* Notwithstanding the provisions of any order issued under section 11 of this regulation before June 7, 1946, ceiling prices for any electric range sold by the manufacturer at prices adjusted in accordance with section 8b of this regulation are the prices properly calculated by the manufacturer in accordance with this paragraph. Every manufacturer of electric ranges who has had retail ceiling prices established for his ranges by an order issued under section 11 of this regulation before June 7, 1946, is required to recalculate those retail ceiling prices under the first applicable rule of the following:

Rule 4. If the retail ceiling price for sales of a particular model in Zone 1 (exclusive of the Federal excise tax and any amounts included therein on account of freight) is 187% or less of the product of 1.07 and the manufacturer's lowest f. o. b. factory ceiling price (exclusive of the Federal excise tax) established under sections 3, 4, 5, 7, or 8 of this regulation for sales of that model to wholesale distributors, the retail ceiling price for sales of that model to consumers in Zone 1 is the total rounded to the nearest 25 cents, of the following:

(1) The retail ceiling price previously established by the order under section 11 diminished by the amount of the Federal excise tax included therein, and

(2) An amount equal to 4.0 percent of the manufacturer's lowest f. o. b. factory ceiling price (exclusive of the Federal excise tax) established under sections 3, 4, 5, 7, or 8 of this regulation for sales of the same model to wholesale distributors, and

(3) The Federal excise tax applicable to his lowest f. o. b. factory ceiling price to wholesale distributors.

Retail ceiling prices for sales of the same model to consumers in zones other than Zone 1 shall be determined by adding to the Zone 1 retail ceiling price determined under this rule the dollar-and-cent amount of the previously established differential between retail ceiling prices in Zone 1 and in each of the other zones in effect on the same model.

Rule 5. If the retail ceiling price for sales of a particular model in Zone 1 (exclusive of the Federal excise tax and any amount included therein on account of freight) is more than 187% of the product of 1.07 and the manufacturer's lowest f. o. b. factory ceiling price (exclusive of the Federal excise tax) established under sections 3, 4, 5, 7, or 8 of this regulation for sales of that model to wholesale distributors, the retail ceiling price for sales of the model in Zone 1 shall be the higher of the following amounts:

(1) The total rounded to the nearest 25 cents, of the ceiling price in effect before June 7, 1946, and the dollar-and-cent amount of the increase in the Federal excise tax resulting from the increase in the manufacturer's price under section 8b (b), or

(2) The total rounded to the nearest 25 cents, of the following:

(i) 187 percent of the product of 1.07 and the manufacturer's lowest f. o. b. factory ceiling price (exclusive of the Federal excise tax) established under sections 3, 4, 5, 7, or 8 of this regulation for sales of the same model to wholesale distributors, and

(ii) An amount equal to 4.0 percent of the manufacturer's lowest f. o. b. factory ceiling price (exclusive of the Federal excise tax) established under sections 3, 4, 5, 7, or 8 of this regulation for sales of the same model to wholesale distributors, and

(iii) The Federal excise tax applicable to his lowest f. o. b. factory ceiling price to wholesale distributors, and

(iv) The amount included on account of freight in the Zone 1 retail price previously established by the order under section 11 of this regulation.

Retail ceiling prices for sales of the same model to consumers in zones other than Zone 1 shall be determined by adding to the Zone 1 retail ceiling price determined under this rule the dollar-and-cent amount of the previously established differential between the retail prices in Zone 1 and in each of the other zones in effect on the same model.

Rule 6. If a manufacturer cannot determine retail ceiling prices for sales of a particular model of electric range under the preceding rules of this section, he may apply under this rule for the establishment of retail ceiling prices for that particular model. Orders will be issued under section 11 of this regulation establishing retail ceiling prices for such ranges in line with the level of ceiling prices established under this regulation. An application under this rule shall state the name of the manufacturer, the model designation of the range being priced, and a statement of the reason why the applicant cannot determine retail ceiling prices for the range under the other rules of this paragraph.

7. Section 11c is amended to read as follows:

SEC. 11c. *Sales invoices to purchasers for resale.* Any person making a sale to purchasers for resale of any articles covered by this regulation must furnish purchasers for resale with an invoice containing the following:

(a) His name and address and the date of the invoice.

(b) The purchaser's name and address.

(c) The model designation of the articles and such other description as may be necessary to identify the article on his pricing records.

(d) His OPA ceiling price.

8. A new section 11d is added to read as follows:

SEC. 11d. *Labelling.* Unless an order under this regulation provides otherwise:

(a) On and after June 17, 1946, a manufacturer may not sell or ship any gas range, gas combination range, gas bungalow range, or electric range to a wholesale distributor or retailer other than a mail order house unless there is securely attached to the inside or outside panel of the oven door of the stove in a place where it can be plainly seen a label which is headed "OPA Retail Ceiling Price Label" which plainly states the OPA retail ceiling prices established for sales of the range in each zone a statement of the area contained in each zone, the manufacturer's name or the brand name of the range, its model designation, a statement of what the retail ceiling prices include, and a statement that the "OPA Retail Ceiling Price Label" may not be removed until after the range is sold and delivered to a consumer. This "OPA Retail Ceiling Price Label" may not be removed until after the range has been sold and delivered to the consumer.

(b) On or after July 7, 1946, no person other than a seller on a mail order basis may display, offer for sale, sell or deliver to a consumer any electric range, gas range, gas combination range or gas bungalow range unless ceiling prices have been established for resales of the range under this regulation and there is attached to the range in the place designated in paragraph (a) above a label which is provided by the manufacturer or the particular person specified in an order fixing resellers' ceiling prices and which contains all the information required by paragraph (a) of this section.

(c) The retail ceiling prices which appear on the label attached to an electric range, gas range, gas combination range or gas bungalow range which the manufacturer has sold at a price adjusted under section 8b of this regulation shall be the retail ceiling prices determined in accordance with section 11b or 11e of this regulation.

9. A new section 11e is added to read as follows:

SEC. 11e. *Establishment of retail ceiling prices for certain new model gas and electric ranges*—(a) *Formula method.* If no retail ceiling prices have been established before June 7, 1946 for sales of any stove of a type for which dollar-and-cent retail ceiling prices have been established under section 11 of this regulation (This includes but is not limited to electric ranges, gas ranges, gas combination ranges and gas bungalow ranges), and the manufacturer has determined his f. o. b. factory ceiling prices for sales of the stove to purchasers for resale under section 3 or 7 and adjusted them under section 8b, the retail ceiling prices of the stove are the prices determined by the manufacturer according to the following formula:

(1) He shall find the model of stove in his line for which he has a zone 1 retail ceiling price based upon an order issued under this regulation and which is "comparable" to the stove being priced. The "comparable" model is the one which is most like the stove being priced in design, construction, manufacturing process, operation, weight, and fuel type and which has an f. o. b. factory ceiling price to the class of purchaser who buy from the manufacturer in the greatest volume which is closest to that determined for sales of the stove being priced to the same class of purchaser.

(2) He shall find his mark-up factor by dividing the retail ceiling price in Zone 1 of the comparable model (exclusive of the Federal excise tax and any amounts included therein on account of freight, delivery and installation) by its f. o. b. factory ceiling price to the class of purchaser who buy from him in the greatest volume.

(3) He shall apply that percentage mark-up to the f. o. b. factory ceiling price (exclusive of the Federal excise tax) of the stove being priced to that class of purchasers to whom he sells in the greatest volume. The result increased by the Federal excise tax applicable to his f. o. b. factory ceiling price for his sales to the class of reseller to whom he sells at his lowest ceiling price and the amount included in the retail ceiling price of the "comparable" model on account of freight, delivery, and installation and rounded to the nearest 25 cents is the retail ceiling price in Zone 1 of the stove being priced.

He shall then determine the retail ceiling prices of the stove being priced in zones other than Zone 1 by adding to the Zone 1 retail ceiling price determined in accordance with this section the dollar-and-cent amount of the differential in effect on the "comparable" model between its retail ceiling prices in Zone 1 and in each of the other zones.

(b) *Retail ceiling prices established by order.* A manufacturer who cannot determine retail ceiling prices under paragraph (a) of this section for sales of a particular model of electric range, gas range, gas combination range, gas bungalow range or any other stove of a type for which dollar-and-cent retail ceiling prices have been established under section 11 of this regulation for which he first establishes his ceiling prices after June 6, 1946, shall apply under this paragraph for the establishment of retail ceiling prices for that particular model. Orders will be issued under section 11 of this regulation establishing retail ceiling prices for such stoves in line with the level of ceiling prices previously established for similar stoves under the applicable regulations. An application under this paragraph shall state the name of the manufacturer, the model designation of the stove being priced, and a statement of the reason why the applicant cannot determine retail ceiling prices for the stove under paragraph (a) of this section.

8. A new section 11f is added to read as follows:

SEC. 11f. *Zones.* For purposes of this regulation the zones referred to in sections 11a, 11b, 11d, and 11e are those defined for the manufacturer in individual resale ceiling price orders issued under this regulation or under Supplementary Orders No. 119 or 133. Where a single national retail ceiling price has been fixed for a particular stove, the manufacturer shall treat the retail ceiling price for each stove as his Zone 1 price for that stove.

9. Section 12 is amended to read as follows:

SEC. 12. *Modification of provisions of this regulation.* The provisions of this regulation as applied to classes of commodities or persons subject thereto may be modified by orders of general application issued under this section.

10. A new section 12a is added to read as follows:

SEC. 12a. *Modifications of zoning practices and terms and conditions of sales.* A manufacturer who desires to change any of his terms, discounts, allowances, price differentials, conditions of sale or zoning practices in effect during the period January 15 to June 1, 1941 or thereafter properly established under the applicable regulation, shall apply to the Office of Price Administration, Washington, D. C., setting forth in detail the proposed changes and the reasons therefor. The Price Administrator may grant permission to the manufacturer to make the proposed changes when, in his opinion, the manufacturer has demonstrated that the general level of his ceiling prices to each class of purchaser will not be raised thereby, and that the granting of such permission will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. Orders will be issued under this section changing a manufacturer's terms, discounts, allowances, price differentials or conditions of sale or his zoning practices and prices and, where it is necessary, those of his wholesalers and retailers accordingly. No manufacturer may, prior to the issuance of an order by the Office of Price Administration authorizing such a change, change his established terms, discounts, allowances, price differentials, or conditions of sale. Nothing in this section shall be construed as forbidding a manufacturer from selling below his established ceiling prices.

11. A new section 12b is added to read as follows:

SEC. 12b. (a) *Credit charges and terms of sale.* (1) Any person selling at retail articles covered by this regulation for which dollar-and-cent retail ceiling prices have been established based upon an order under this regulation or under Supplementary Orders No. 119 or No. 133 who, during March 1942, collected a separately stated additional charge for the extension of credit on sales of such articles, may collect a charge for the extension of credit under this regulation, not exceeding such charge during March 1942 on a similar sale on similar terms to the same class of purchaser. Retailers who did not so state and collect an additional charge, may collect a charge for the extension of credit only on installment plan sales; and the charge shall not exceed the separately stated additional charge for the extension of credit on a similar sale on similar terms to the same class of purchaser during March 1942, by the retailer's closest competitor who made a separately stated charge.

An installment-plan sale as used in the above paragraph means a sale where the unpaid balance is to be paid in installments over a period of either (i) six weeks or more from the date of sale in the case of weekly installments, or (ii) eight weeks or more in the case of other than weekly installments.

(2) All charges for the extension of credit shall be quoted and stated separately. Any charge which is not quoted and stated separately or which otherwise does not conform to this subsection, shall, for the purposes of this regulation, be considered to be part of the price charged for the stove sold.

(3) No retailer may require as a condition of sale that the consumer must buy on credit.

(b) *Terms of sale.* Unless this regulation or an order issued under it provides otherwse every resale ceiling price established by or under this regulation is subject to terms, discounts, allowances and other price differentials, no less favorable than those the reseller had in effect for similar sales during March 1942. If the reseller made no such sales during March 1942, his ceiling prices are subject to the terms, discounts, allowances, and other price differentials, no less favorable than those of his closest competitive seller of the same class during the same period on sales of similar articles of which were thereafter properly established under applicable OPA regulations.

12. A new section 12c is added to read as follows:

SEC. 12c. *Reporting of retail ceiling prices.* Every manufacturer who deter-

mines or redetermines the retail ceiling prices for any of his stoves in accordance with sections 11b or 11e of this regulation and is required to preticket that stove with the retail ceiling prices so determined in accordance with section 11d must send a report to the Office of Price Administration, Washington 25, D. C. containing the model designation and retail ceiling price in each zone of every such stove. This report must be filed within 15 days after the particular model is first sold or offered for sale by the manufacturer preticketed with the retail ceiling prices determined under this regulation. If the prices so reported are incorrect this Office may issue an order under this section establishing the correct retail ceiling prices.

13. Section 13 is amended to read as follows:

SEC. 13. Compliance with the regulation—(a) *No buying or selling at over ceiling prices.* Regardless of any contract or other obligation, no person shall sell, offer to sell, or deliver, and in the course of trade or business, no person shall purchase or accept delivery of a heating or cooking stove at a price higher than the ceiling price fixed by this regulation, or before the seller has properly determined his ceiling price under this regulation.

If, in violation of this provision, a sale, offer to sell or delivery of a heating or cooking stove is made before its ceiling price has been properly established in accordance with this regulation, the ceiling price applicable to the sale, offer to sell or delivery shall be the correct ceiling price for the heating or cooking stove properly determined in accordance with this regulation.

(b) *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

(c) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(d) Certain practices forbidden. Any practice which has the effect of getting a higher-than-ceiling price without actually raising the dollar and cents price is hereby forbidden.

The following is an illustrative list of the things a seller is not permitted to do. A seller is not permitted to require the purchaser, as a condition of the sale or transfer of the heating or cooking stove to make payment over a period of time; to require him to finance the purchase through any particular lending agency; to require him to purchase any equipment, accessories, repairs, parts, or services so as to increase the total compensation received by the seller above the ceiling price of the stove; to require the purchaser to purchase any other commodity or service; or to require him to make payment in whole or in part by exchanging, transferring or trading in any other product or commodity. Where there is an exchange, transfer, or trade-in in connection with a sale, it is a violation for the seller to give the purchaser an allowance, for the product or commodity exchanged, transferred, or traded in which is less than its reasonable value.

Furthermore, the seller is prohibited from providing for the purchase of the stove by a lessee under a rental contract at an agreed valuation which together with the amount paid for the rental is higher than the applicable ceiling price at the time the rental contract is entered into, and from making the terms and conditions of sale more onerous to purchasers than they customarily have been except to the extent allowed by this regulation.

SEC. 14. *Geographical applicability.* The provisions of this regulation shall be applicable in the forty-eight States and the District of Columbia.

This amendment shall become effective on the 7th day of June 1946.

NOTE: All the reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 5th day of June 1946.

Administrator.

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

[MPR 452,[1] Amdt. 14]

MANUFACTURERS' MAXIMUM PRICES FOR AUTOMOTIVE PARTS

A statement of the considerations involved in the issuance of this amendment issued simultaneously herewith has been filed with the Division of the Federal Register.

Maximum Price Regulation 452 is amended in the following respects:

1. The narrative in section 7 (a) preceding subparagraph (1) is amended to read as follows:

(a) *In general.* Except as provided in the next sentence, the maximum price a manufacturer may charge for the sale of a new part or rebuilt motor for which he cannot establish a maximum price in accordance with section 6 or for which he has not established a new list price in accordance with that section and section 9, although permitted, but not required to do so, shall be the non-list price determined in accordance with the applicable subparagraph of subparagraphs (1) to (4) below. The maximum non-list prices for sales of metal automotive stampings made to manufacturers of automotive parts and to manufacturers of automotive vehicles shall be the prices determined in accordance with subparagraph (5) below:

[1] 9 F.R. 3301, 8814, 12038; 10 F.R. 6238, 6796, 7496, 9586.

2. The phrase "The price established under subparagraph (1), (2), (3), or (4)" contained in the narrative of section 7 (a) immediately following subparagraph (4) of section 7 (a) is amended to read "The price established under subparagraph (1), (2), (3), (4), or (5).

3. Section 7 (a) is amended by including therein a new subparagraph (5) immediately following subparagraph (4) and preceding the narrative beginning with the phrase "The price established under subparagraph (1), (2), (3), (4), or (5)" to read as follows:

PART 1499—COMMODITIES AND SERVICES

[RMPR 165, Supp. Service Reg. 70]

RENTAL OF DUMP TRUCKS ON CONSTRUCTION, ROAD MAINTENANCE AND HOUSING IN TERRITORIES AND POSSESSIONS OF UNITED STATES

A statement of the considerations involved in the issuance of this Supplementary Service Regulation No. 70, issued simultaneously herewith, has been filed with the Division of the Federal Register.

§ 1499.711 *Rental of dump trucks on construction, road maintenance, and housing projects in the territories and possessions of the United States*—(a) *Applicability of this regulation.* This regulation applies to all rentals of dump truck and combination truck and trailer mounted equipment for use on or in connection with construction, road maintenance, or housing projects (hereinafter referred to as "construction") in any of the territories and possessions of the United States.

(b) *Relation of this regulation to other regulations.* This regulation replaces section 16 of Maximum Price Regulation 134, the provisions of which are substantially contained herein. It also replaces the pricing provisions and modifies other provisions of Revised Maximum Price Regulation 165. All other provisions of RMPR 165 not inconsistent with the provisions of this supplementary service regulation remain in effect. All orders previously issued by a Territorial Director or the Regional Administrator for the Ninth Region under Maximum Price Regulation 134 and the maximum rental rates authorized therein, remain in full force and effect under this regulation.

(c) *Maximum rates for dump truck rentals*—(1) *"Fully maintained and operated" basis.* The maximum hourly rates for the rental of dump trucks on a "fully maintained and operated" basis, less driver, for use on construction work (including other uses to which such trucks may be assigned in the course of rentals which are primarily for construction or road maintenance work) are set forth in Schedule I.

(2) "Bare" basis. The maximum rates for the rental of dump trucks on a "bare" basis for use on construction projects (including other uses to which such trucks may be assigned in the course of rentals which are primarily for construction or road maintenance work) are set forth in Schedule II.

(3) *Combination charges prohibited.* In no event may any charge for a particular rental of a dump truck be based on a combination of Schedule I and Schedule II rates.

(d) *Less than maximum rates.* Nothing in this regulation prevents the charging or offering, or paying of rates lower than the maximum rates permitted in Schedules I and II.

(e) *Modification of rates.* The Office of Price Administration, through its Director in the territory or possession, may at any time by order authorize maximum rental rates for dump trucks other than those provided herein, applicable to any group of lessors, or all lessors, for (1) a designated geographical area, or (2) a specified type of work where it is demonstrated that due to conditions peculiar to the area or project, that the rates herein established are either higher or lower than would be generally fair and equitable to either lessee or lessor.

(f) *Truck and trailer mounted equipment.* (1) The maximum rental rate for any combination machine consisting of any construction or road maintenance equipment mounted on an automotive truck or trailer and rented on a bare basis shall be a price calculated on the basis of a monthly rate which shall be equal to the sum of the following: (i) the maximum monthly rate for such equipment in accordance with section 15, Appendix A of Maximum Price Regulation 134, or under Maximum Price Regulation 136, where applicable, and (ii) a maximum monthly rental rate for the truck or trailer equal, for trucks to 7 percent and for trailers to 5½ percent, of the highest maximum price established by any regulation issued by the Office of Price Administration for the sale to any domestic class of purchaser, of the nearest equivalent new truck or trailer, or the nearest equivalent new truck or trailer chassis and the nearest equivalent new extra, special, or optional equipment which may have been added to complete the rented truck or trailer.

(2) Maximum charges for operating and maintenance services supplied by lessors in connection with rental of truck or trailer mounted equipment, whether amounting to a fully, or partially, operated service shall be charges established by filing an application for approval of such rate pursuant to section 5 of Revised Maximum Price Regulation 165.

Over 12 cubic yards, add for each cubic yard		.30	.20	.25
On all 3 axle, 10 tire trucks with drive on two rear axles, add		.40	.40	.40

PART II

(1) Where a driver is provided by the lessor in connection with a fully maintained rental of a dump truck, there may be added to the above hourly rate, 135% of the hourly wage for the operator of such truck at the wage

prevailing on March 31, 1942, in the area of the job site.

(2) The capacity of any dump truck shall be the water level capacity as determined by the height of the tail gate or front end, whichever is lower, of the permanent body of the truck: *Provided*, That when necessary to attain such water-level the sides of the truck are brought up to this height, whether by temporary or permanent additions. It shall be a violation of this regulation for any lessor to refuse to supply sideboards, or any type of work where he has customarily supplied the same, in order to obtain greater aggregate rental for his trucks. The capacity of the Boulder type dump truck shall be determined by the manufacturer's rating.

(3) Column A rates apply where the loading is performed by power loading devices except where the material is processed sand, gravel, crushed stone, or other processed materials in stock piles at a commercial producing plant, at point of construction or at intermediate point of transfer. A hopper, chute, bunker, or conveyor shall not be deemed to be a power loading device.

Column B rates apply where the loading is performed by hand and where the average mileage of the vehicle does not exceed 8 miles per hour for the period of time the vehicle is in use each day.

Column C rates apply where transportation or loading is performed under conditions other than those described for application of Column A or B rates. Column C rates apply where the loading is by hopper, chute, bunker, or conveyor.

(4) On any job where the lessee finds it impossible or impracticable, because of the shifting of trucks from one type of loading to another, to calculate the rental according to the several services rendered by each truck, the lessee may pay, as a maximum rental price for the job, a price calculated on the basis of any rate, or combination of rates, which does not exceed the applicable rates set forth in Column A above.

(5) Irrespective of the basis of contract, in no event shall any rental paid or received for dump trucks exceed the maximum rental permitted by application of the foregoing hourly rates.

(6) In every instance, the foregoing maximum hourly rates shall apply irrespective of the length of time that a truck is on the job, except that where the lessor is required to pay his truck operator overtime wages on any job because of overtime operation of the truck, there may be added to the maximum rental the dollar amount, determined according to wage rates in effect on March 31, 1942, of so much of the excess of overtime wages over straight time wages as is actually paid the operator plus payroll taxes and insurance for such overtime operation of the truck.

(7) In every instance, rental for any dump truck rented on a fully operated basis shall be calculated, in accordance with this paragraph, as beginning not sooner than the time the truck arrives on the job ready for use and as ending when the truck is finally released on the job for return to the lessor, except that where the truck must be moved daily to and from the job, the lessor may charge the lessee an additional hour's rent at the applicable maximum rate for each day that the truck is moved to and from the job.

(8) The Office of Price Administration, through its Director in the territory or possession, may authorize for a particular job, an increase in the rental provided by the foregoing hourly rates, not exceeding 10 percent of the applicable maximum, where the lessor, prior to charging the higher rental, has satisfactorily shown that his equipment is to be used on such job more than 25 miles from his yard and that his costs will be materially increased by reason of such use.

PART III—APPLICATION OF RATES

(a) All repairs and replacements, including tire replacements shall be made by and at the cost and expense of the lessor. Payment will not be made for use of equipment during the time when repairs are being made.

(b) These rates may be applied only to the hours of actual use, but do not contemplate lessee unreasonably retaining equipment in his possession when not in actual use.

FULLY MAINTAINED AND OPERATED BASIS RENTAL

(c) All fuel and lubricants used in the operation of motor vehicles shall be furnished (or paid for) by the lessor.

(d) Drivers' wages are excluded from all rates indicated hereon.

PART IV—DEFINITION AND GENERAL PROVISIONS

Fully maintained and operated basis refers to any lease, contract, or understanding, regardless of whether the same is denominated a rental agreement, or forms a part of another agreement, whereby one party undertakes to furnish another party with any of this equipment, and supply all services required therewith except drivers.

Rental rates set forth in this table are for fully maintained and operated vehicles (less drivers), and includes charges for mechanics, greasers, gasoline, fuel oil, lubricants, repairs, tire maintenance or any other charge which is properly a part of "maintenance and operating service." The rental rates set forth in this table include an allowance for the cost of all repairs and overhauling.

SCHEDULE II—RENTALS OF DUMP TRUCKS ON A "BARE" BASIS

PART I

Maximum price of truck, chassis, and equipment	A	B	C
	Percent	Percent	Percent
Up to and including $4,500	9	7	8
Over $4,500 to $8,500	8	6½	7
Over $8,500	7	5½	6½
Half-track dump trucks	9	8	7

PART II

Determination of truck capacities and application of the foregoing rates shall be governed by the provisions of subparagraphs (2), (3) and (4) of Schedule I, Part II.

In every instance, rental for dump trucks leased on a bare basis shall be calculated as beginning at the time trucks are delivered into possession of the lessee, and as terminating at the time when trucks are delivered back into the possession of the lessor.

PART III—APPLICATION OF RATES

(a) The monthly rates established herein are based upon a usage of 240 hours per month. For actual use for more than 240 hours during one monthly period, the maximum additional rental price for each additional hour, or part of an hour, for such actual use shall be calculated upon the basis of 1/480 of the applicable rate per month shown in the foregoing schedule.

(2) If used for a part of a monthly period, the maximum rental rate for such part of the monthly period shall be calculated upon the basis of the higher of: (1) 1/30 of the applicable monthly rate for each daily period, or part thereof, of possession or (2) 1/240 of the applicable monthly rate for each hour, or part thereof, of actual use.

(c) All fuel and lubricants used in the operation of motor vehicles shall be furnished (or paid for) by the lessee.

(d) Drivers' wages are excluded from all rates indicated herein.

PART IV—DEFINITION AND GENERAL PROVISIONS

"Bare" basis refers to any lease, contract, or understanding, regardless of whether the same is denominated a rental agreement, or forms a part of another agreement, whereby one party undertakes to furnish another party with any of this equipment, without supplying any operating and maintenance services required therewith.

Rental rates set forth in this table are for "bare" dump trucks and do not include charges for drivers, mechanics, greasers, gasoline, fuel oil, lubricants, repairs, or maintenance (except that due to normal wear and tear), or any other charge which is properly a part of operating and maintenance service. The rental rates set forth in this table include an allowance for the cost of all repairs and overhauling required as a result of normal wear and tear of vehicles. This means that:

(a) When vehicles are on bare rental and break down as a result of normal wear and tear, lessor cannot charge lessee with the cost of repairs, or any rental for the time lost while repairs are being made.

(b) Where vehicles are bare rental breakdown as a result of any cause other than normal wear and tear, lessor can charge lessee with the cost of repairs and with rental for possession of vehicles during the time while repairs are being made.

(c) However, where vehicles are on bare rental, the lessee may at his own expense always make minor repairs, regardless of the cause of breakdown, where such repairs are necessary to keep the job going, but he may not charge the cost of such repairs to the lessor or deduct the time lost for making repairs from the rental period, without the lessor's consent.

(d) In any instance where there is a breakdown of vehicles on bare rental, the cause of such breakdown is a question of fact that must be determined between the lessor and the lessee.

(e) A bare rental contract may provide for the assumption by the lessee of the duty to make all repairs and replacements at his own cost and expense, including those resulting from normal wear and tear and including tire repair or replacement, provided that in such event the rental shall not exceed 85% of the applicable maximum rental rate set forth in this table. By way of illustration but not limitation, such a lessee may be required to pay the entire cost of a repair or replacement necessitated by climatic conditions, fire, flood, tornado, etc., while the vehicle is or was in his possession, and the normal wear and tear resulting from his use and may be required to pay rental during the repair period. He may be required to pay a proportion of the cost of tires; for example, based upon his mileage use as compared with the normal mileage life of the tires. However he shall not be required to pay for repair or replacement due to pre-existing or hidden defects, or to defective material, nor would he be required to pay rental during the repair period.

This Supplementary Service Regulation shall become effective as of the 14th day of May 1946.

Issued this 6th day of June 1946.

Administrator.

PART 4003—SUPPORT PRICES: SUBSIDIES

PAYMENT OF INCREASED TRANSPORTATION COSTS IN CONNECTION WITH THE MOVEMENT OF SUGAR BEETS BECAUSE OF CLOSED PROCESSING PLANTS; 1946 SUGAR BEET TRANSPORTATION PROGRAM

The Secretary of Agriculture has, by letter and enclosures, dated May 22, 1946, submitted certain information and recommended a proposed 1946 Sugar Beet Transportation Program. Due to the small volume of sugar beets which it is anticipated will be produced in some areas in 1946, certain beet processing plants will not operate. Under the proposed program, Commodity Credit Corporation will pay the increased transportation costs of sugar beets produced by growers served by the closed processing plants in shipping sugar beets to the nearest operating processing plant. The program is estimated to result in an expenditure of approximately $300,000. On the basis of the Secretary's statements, I find that the proposed program is necessary to effectuate the Stabilization Program.

Accordingly, pursuant to the authority vested in me by the Stabilization Act of 1942, as amended, and by Executive Order 9250 of October 3, 1942 (7 F.R. 7871), Executive Order 9328 of April 8, 1943 (8 F.R. 4681), Executive Order 9599 of August 18, 1945 (10 F.R. 10155), Executive Order 9651 of October 30, 1945 (10 F.R. 13487), Executive Order 9697 of Febuary 14, 1946 (11 F.R. 1691), and Executive Order 9699 of February 21, 1946 (11 F.R. 1929); *It is hereby ordered:*

1. The Department of Agriculture is authorized and directed to carry out, through the Commodity Credit Corporation, the program described in the Secretary of Agriculture's letter and the memorandum enclosed therewith.

The Commission finds that:

It would be desirable to afford all interested parties an opportunity to present evidence at a public hearing on these matters and the issues involved;

The Commission orders that:

[Docket No. G-733]

CARNEGIE NATURAL GAS CO.

NOTICE OF APPLICATION

JUNE 4, 1946.

Notice is hereby given that on May 28, 1946, Carnegie Natural Gas Company ("Applicant"), filed an application pursuant to section 7 (b) of the Natural Gas Act for permission and approval to abandon as part of its utility system, its Hastings Compressor Station located in Grant District, Wetzel County, West Virginia, consisting of buildings and land (approximately fifty-seven acres), and compressor equipment as follows:

One 960 horsepower Nordberg steam driven gas compressor.
Low pressure power cylinder 56" x 60".
High pressure power cylinder 26" x 60".
Direct connected to two (2)—26" x 60" gas compressors.
Three (3) Erie City 200 h.p. boilers.
Appurtenant equipment consisting of:
Gas scrubber, air compressor.
Water pumps and tanks.
Miscellaneous station piping and structures.

Applicant is a Pennsylvania corporation, with its principal place of business at 1015 Frick Building, Pittsburgh 19, Pennsylvania, and authorized to do business in West Virginia. On August 3, 1943, Docket No. G–263, the Federal Power Commission issued to Applicant a "grandfather" certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, as amended, authorizing the continued operation of its business, operations and properties, of which this compressor station is a part. It is stated in the application that Applicant erected the station for the purpose of withdrawing natural gas from a group of wells located adjacent to the station, but that as a result of depleted well volume it is now feasible and economical for Applicant's Hundred Station located approximately thirteen (13) miles northeast thereof to pump all the gas handled by Hastings Station, and therefore the operation and maintenance of Hastings Station is no longer necessary. Applicant further states that no service now being rendered by it will be affected by the abandonment of the station.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Part 67 of the provisional rules of practice and regulations under the Natural Gas Act and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Applicant should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen (15) days from the date of this publication, a petition or protest in accordance with the Commission's provisional rules

of practice and regulations under the Natural Gas Act.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 239 under Revised Supplementary Order No. 119. Individual adjustments for reconverting manufacturers. Adjustment of maximum prices for low pressure valves as specified in Revised Supplementary Order No. 119 manufactured by Hays Manufacturing Company, Erie, Pennsylvania. Dockets Nos. 6123-SO 119-36 and 6123-SO 119-39.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to Section 13 of Revised Supplementary Order No. 119, it is ordered:

(a) *Maximum prices for Hays Manufacturing Company, Erie, Pennsylvania.* (1) The above manufacturer may determine his maximum prices for his line of low pressure valves by increasing by 25.2 percent his prices on these items in effect on October 1, 1941 to each class of purchaser.

(2) Since the provisions of this order are not intended to reduce properly established maximum prices, the manufacturer may continue to use as his maximum prices to each class of purchaser his properly established prices in effect under Maximum Price Regulation 591 in the event that such prices exceed the prices in effect to each class of purchaser on October 1, 1941 plus the increase provided for in (1) above.

(3) The maximum prices set forth above shall be subject to discounts and allowances including transportation allowances and price differentials which are at least as favorable as those the manufacturer extended or rendered or would have extended or rendered to each class of purchaser on commodities in the same general category during March 1942.

(b) *Resellers' maximum prices.* All resellers of the commodities covered by this order (but not manufacturers who purchase such items for use in the manufacture of other products) may add to their presently established maximum prices the actual dollars-and-cents increase in cost resulting from the adjustment granted the manufacturer by this order.

(c) *Notification to all purchasers.* The manufacturer shall send the following notice to every purchaser of the commodities covered by this Order at or before the time of the first invoice after the adjustment granted by this Order is put into effect:

Order No. 239 under Revised Supplementary Order No. 119 authorizes a 25.2 percent increase in October 1, 1941 net prices for sales of low pressure valves manufactured by this company.

Resellers (but not manufacturers who purchase such items for use in the manufacture of other products) may add to their existing maximum prices the actual dollars-and-cents increase in cost resulting from the adjustment granted by Order No. 239.

(d) All prayers for relief not granted herein are denied.

(e) This order may be amended or revoked by the Price Administrator at any time.

This order No. 239 shall become effective June 6, 1946.

Issued this 5th day of June 1946.

[RMPR 320, Order 8]

EASTERN AND CENTRAL WOODEN AGRICULTURAL CONTAINERS

ADJUSTMENT OF MAXIMUM PRICES

A petition has been filed with the Office of Price Administration requesting an increase in maximum prices for containers subject to Revised Maximum Price Regulation No. 320—Eastern and Central Wooden Agricultural Containers. A study of the industry's operations under the regulation is now in progress. It has been shown that authorization to use adjustable pricing pending a final analysis of and action with reference to the data presented is necessary to promote production and distribution of the commodities involved. This action is taken pending final action by this Office in order to remove any possible interference with the vitally important food program. The issuance of this order will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. Therefore, under the authority vested in the Price Administrator and pursuant to section 11 of Revised Maximum Price Regulation No. 320, *It is ordered:*

(a) Producers of containers subject to Revised Maximum Price Regulation 320 by agreement with purchasers other than wholesalers and dealers may sell and deliver such containers at prices to be adjusted in accordance with action to be taken by the Office of Price Administration after delivery.

(b) Pending final action to be taken by the Office of Price Administration with reference to the current analysis of the industry's operations, producers shall not make any collections on account of the containers delivered under such agreement which are in excess of the presently existing maximum prices in Revised Maximum Price Regulation No. 320.

(c) This order shall be automatically revoked by the action taken by the Office of Price Administration with reference to the current analysis of the industry's operations.

This order shall become effective June 6, 1946.

Issued this 6th day of June 1946.

(d) All additional charges for delivery shall be itemized separately on any sales slips furnished the buyer and record thereof shall be kept as required by section 8 of this order.

If he customarily prepared his sales slips in more than one copy he must keep a duplicate copy of each sales slip delivered by him pursuant to this section. Such sales slips and records required to be kept by subsection (b) of this section shall be kept at the seller's principal place of business in the area and shall be made available for inspection by representatives of the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

heard. The answer need not be in any particular form. The failure of respondent to file an answer shall constitute a waiver of any objection to the taking of such action as is deemed warranted.

§ 1599.5 *When a request for a hearing is not filed.* When the respondent fails to file an answer, or files an answer but does not request an opportunity to be heard, the regional attorney shall, on the basis of the information before him, including that contained in the answer, if such be filed, proceed as follows:

(a) When, for any reason, the regional attorney determines that the issues should be resolved in favor of respondent, he shall issue and cause to be served upon respondent, an order dismissing the proceeding;

(b) When, in the opinion of the regional attorney, the facts disclose that the proceeding should be terminated by the issuance of a warning letter, he may terminate the proceeding by serving a warning letter upon the respondent; or

(c) When the regional attorney determines that an order (including, but not limited to, an order suspending, revoking, or withdrawing, in any manner, any quota, license, subsidy, or authorization) should be issued against the respondent, the regional attorney shall make a recommendation therefor to the Administrator and transmit his recommendation, together with the docket and all the papers in the proceeding, to the Administrator.

§ 1599.6 *When a request for hearing is filed.* When, in connection with his answer, a respondent files with the regional attorney a request for a hearing, a notice fixing the time and place of the hearing shall be served on the respondent as hereinafter prescribed in these regulations: *Provided*, That, if the regional attorney determines that the information contained in the answer should result in resolving the issues in favor of the respondent, or if, for any other appropriate reason, the regional attorney determines the issues should be resolved in favor of the respondent, the regional attorney may, without a hearing, issue and serve upon the respondent such warning letter or order as the regional attorney deems advisable in finally disposing of the matter.

§ 1599.7 *Designation of presiding officer.* The hearing shall be conducted by a presiding officer designated, by the Solicitor or his representative, from among those persons authorized to hold hearings. No person who has any pecuniary interest in the outcome of the proceeding, who has participated in any investigation preceding the institution of the proceedings, or who is related to any of the parties to the proceeding, shall be designated to serve as presiding officer. In case of the absence, illness, resignation, or death of the presiding officer who has been assigned to a proceeding or in case the Solicitor or his representative determines that, for other good cause, the presiding officer should not act, the powers and duties to be performed by him in connection with the proceeding may be assigned to any other person authorized to hold hearings.

§ 1599.8 *Powers of presiding officer.* In any proceeding assigned to him, the presiding officer shall have power to:

(a) Rule upon motions and requests (all motions shall be in writing except that those made during the hearing may be stated orally);

(b) Adjourn the hearing from time to time and change the place of hearing (this power includes the right, for good cause shown, to continue the hearing so as to give the respondent an opportunity to appear where he has failed to appear at the designated time and place of hearing);

(c) Administer oaths or affirmations and take affidavits;

(d) Admit or exclude evidence;

(e) Issue subpenas requiring the attendance and testimony of witnesses and the production of books, papers, and other documentary evidence;

(f) Authorize, take, or order the taking of depositions;

(g) Hear oral arguments on facts or law;

(h) Consolidate hearings where he deems such consolidation appropriate;

(i) Issue notices of hearings; and

(j) Do all acts and take all measures necessary for the maintenance of order at the hearing and the efficient conduct of the proceeding.

§ 1599.9 *Notice of hearing.* Upon the receipt of a request for hearing, a presiding officer shall be designated as soon as practicable. The presiding officer, as soon as practicable, shall prepare and cause to be served upon the respondent a notice of hearing which shall fix a time and place for the hearing, require the respondent to appear before him at such time and place, and state that if the respondent does not appear as directed, such nonappearance shall be deemed a waiver of any objection to the taking of such action as is deemed warranted.

§ 1599.10 *Prehearing conferences.* In any proceeding in which it appears that such procedure will expedite the proceeding, the presiding officer may, at any time, request the parties or their counsel to confer with him to consider: (a) the simplification of the issues; (b) the possibility of obtaining stipulations of fact and agreements with respect to documents which may avoid the submission of documentary evidence and examination of witnesses; and (c) such other matters as may expedite and aid in the disposition of the proceeding. No transcript of such conference shall be made, but there shall be prepared and filed for the record a copy of any stipulations or agreements made as a result of the conference.

§ 1599.11 *Appearances.* Parties may appear at a hearing in person or by counsel.

§ 1599.12 *Contemptuous conduct.* Contemptuous conduct by any person at a hearing shall be ground for exclusion of the person from the hearing.

§ 1599.13 *Transcript of evidence.* Written transcript of the hearing is required. If the respondent desires a copy of the transcript, he must make seasonable request therefor and pay the regular charges therefor. Two legible copies of the transcript shall be furnished to the presiding officer within such time after completion of the taking of testimony as he shall direct. No transcript shall be made or considered part of the record until approved and certified by the presiding officer.

§ 1599.14 *Fees and mileage.* Witnesses who are subpenaed and who appear in the proceeding, including witnesses whose depositions are taken, shall be paid the same fees and mileage that are paid witnesses in the courts of the United States. Persons before whom depositions are taken shall be entitled to the same fees as are paid for like services in the courts of the United States, to be paid by the party at whose request the deposition is taken. The fees and mileage of witnesses shall be paid by the party at whose instance the witnesses appear, and claims therefor, as to witnesses subpenaed on behalf of the United States Department of Agriculture, shall be proved before the presiding officer and, as to witnesses subpenaed on behalf of any other party, shall be presented to such party.

§ 1599.15 *Depositions.* Upon the application of a party to the proceeding, the presiding officer may, at any time, order the taking of testimony by deposition. Applications for such an order shall be in writing. The presiding officer's order for the taking of a deposition shall be served upon the parties and shall state: (a) the time and place of the

examination; (b) the name of the officer before whom the examination is to be made; and (c) the name of the deponent. The deposition shall be taken before the presiding officer, or before an officer authorized by the law of the United States or by the law of the place of the examination to administer oaths, or before a person authorized by the Secretary of Agriculture to administer oaths. The deponent shall be examined under oath or affirmation and shall be subject to cross-examination. The testimony of the deponent shall be recorded by the officer or by some person under his direction and in his presence. The officer shall certify on the deposition that the deponent was duly sworn by him and that the deposition is a true record of the deponent's testimony. He shall then securely seal the deposition, together with two copies thereof, in an envelope and mail the same to the presiding officer when the deposition is not taken before the presiding officer. A deposition ordered and taken in accordance with the provisions of this section may be placed in evidence by any of the parties to the proceeding if the presiding officer finds that the contents thereof are otherwise admissible as evidence in the proceeding.

§ 1599.16 *Defaults and admissions.* (a) The failure of a respondent to appear at a hearing shall be deemed a waiver by him of the right to an opportunity to be heard and of any objection by him to the taking of such action as is deemed warranted by the facts. On such failure of the respondent to appear, the presiding officer shall prepare a certification of the nonappearance of the respondent for the record and may take such action as the regional attorney is allowed to take by § 1599.5 of these regulations.

(b) Upon the admission at the hearing by the respondent of the facts alleged in the notice served upon him, the presiding officer shall prepare a formal statement of such admission for the record. The presiding officer may, in his discretion, permit the introduction of evidence with respect to mitigating circumstances and conditions which will tend to assist in the determination of the nature of the final action to be taken. The presiding officer shall make a recommendation concerning the final action to be taken and forward the docket containing the record of the proceeding and his recommendation to the Administrator. The Administrator may thereupon take such action as is prescribed by § 1599.24 of these regulations.

§ 1599.17 *Evidence.* The testimony of witnesses at a hearing shall be upon oath or affirmation and subject to cross-examination. Any witness may, at the discretion of the presiding officer, be examined separately and apart from all other witnesses except those who are parties to the proceeding. The rules of evidence prevailing in courts of law and equity shall not be controlling. The test of admissibility shall be the reliability, relevancy, and probative force of the evidence offered. The grounds of any objection to the admission or rejection of any evidence may be briefly stated. The transcript shall not include argument except as permitted by the presiding officer. The ruling of the presiding officer shall be a part of the transcript. The presiding officer shall mark all of the exhibits received in evidence. Whenever practicable, an exhibit should be submitted with three copies. The refusal of a witness at a hearing to answer any question which has been ruled to be proper shall, in the discretion of the presiding officer, be ground for striking out all testimony previously given by such witness as to all matters. Affidavits may be received at the discretion of the presiding officer if the evidence is otherwise admissible.

§ 1599.18 *Manner of service.* Service of all documents required by these regulations to be served shall be made by personal service or registered mail.
